Kozyard KZPHG1218

Kozyard Apollo 10'x12' Hardtop Gazebo Instruction Manual

Model: KZPHG1218

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Kozyard Apollo 10'x12' Hardtop Gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference. Ensure all components are present and undamaged before proceeding.

SETUP AND ASSEMBLY

Careful assembly is crucial for the stability and longevity of your gazebo. It is recommended that at least two to three adults participate in the assembly process. Ensure you have adequate space and all necessary tools before starting.

Site Preparation

- Choose a level surface for installation.
- Clear the area of any debris, rocks, or uneven ground.
- Ensure sufficient clearance around the gazebo for safe use and maintenance.

Component Identification

Unpack all boxes and identify each component using the provided parts list. Lay out parts in an organized manner to streamline the assembly process.

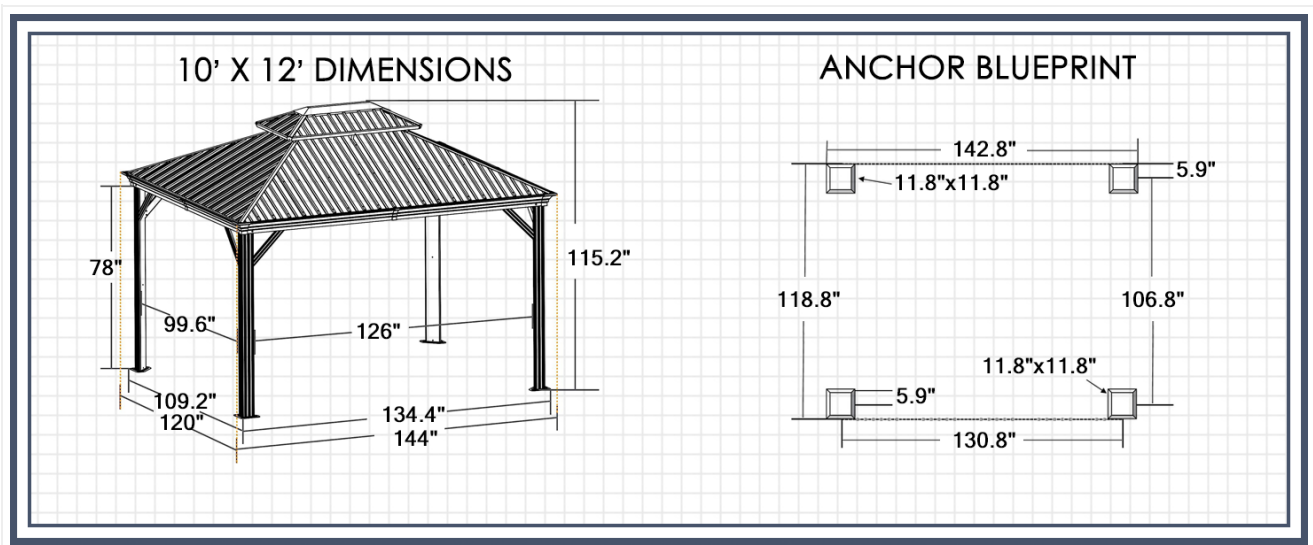

Image: Detailed dimensions and an anchor blueprint for the 10'x12' Kozyard Apollo Gazebo, essential for proper placement and secure installation.

Frame Assembly

1. Assemble the main support columns and beams, ensuring all connections are secure. The frame features a durable wooden-coated aluminum construction.
2. Attach the triangular support brackets to enhance structural stability.
3. Ensure all bolts are tightened according to the instructions, but do not overtighten until the entire frame is aligned.

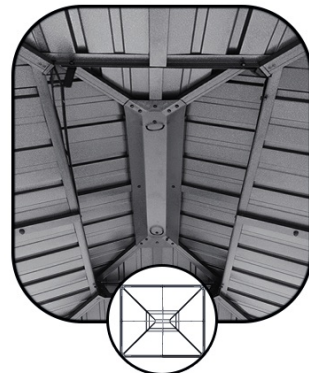

COLUMN

Pure aluminum casting
No welding, no splicing
Foundation anchoring

FRAME

Aluminum frame
Flying eaves crossbeam
Triangle support

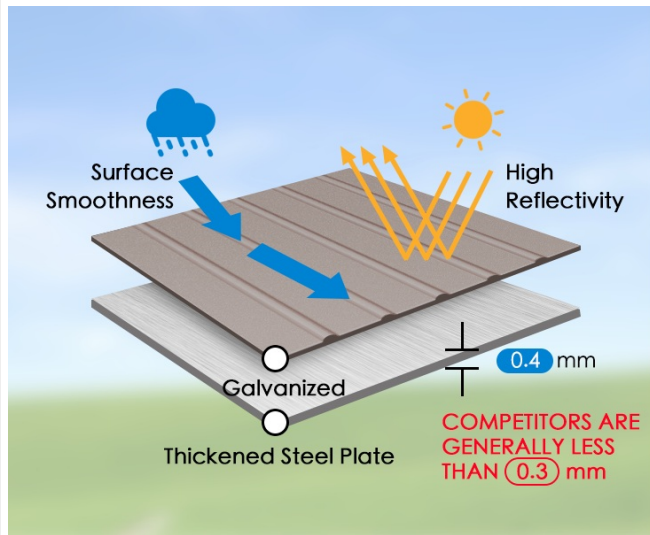

INNER ROOF

Tower structure
Radiation skeletons
Mosquito proof vent

Roof Installation

1. Install the galvanized steel double roof panels. These panels are designed for anti-weather performance and snow capacity up to 2000 lbs.
2. Follow the sequence provided in the detailed assembly guide to ensure proper overlap and sealing.
3. Secure all roof panels firmly.

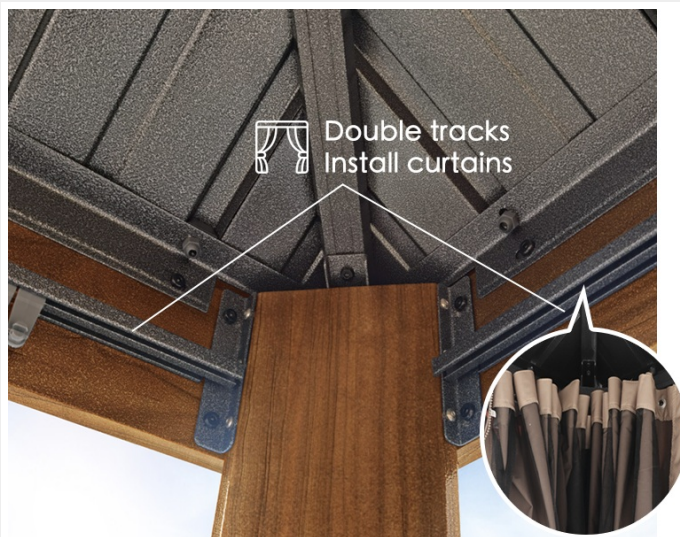

GALVANIZED CEILING

The galvanized material has a smooth surface and high reflectivity, providing insulation and smooth rainwater flow. thickened materials can reduce the sound of rain.

Image: A diagram explaining the features of the galvanized ceiling, including surface smoothness, high reflectivity for heat insulation, and sound reduction properties.

Netting and Curtain Track Installation

1. Install the double tracks for the mosquito netting and optional privacy curtains.
2. Hang the mosquito netting onto the inner tracks.

DOUBLE TRACKS

Support the installation of curtains and mosquito nets. The curtains are made of **FLAME-RETARDANT MATERIALS** and weigh up to 180 g. Competitors are usually not flame retardant materials, weighing around 140 g.

Anchoring the Gazebo

Always ensure the gazebo is securely anchored to the ground using the provided hardware or suitable alternatives for your specific surface. This is critical for stability, especially in windy conditions.

OPERATING YOUR GAZEBO

Mosquito Netting

The integrated mosquito netting provides protection from insects, allowing for comfortable outdoor enjoyment. The netting can be easily opened or closed along the double tracks.

Optional Privacy Curtains

If you have purchased optional privacy curtains, they can be installed on the outer tracks. These curtains offer additional shade and privacy. Ensure they are properly secured during windy conditions.

Internal Hooks

The gazebo features internal hooks on the multi-spoke frame structure, suitable for hanging lights or a fan (not included). Ensure any hung items do not exceed the weight capacity of the hooks and are installed safely.

INTERIOR

Multi spoke frame structure enhances structural stability.

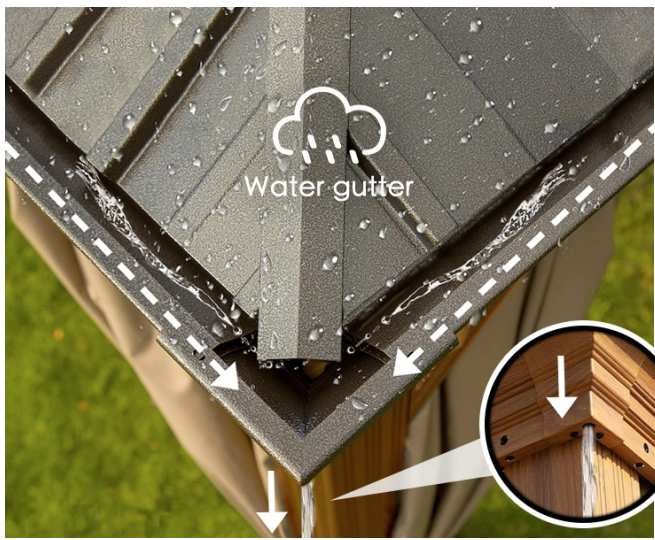

There are some hooks on the top that can hang fans, lights, etc.

MAINTENANCE

Regular inspection and maintenance will ensure the longevity and safety of your Kozyard Apollo Gazebo.

- **Cleaning:** Clean the frame and roof panels with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Fasteners:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary.
- **Drainage System:** The gazebo features a water gutter system to efficiently direct rainwater away. Regularly inspect and clear gutters of leaves and debris to prevent blockages.
- **Weather Conditions:** Do not use the gazebo in winds exceeding 40 MPH or in areas with heavy snowfall. While the roof is designed to withstand snow loads up to 2500 lbs, extreme conditions may require additional precautions or temporary disassembly.

DRAINAGE SYSTEM

Double roof slope drainage. quick drainage without blockage. The eaves have water gutter, drainage along columns.

Image: A visual representation of the gazebo's efficient drainage system, showing how the double roof slope and water gutters direct water down through the columns.

TROUBLESHOOTING

- **Missing Parts:** If you find any parts missing upon unpacking, please contact Kozyard LLC customer support immediately with your purchase details.
- **Assembly Difficulties:** Refer to the detailed assembly instructions and diagrams. Ensure all components are correctly oriented before tightening fasteners. Some steps may require extra hands for stability.
- **Wobbly Frame:** Ensure all bolts are securely tightened. Verify that the gazebo is placed on a level surface and properly anchored to the ground.
- **Water Leakage:** Check roof panel overlaps and ensure all seals are intact. Verify that the water gutter system is clear of debris and functioning correctly.

SPECIFICATIONS

Feature	Detail
Brand	Kozyard
Model Number	KZPHG1218
Product Dimensions	144"L x 120"W x 115.2"H (10ft x 12ft)
Item Weight	290 Pounds
Frame Material	Aluminum, Alloy Steel (Wood Looking Aluminum)
Roof Material	Galvanized Steel (29-gauge thickness)
Water Resistance Level	Waterproof
UV Protection	50
Snow Load Capacity	Up to 2500 lbs
Wind Speed Resistance	Up to 40 MPH (when anchored)
Floor Area	120 Square Feet
Assembly Required	Yes

OUR ADVANTAGES

1 Year
After-sales
Protection

U.S.-Based Service & Support

 Water-Resistant

 Load-Bearing
 Wet snow Δ 12 in
 Dry snow Δ 25 in

 Wind Resistance
 (anchored)
 Open sidewall Δ 80 mph winds
 Close sidewall Δ 40 mph winds

Thickening of Sheet Metal
Our = 0.4 mm
Other < 0.3 mm

Mosquito Net
Our: Metal
Other: Plastic

Anchored Base
Our: Bolts anchored
Other: No anchoring
