2.2. Key Features

- **4L Food Storage Capacity:** Suitable for extended periods, catering to an adult cat for approximately 28 days or a puppy for 10 days.
- **Flexible Scheduled Feeding:** Program up to 6 meals per day.
- **Precise Portion Control:** Dispense 1 to 50 portions per meal (approx. 10g per portion).

- **Freshness Preservation:** Airtight design with a desiccant bag to keep food fresh and crispy.
- **Dual Power Supply:** Operates via DC adapter or 3 alkaline D batteries (not included) for power outage backup.
- **Easy to Clean:** Removable components and a stainless steel bowl for hygienic feeding.
- **Anti-Clog Design:** Engineered to prevent food blockages.
- **Voice Recording:** Allows for recording a message to call your pet at meal times.

Keep fresh

A desiccant bag helps keep pet food dry and fresh within a period of time.

Strong-sealed Lock Lid

Strongly lock food tank and stop your pet from opening it.

Transparent Food Tank

Instantly know how much food is left and when to replenish it.

Image 2.2: Features highlighting freshness, secure lid, and transparent tank.

3. SETUP

3.1. Power Supply

The feeder can be powered by two methods:

1. **DC Adapter:** Connect the provided DC adapter to the feeder and plug it into a wall outlet. This is the primary power source.
2. **D Batteries (Backup):** For backup power during outages, insert 3 alkaline D batteries (not included) into the battery compartment at the bottom of the feeder. Ensure correct polarity.

Important: The master switch at the bottom of the feeder must be turned to "ON" before setup and operation.

Powered by a 5V DC adapter
(Includes an anti-bite line in package).

Uses 3 D alkaline batteries as a backup in
case of a power outage (Not Included in package).

3.2. Loading Food

1. Open the top lid of the feeder.
2. Place the desiccant bag into its designated slot in the lid to help keep food fresh.
3. Pour dry kibble into the food storage tank.
4. Close the lid securely to maintain freshness and prevent pets from accessing food.

Note: This feeder is designed exclusively for dry kibble with a diameter of 2-15mm. Using wet, soft, or powdered food may cause clogging and malfunction.

Recommended food size: 2-15mm

2mm 10mm 15mm 15mm

Recommended food types

Dry Kibbles Freeze-Dried food Air-Dried Kibbles

Reminder: Do not use kibble over 15mm, or it may get stuck in this feeder.

4. OPERATING INSTRUCTIONS

4.1. Setting Feeding Schedule

The intuitive control panel allows for easy programming of meal times and portions.

Easy to Set Up

An intuitive setting panel is suitable for all ages, helps avoid complicated operations and have your feeder up and running in no time.

Image 4.1: The feeder's intuitive control panel.

You can set up to 6 meals per day. Refer to the detailed instructions in the full user manual for specific button functions and programming steps.

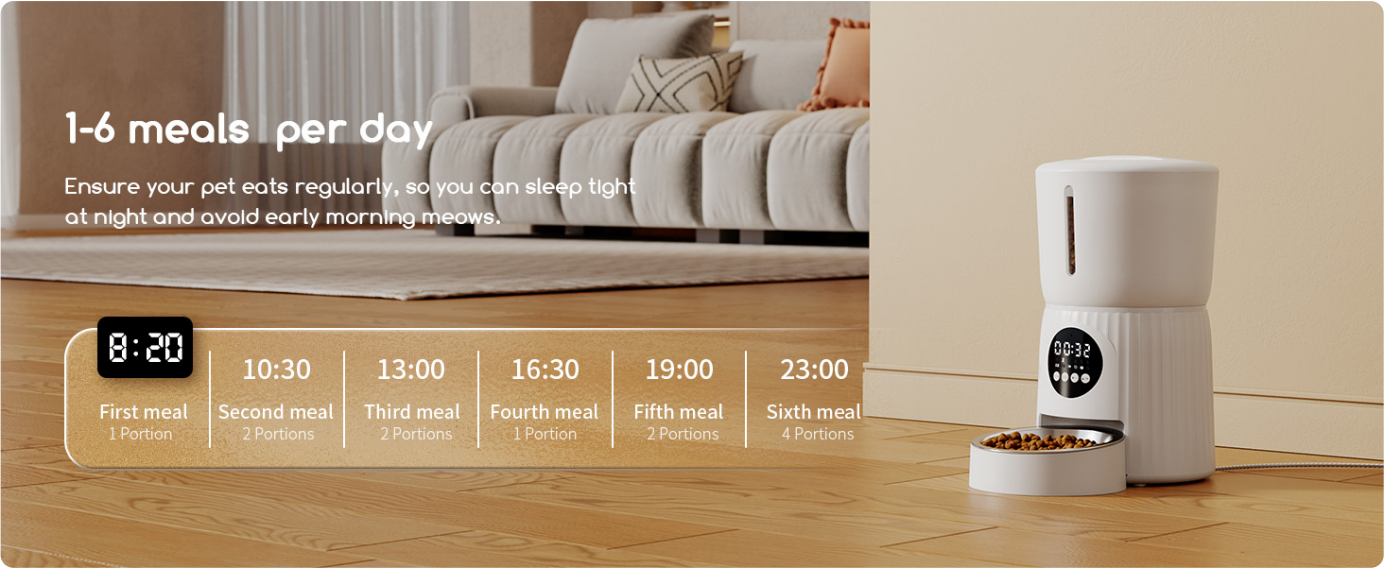

Image 4.2: Visual representation of setting multiple meals per day.

4.2. Portion Control

Each meal can be set to dispense between 1 and 50 portions. One portion is approximately 10g. Adjust the number of portions according to your pet's dietary needs to prevent overeating.

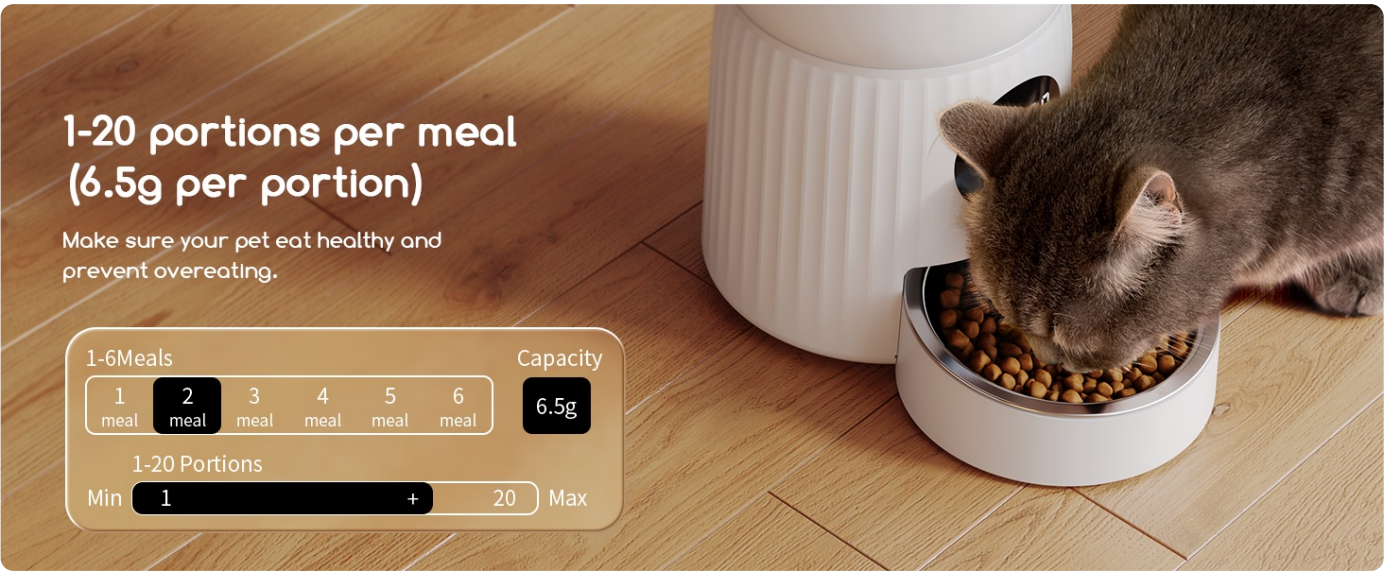

Image 4.3: Adjusting meal portions from 1 to 20 (or up to 50).

4.3. Voice Recording

The feeder supports voice recording. You can record a short message (e.g., your voice calling your pet) that will play at each scheduled meal time to attract your pet to the feeder.

Automatic Feeding

No more worries about missing feeding times

5. MAINTENANCE

5.1. Cleaning Instructions

Regular cleaning is essential for your pet's health and the feeder's longevity. The feeder features a detachable structure for easy cleaning.

- **Disassembly:** Carefully detach the food tank, stainless steel bowl, and the bowl holder from the main unit.
- **Washing:** The stainless steel bowl and plastic components (food tank, bowl holder) can be washed with mild soap and water. Rinse thoroughly.
- **Drying:** Ensure all parts are completely dry before reassembling to prevent moisture damage to the electronic components.
- **Main Unit:** Wipe the main unit with a damp cloth. Do not submerge the main unit in water.

Caution: Do not wash electronic components. Cleaning of all parts (except electronics) is recommended in the dishwasher for convenience.

Easy to Clean

Detachable structure for a hygienic feeding environment

Image 5.1: Exploded view showing detachable components for cleaning.

Stainless Steel Bowl

The food-grade steel bowl helps to ensure your pet's health and prevents allergic reactions.

Image 5.2: The food-grade stainless steel bowl.

5.2. Storage Information

Keep the feeder in a dry area when not in use or for long-term storage.

6. TROUBLESHOOTING

If you encounter any issues with your Faroro Automatic Cat Feeder, please refer to the troubleshooting guide on page 13 of the comprehensive user manual included with your product. Common issues and their solutions are detailed there. If problems persist after consulting the troubleshooting guide, please contact customer support for assistance.
