MILAGROW Seagull

MILAGROW Seagull (2025 Edition) Robotic Vacuum Cleaner User Manual

Model: Seagull

1. INTRODUCTION

This manual provides essential instructions for the safe operation, maintenance, and troubleshooting of your MILAGROW Seagull (2025 Edition) Wet & Dry Robotic Vacuum Cleaner. Please read this manual thoroughly before using the product and retain it for future reference.

Image: The MILAGROW Seagull (2025 Edition) Robotic Vacuum Cleaner, showcasing its sleek white design and compact form factor.

2. SAFETY INFORMATION

Always adhere to the following safety precautions to prevent injury or damage to the device:

- Ensure the power adapter is compatible with your local voltage.
- Do not operate the robot in wet environments or near flammable materials.
- Keep loose clothing, hair, and body parts away from moving parts.
- Supervise children and pets when the robot is operating.
- Remove any cables, small objects, or fragile items from the cleaning path to prevent entanglement or damage.
- Do not use the robot to pick up large debris, sharp objects, or liquids other than water for mopping.
- Only use manufacturer-approved accessories and replacement parts.

3. WHAT'S IN THE BOX

Verify that all components are present upon unboxing:

- MILAGROW Seagull Robotic Vacuum Cleaner
- Charging Dock
- Rechargeable Battery Pack (pre-installed or separate)
- Charger/Power Adapter
- HEPA Filter (1 installed + 1 extra)
- Instruction Manual
- Main Dustbin
- Microfiber Mop
- Side Brush (2 installed + 2 extra)
- Water Tank

4. PRODUCT OVERVIEW

The MILAGROW Seagull (2025 Edition) is a wet and dry robotic vacuum cleaner designed for efficient floor cleaning. Key features include:

- **Slim Design:** At approximately 7.2 cm (2.8 inches) thin, it can clean under furniture.
- **Powerful Suction:** Up to 3000Pa suction power for effective dirt and pet hair removal.
- **Gyro Mapping:** Navigates in S-patterns for comprehensive coverage.
- **Wet & Dry Cleaning:** Features a 650 ml dustbin and a 110 ml water tank for vacuuming and mopping.
- **Multiple Cleaning Modes:** Auto, Edge, and Spot modes.
- **Smart Sensors:** Fall detection, obstacle sensors, extra dirt sensing, and self-charging.
- **Control Options:** Mobile App, Remote Control, and Alexa voice commands.

Image: The robotic vacuum cleaner demonstrating its 2-in-1 smart cleaning and mopping function on a hard floor.

Image: The ultra-slim design of the MILAGROW Seagull allows it to clean effectively under low furniture like sofas.

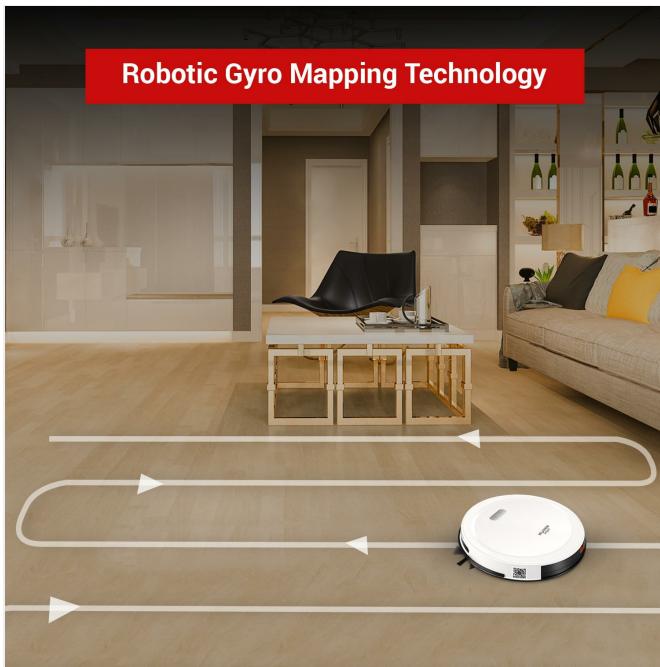

Image: Illustration of the robotic gyro mapping technology, showing the robot's systematic cleaning path.

5. SETUP GUIDE

- Unpacking:** Carefully remove all components from the packaging. Remove any protective films or shipping materials from the robot and charging dock.
- Install Side Brushes:** Snap the side brushes onto their respective posts on the underside of the robot.
- Charging Dock Placement:** Place the charging dock against a wall in an open area, ensuring there are no obstacles within 1 meter (3 feet) to the sides and 2 meters (6 feet) in front of the dock. Connect the power adapter to the dock and plug it into a wall outlet.
- Initial Charge:** Place the robot onto the charging dock. Ensure the charging contacts on the robot align with those on the dock. The robot will begin charging automatically. For first-time use, charge the robot for at least 8 hours to optimize battery life.
- App Connection (Optional):** Download the MILAGROW app from your smartphone's app store. Follow the in-app instructions to connect your robot to your home Wi-Fi network. This enables advanced features like scheduling and remote control.
- Water Tank (for Mopping):** If using the mopping function, fill the water tank with clean water and attach the microfiber mop pad. Insert the water tank into the designated slot on the robot.

Image: The robotic vacuum cleaner automatically returning to its charging dock when battery levels are low.

6. OPERATING INSTRUCTIONS

6.1 Starting a Cleaning Cycle

- **Manual Start:** Press the power button on the robot or the "Clean" button on the remote control to start cleaning in Auto mode.
- **App Control:** Open the MILAGROW app, select your device, and choose a cleaning mode or schedule a cleaning session.
- **Voice Control:** If integrated with Alexa, use voice commands such as "Alexa, ask Seagull to start cleaning."

6.2 Cleaning Modes

The MILAGROW Seagull offers several cleaning modes:

- **Auto Mode:** The robot cleans systematically in an S-pattern, covering the entire area. This is the default mode for general cleaning.
- **Edge Mode:** The robot cleans along walls and furniture edges, ideal for thorough perimeter cleaning.
- **Spot Mode:** The robot cleans a specific area in a spiral pattern, suitable for concentrated dirt or spills.

Image: Visual representation of the four distinct cleaning modes: Bow-Shaped Path (Auto), Wall Follow (Edge), Spiral (Spot), and Random.

Image: The robot vacuum highlighting its Smart AI Cleaning Modes, including Spot Spiral, Smart Zig Zag, and Wall-to-Wall cleaning.

6.3 Suction Power Adjustment

The robot automatically adjusts suction power based on floor type and dirt level. You can also manually adjust suction via the mobile app or remote control. The iBoost technology provides deep cleaning on carpets by increasing suction.

Image: The MILAGROW Seagull seamlessly moving from a hard floor to a carpet, showcasing its ability to handle different floor types and its anti-collision, anti-drop, and climbing abilities.

6.4 Wet Mopping Function

To use the wet mopping function, ensure the water tank is filled and the microfiber mop pad is attached. The robot will vacuum and mop simultaneously. Remove the water tank and mop pad when cleaning carpets or if mopping is not desired.

7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your robotic vacuum cleaner.

7.1 Dustbin and Filter Cleaning

- Press the dustbin release button and remove the dustbin.
- Empty the dustbin contents into a trash receptacle.
- Remove the HEPA filter and primary filter. Tap them gently to remove dust. Do not wash the HEPA filter with water.
- Rinse the dustbin with water if necessary, ensuring it is completely dry before reinstallation.
- Reinstall the filters and dustbin.

Image: Components of the MILAGROW Seagull's filtration system, including the HEPA filter, for effective dust capture.

7.2 Side Brush Cleaning

- Periodically remove the side brushes by pulling them upwards.
- Remove any tangled hair or debris.
- Reinstall the brushes, ensuring they click into place. Replace worn brushes with the provided extras.

7.3 Main Brush Cleaning

- Open the main brush cover on the underside of the robot.
- Remove the main brush and use the cleaning tool (if provided) to cut and remove tangled hair or fibers.
- Reinstall the main brush and close the cover.

7.4 Water Tank and Mop Pad Cleaning

- After each mopping session, remove the water tank and empty any remaining water.
- Detach the microfiber mop pad and rinse it thoroughly with water. Allow it to air dry completely before reuse.

7.5 Sensor Cleaning

- Wipe the anti-drop sensors (located on the bottom) and obstacle sensors (on the bumper) with a clean, dry cloth.
- Ensure the charging contacts on both the robot and the dock are clean.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Robot does not start or respond.	Low battery; Power switch off; Robot stuck.	Charge the robot; Turn on the power switch; Clear obstacles.
Robot cannot find charging dock.	Dock obstructed; Dock not powered; Robot too far.	Ensure clear path to dock; Check power connection; Manually place robot near dock.

Problem	Possible Cause	Solution
Poor cleaning performance.	Dustbin full; Brushes tangled; Filter clogged.	Empty dustbin; Clean main/side brushes; Clean or replace filter.
Robot gets stuck frequently.	Loose cables; Small objects; High thresholds.	Clear floor of obstacles; Use virtual barriers if available; Avoid areas with high thresholds.
Mopping function not working.	Water tank empty; Mop pad dry; Tank not installed correctly.	Fill water tank; Moisten mop pad; Reinstall water tank securely.

9. SPECIFICATIONS

Feature	Detail
Brand	MILAGROW
Model Name	Seagull
Special Feature	Wet/Dry Cleaning
Colour	White
Product Dimensions	Diameter: 31.2 cm, Height: 7.2 cm
Filter Type	HEPA
Dustbin Capacity	0.65 litres (650 ml)
Water Tank Capacity	0.11 litres (110 ml)
Suction Power	Up to 3000Pa
Power Source	Battery Powered
Control Method	Remote, App, Voice (Alexa)
Manufacture Year	2025
Country of Origin	China

10. WARRANTY INFORMATION

The MILAGROW Seagull (2025 Edition) Robotic Vacuum Cleaner comes with a **1-Year Warranty** from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use. Please retain your purchase receipt as proof of warranty.

For detailed warranty terms and conditions, please refer to the official MILAGROW website or contact customer support.

11. CUSTOMER SUPPORT

For any queries, technical assistance, or service requests, please contact MILAGROW customer support:

Toll-Free Helpline: 9910019853

Helpline: 011-49099819

E-mail: customercare@milagrow.in

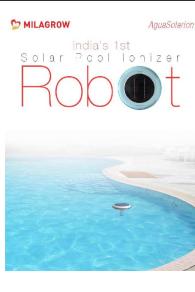

Support is available Monday to Saturday, 9:30 AM to 6:30 PM.
