

Suttik 2022

Suttik Professional Hair Clippers and Trimmers User Manual

Model: 2022 | Brand: Suttik

INTRODUCTION

Thank you for choosing the Suttik Professional Hair Clippers and Trimmers Set. This comprehensive kit is designed to provide a professional-grade hair cutting and trimming experience in the comfort of your home. This manual provides essential information on the product's features, setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device.

SAFETY INFORMATION

Ensure proper use and cleaning, avoid ingestion/inhalation of small parts, and consider age/supervision when necessary. Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

PACKAGE CONTENTS

Your Suttik Professional Hair Clippers and Trimmers Set includes the following items:

- Cordless Hair Clipper (with 8 guide combs)
- Detail Hair Trimmer (with 3 guide combs)
- Barber Cape
- Cleaning Brush
- 2 USB Charging Cables
- Barber's Comb
- Protective Cover

PRODUCT FEATURES

Sharp Carbon Stainless Steel Blades

Both the hair clipper and detail trimmer feature sharp carbon stainless steel blades designed for professional hair cutting performance without snagging or pulling hair. The main clipper includes a 4-adjustable taper lever (0.8-2mm) for precise length control.

Sharp Carbon Stainless Steel Blade

Professional hair cutting
performance without pulling hair

Image: A detailed view of the Suttik hair clipper's sharp carbon stainless steel blade, illustrating its design for smooth cutting and the adjustable taper lever for fine-tuning hair length.

Powerful Rotary Motor

Equipped with a 10W powerful rotary motor, these trimmers ensure efficient and effective hair cutting. The motor operates quietly at 52 dB and is designed for long-term durability with a life expectancy of 1000 hours.

Get Fresh Style with Multi Guards

Image: An internal diagram illustrating the powerful rotary motor within both the Suttik hair clipper and detail trimmer, emphasizing its 10W power, 6500 RPM speed, quiet operation, and long lifespan.

Smart Digital Display

Both devices feature a built-in digital display that shows the remaining charge level as a percentage, charging status, and lubrication reminder indicators. This helps prevent unexpected power loss during use and ensures proper maintenance.

High Performance Battery Life

Image: A close-up view of the Suttik clipper's smart digital display, clearly showing the battery percentage, an oil reminder icon, and a charging indicator, providing real-time status updates to the user.

High Capacity Battery

The hair clipper is equipped with a 2500mAh Lithium battery, providing up to 240 minutes of running time after a 2.5-hour charge. The detail trimmer has a 600mAh Lithium battery, offering up to 120 minutes of running time from a 1.5-hour charge.

Get Fresh Style with Multi Guards

Image: A graphic representation detailing the high-capacity batteries of both the Suttik hair clipper and detail trimmer, showing their respective mAh, running times, and charging durations.

Multi-Size Guide Combs

The hair clipper comes with 8 guide combs (3mm, 6mm, 10mm, 13mm, 16mm, 19mm, 22mm, 25mm) for various hair lengths. The detail trimmer includes 3 guide combs (1mm, 2mm, 3mm) for precise detailing and beard trimming.

Ergonomic Design

Suttik professional cordless hair clippers are crafted from stainless steel, ensuring durability, scratch resistance, and protection from mechanical damages. Their ergonomic design provides a comfortable grip for extended use.

Clippers for Hair Cutting

Trimmers for Precise Cutting

Image: Two separate images demonstrating the Suttik hair clipper in use for general hair cutting and the detail trimmer being used for precise beard and hairline shaping.

SETUP

Initial Charge

Before first use, fully charge both the hair clipper and the detail trimmer. Connect the provided USB charging cable to the charging port on the device and plug the other end into a compatible USB power adapter (not included). The digital display will indicate charging status. The hair clipper takes approximately 2.5 hours for a full charge, and the detail trimmer takes about 1.5 hours.

Attaching Guide Combs

Select the desired guide comb based on the hair length you wish to achieve. Align the comb with the clipper or trimmer blade and push it firmly until it clicks into place. Ensure the comb is securely attached before operation.

Adjusting Taper Lever (Hair Clipper Only)

The main hair clipper features an adjustable taper lever on the side. Move the lever up or down to adjust the cutting length of the blade from 0.8mm to 2mm without a guide comb, or to blend hair more smoothly when

using guide combs.

OPERATING INSTRUCTIONS

General Hair Cutting (Hair Clipper)

1. Ensure the clipper is fully charged.
2. Attach the appropriate guide comb for your desired length.
3. Turn on the clipper using the power button.
4. Hold the clipper with the blade flat against the head and move it slowly against the direction of hair growth.
5. Use the barber's comb to lift hair and guide the clipper for an even cut.
6. For blending, adjust the taper lever as needed.

Precise Trimming (Detail Trimmer)

1. Ensure the trimmer is fully charged.
2. For beard trimming or precise lines, you may use the 1mm, 2mm, or 3mm guide combs, or use without a comb for closest cuts.
3. Turn on the trimmer.
4. Carefully outline hairlines, trim beards, or create designs with the T-blade.
5. Move the trimmer slowly and steadily for clean, sharp lines.

MAINTENANCE

Cleaning the Blades

1. After each use, turn off the device and remove any attached guide comb.
2. Use the provided cleaning brush to remove loose hairs from the blades and the clipper/trimmer body.
3. For a more thorough cleaning, the blades can be carefully detached (refer to specific instructions if provided in the physical manual for your model).

Oiling the Blades

Regular oiling is crucial for maintaining blade sharpness and smooth operation. The digital display on your device will show a lubrication reminder icon when oiling is needed. Apply a few drops of clipper oil (not included) to the blades after cleaning, especially when the oil reminder appears. Turn on the device for a few seconds to distribute the oil evenly, then wipe off any excess.

Storage

Store the clippers and trimmers in a dry, cool place, away from direct sunlight and moisture. Use the protective cover for the blades when not in use to prevent damage.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery.	Charge the device fully. Check the digital display for battery level.
Blades pull hair or cut unevenly.	Blades are dull, dirty, or not oiled.	Clean the blades thoroughly. Apply clipper oil. If issues persist, blades may need replacement.
Device makes unusual noise.	Blades are not properly aligned or need oiling.	Ensure blades are correctly aligned. Apply clipper oil. If noise continues, contact support.
Digital display not working.	Device malfunction.	Ensure device is charged. If problem persists, contact customer support.
