SoundMAGIC P23BT

SoundMAGIC P23BT Headphones

USER MANUAL

Model: P23BT | Brand: SoundMAGIC

INTRODUCTION

The SoundMAGIC P23BT headphones are designed to provide a superior audio experience with both wireless and wired connectivity options. Equipped with advanced Bluetooth 5.0 technology and a Qualcomm QCC3034 chip, they ensure a stable and efficient connection. The headphones feature 40mm dynamic drivers for Hi-Fi sound and a CVC noise-canceling microphone for clear communication. Their comfortable and durable design makes them suitable for extended use.

SETUP

Unboxing the P23BT Headphones

The SoundMAGIC P23BT headphones come in a well-packaged gift box, ensuring the product and its accessories are securely protected. Upon opening, you will find the headphones, a detachable microphone cable, a USB-C charging cable, a carrying case, and the user manual.

Charging the Headphones

Before first use, fully charge your P23BT headphones. Connect the supplied USB-C charging cable to the charging port on the headphone ear cup and the other end to a USB power source. A full charge takes approximately 1 hour and provides up to 60 hours of wireless music playback.

Bluetooth Pairing

To pair your headphones with a device:

1. Ensure the headphones are powered off.
2. Press and hold the power button until the LED indicator flashes, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "P23BT" from the list to connect.
5. Once connected, the LED indicator will show a steady light.

The headphones support Bluetooth 5.0 for a stable and fast connection, and will automatically reconnect to the last paired device when powered on.

OPERATING THE HEADPHONES

Touch Controls

The P23BT headphones feature intuitive touch controls on the ear cup for easy management of audio playback and calls:

- **Double-tap:** Play/Pause music, Answer/End calls.
- **Swipe forward/backward:** Skip tracks.
- **Swipe up/down:** Adjust volume.
- **Triple-tap:** Activate voice assistant.

Wired Mode

For situations where wireless connectivity is not preferred or battery is low, the P23BT headphones can be used in wired mode. Simply connect the supplied detachable cable with the microphone to the headphone's 3.5mm jack and to your audio source. This mode is particularly useful for gaming, providing clear audio and communication without battery limitations.

Wireless or Wired Mode

The P23BT headphone can be used as a wired game headset by replacing with the supplied microphone cable.

The game experience is as good as the professional game headset.

MAINTENANCE

Comfort and Durability

The headphones are designed for comfort with ultra-soft protein leather earcups and memory foam padding. The stainless steel headband is wrapped in skin-friendly, sweat-proof silicone material, ensuring durability and easy cleaning. The lightweight and portable design, along with adjustable earmuffs and 90-degree inward rotation, make them comfortable for long listening sessions and easy to store.

COMFORTABLE AND DURABLE

Cleaning and Storage

To maintain your headphones, wipe them regularly with a soft, dry cloth. Avoid using harsh chemicals. When not in use, fold the headphones and store them in the provided carrying case to protect them from dust and damage.

TROUBLESHOOTING

- No Power:** Ensure the headphones are fully charged using the supplied USB-C cable.
- Cannot Pair:** Make sure the headphones are in pairing mode (flashing LED) and your device's Bluetooth is enabled. Try restarting both devices.
- Poor Audio Quality:** Check the distance between the headphones and your device (Bluetooth range is up to 13m). Ensure there are no obstructions. For wired mode, ensure the cable is securely connected.
- Microphone Issues:** If using the detachable microphone, ensure it is fully plugged into the headphone jack. For Bluetooth calls, ensure the CVC noise canceling is active.
