Medic Therapeutics MT-AIRPURH13ACFILTER-001

Medic Therapeutics HEPA H13 Filter Instruction Manual

Model: MT-AIRPURH13ACFILTER-001

PRODUCT OVERVIEW

The Medic Therapeutics HEPA H13 Filter is a replacement filter designed for use with Medic Therapeutics Air Purifiers. It features a 3-stage filtration system to enhance air quality.

- **Fine Preliminary Filter:** Captures larger particles.
- **HEPA H13 Filter:** Captures 99.97% of airborne allergens as small as 0.3 microns, including pollen, pet dander, bacteria, mold spores, and dust mite debris.
- **Negative Ion Filtration:** Further contributes to cleaner air.

This filter provides 100% ozone-free true HEPA purification.

SETUP AND INSTALLATION

Follow these steps to replace the filter in your Medic Therapeutics Air Purifier:

1. **Prepare:** Ensure the air purifier is turned off and unplugged from the power outlet.
2. **Access Filter Compartment:** Locate the filter cover on your air purifier. Rotate the filter cover counter-clockwise to unlock and remove it.
3. **Remove Old Filter:** Carefully remove the used filter from the air purifier.
4. **Insert New Filter:** Place the new Medic Therapeutics HEPA H13 Filter into the air purifier, ensuring it is seated correctly.
5. **Secure Cover:** Replace the filter cover and rotate it clockwise to lock it into place.
6. **Reset Filter Indicator:** Plug in the air purifier. Press and hold the 'Filter' button for 3 seconds to reset the filter replacement indicator.

OPERATING PRINCIPLES

The HEPA H13 filter functions as a critical component of your air purifier's filtration system. Air is drawn into the purifier and

passes through the multi-stage filter. The preliminary filter captures larger dust and hair particles. Subsequently, the HEPA H13 layer traps microscopic allergens and pollutants. Finally, negative ions are released to further purify the air, contributing to a fresher indoor environment.

MAINTENANCE

Regular filter replacement is essential for maintaining the efficiency and performance of your air purifier. It is recommended to replace the air filter every **6 months**. The air purifier's filter indicator light will typically signal when a replacement is due. Refer to the "Setup and Installation" section for detailed replacement instructions.

TROUBLESHOOTING

If you encounter issues after replacing the filter, consider the following:

- **Filter Not Seated Correctly:** Ensure the new filter is fully inserted and the filter cover is securely locked. An improperly seated filter can prevent the unit from operating or trigger error codes.
- **Filter Indicator Not Reset:** After replacing the filter, you must manually reset the filter indicator by pressing and holding the 'Filter' button for 3 seconds. If this step is missed, the indicator may remain lit.
- **Error Codes:** If error codes persist after verifying proper installation and resetting the indicator, consult the main air purifier's instruction manual or contact Medic Therapeutics customer support for further assistance.

SPECIFICATIONS

Brand	Medic Therapeutics
Model Number	MT-AIRPURH13ACFILTER-001
Filter Type	HEPA H13 (True HEPA) with 3-in-1 Filtration System (Preliminary, HEPA H13, Negative Ion)
Filtration Efficiency	Captures 99.97% of airborne allergens down to 0.3 microns
Ozone Emission	100% Ozone Free
Recommended Replacement	Every 6 months
Product Dimensions	12 x 8 x 12 inches
Item Weight	13.7 ounces (0.39 Kilograms)
Material	Polyester, Polypropylene
Compatible Devices	Medic Therapeutics Air Purifier
UPC	886678521760

WARRANTY AND SUPPORT

For information regarding product warranty, technical support, or to purchase additional replacement filters, please refer to the official Medic Therapeutics website or contact their customer service department. Contact details are typically provided with your original air purifier purchase or on the manufacturer's website.
