

Anker A2725

Anker PowerDrive+ III Duo 50W 2-Port USB C Car Charger

Model: A2725

INTRODUCTION

The Anker PowerDrive+ III Duo is a 50W 2-port USB-C car charger designed for fast and efficient charging of various mobile devices in your vehicle. It features PowerIQ 3.0 technology for optimized charging and Anker's MultiProtect safety system for device protection.

Key Features

- **Dual High-Speed Charging:** Equipped with two PowerIQ 3.0 enabled USB-C ports, delivering a total of 50W. One port provides 30W for devices like USB-C notebooks, and the other provides 20W for tablets and phones.
- **Broad Compatibility:** PowerIQ 3.0 technology ensures compatibility with a wide range of mobile devices, including phones, tablets, and notebooks from both Android and Apple ecosystems.
- **Superior Safety:** Anker's MultiProtect safety system includes temperature control, overload protection, and fireproof construction to prevent overheating and device damage.
- **Subtle LED Indicator:** A dim blue light helps locate the charger ports in low-light conditions without causing distraction.

SETUP

Follow these steps to set up your Anker PowerDrive+ III Duo car charger:

1. **Insert the Charger:** Firmly insert the Anker PowerDrive+ III Duo into your vehicle's 12V accessory power outlet (cigarette lighter socket). Ensure it is securely seated. The blue LED indicator ring will illuminate, confirming the charger is powered on.
2. **Connect Charging Cables:** Connect your USB-C charging cables (not included) to the appropriate ports on the car charger. The top port is labeled for 30W (Max) output, and the bottom port for 20W

(Max) output.

3. **Connect Devices:** Plug the other end of the charging cables into your compatible devices.

The Anker PowerDrive+ III Duo car charger inserted into a vehicle's power outlet, ready for use.

OPERATING INSTRUCTIONS

The Anker PowerDrive+ III Duo is designed for simple plug-and-play operation. PowerIQ 3.0 technology automatically detects and delivers the optimal charging speed for your connected devices.

Charging Devices

- **Single Device Charging:** Connect your device to either the 30W or 20W USB-C port. For devices

requiring higher power, such as laptops, use the 30W port.

- **Simultaneous Charging:** You can charge two devices concurrently. The charger will intelligently distribute power up to a combined total of 50W. For example, a laptop can charge via the 30W port while a smartphone charges via the 20W port.

The Anker PowerDrive+ III Duo simultaneously charging a smartphone and a tablet, demonstrating its dual-port capability.

Full-Speed Charging for MacBook Air

The Anker PowerDrive+ III Duo providing full-speed charging to a MacBook Air in a vehicle.

Fast Charge the iPhone 14 Series

The Anker PowerDrive+ III Duo demonstrating 3x faster charging for an iPhone compared to a standard 5W charger.

30W USB-C Port

iPad Air / Pro

MacBook Air

Samsung Notebook

Samsung Note 8 / S8
and Later

20W USB-C Port

iPhone 8 and Later

Google / Sony / LG

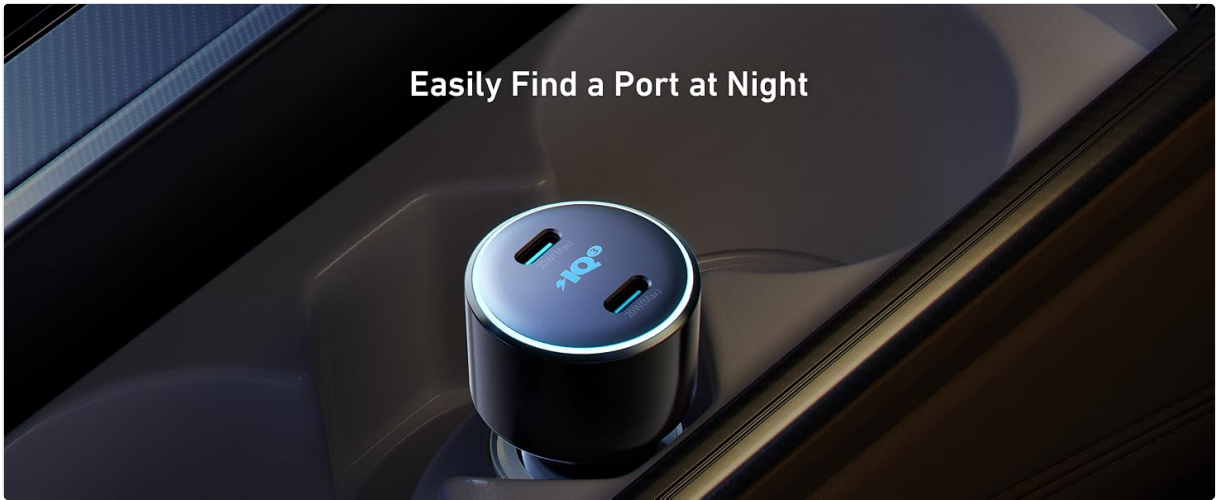

iPad mini / iPad

Universal Compatibility

Easily Find a Port at Night

The subtle blue LED ring on the Anker PowerDrive+ III Duo helps users easily locate the charging ports in the dark.

MAINTENANCE

To ensure the longevity and optimal performance of your Anker PowerDrive+ III Duo car charger, follow these maintenance guidelines:

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the exterior. Avoid using liquid cleaners or solvents.
- **Storage:** When not in use, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Avoid Moisture:** Do not expose the charger to water or excessive moisture.
- **Handle with Care:** Avoid dropping the charger or subjecting it to strong impacts.

TROUBLESHOOTING

If you encounter issues with your Anker PowerDrive+ III Duo, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Charger not powering on (LED not lit)	Loose connection in car outlet; vehicle power outlet not active; blown fuse in vehicle.	Ensure the charger is firmly inserted. Check if the car's ignition is on. Consult your vehicle's manual for power outlet fuse location and replacement.
Device not charging or charging slowly	Faulty charging cable; device not compatible with fast charging; incorrect port used for high-power device.	Try a different USB-C cable. Ensure your device supports Power Delivery (PD) for optimal speed. Use the 30W port for laptops and other high-power devices.
Charger or device overheating	Excessive load; poor ventilation; internal fault.	Disconnect devices and allow to cool. Ensure charger is not covered. If overheating persists, discontinue use and contact customer support. Anker's MultiProtect system is designed to prevent this.

MultiProtect Safety System

· Temperature Control ·

· Overload Protection ·

· Fireproof Construction ·

The Anker MultiProtect Safety System incorporates temperature control, overload protection, and fireproof construction for enhanced safety.

SPECIFICATIONS

- **Model Number:** A2725
- **Connector Type:** USB Type C
- **Brand:** Anker
- **Color:** Black
- **Special Feature:** Fast Charging
- **Power Source:** Corded Electric
- **Number of Ports:** 2 (USB-C)
- **Output Current:** 4 A (Total)
- **Port Output:** 30W Max (Port 1), 20W Max (Port 2)
- **Item Weight:** 1.28 ounces
- **Item Dimensions:** 2.98 x 1.42 x 1.42 inches
- **UPC:** 194644075972
- **Compatible Devices:** iPhone 15, 14, 13, 12, 11 Series; Samsung Galaxy S20, S10, S9, Note 9; iPad Pro, iPad Air, iPad mini; MacBook Air; Huawei P10, Mate 9, Mate 20X, Mate 20 Pro; LG G7, V30+; Google Pixel 3a, 3XL, 3, 2XL, 2; Nexus 5X, 6P; Sony XZ2 Premium, XZ3, and more.
