Silonn SLIM01

Silonn Countertop Ice Maker Instruction Manual

Model: SLIM01

1. Introduction

Thank you for choosing the Silonn Countertop Ice Maker. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read it thoroughly before first use and keep it for future reference.

Figure 1: Silonn Countertop Ice Maker, showcasing its sleek stainless steel design and included ice scoop.

2. Safety Information

- Ensure the ice maker is placed on a stable, level surface away from direct sunlight or heat sources.
- Allow the unit to stand upright for at least 24 hours before first use if it has been tilted during transport.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Unplug the ice maker from the power outlet before cleaning or when not in use.
- Keep children away from the appliance during operation.
- Do not use abrasive cleaners or sharp objects to clean the interior.
- Remove the blue-green protective film from the surface before use.

3. Package Contents

- Silonn Countertop Ice Maker Unit
- Ice Basket
- Ice Scoop
- User Manual (this document)

4. Setup

1. **Unpacking:** Carefully remove the ice maker from its packaging. Remove all protective films, including the blue-green film on the stainless steel surface.
2. **Placement:** Place the ice maker on a stable, level countertop. Ensure there is adequate ventilation around the unit, especially near the fan vents on the sides and back.
3. **Initial Cleaning:** Before first use, clean the interior of the ice maker, including the water reservoir, ice basket, and ice scoop, with a soft cloth and mild detergent. Rinse thoroughly with clean water.
4. **Water Filling:** Open the lid and remove the ice basket. Fill the water reservoir with potable water up to the 'MAX' fill line. Do not overfill.
5. **Initial Cycles:** For optimal performance and hygiene, it is recommended to run 2-3 ice-making cycles and discard the ice produced during these initial cycles. This helps to flush out any manufacturing residues.

Figure 2: The detachable ice basket and the water tank with the 'MAX' fill line clearly visible.

5. Operating Instructions

5.1 Control Panel Overview

The control panel is located on the top of the unit and features indicator lights and buttons for easy operation.

- **ON/OFF/CLEAN Button:** Press briefly to turn the unit ON/OFF. Press and hold for 5 seconds to activate the self-cleaning mode.
- **SELECT Button:** Press to choose between small (S) and large (L) ice cube sizes.
- **ADD WATER Indicator:** Lights up red when the water reservoir needs refilling.
- **ICE FULL Indicator:** Lights up red when the ice basket is full, and the unit will pause ice production.
- **POWER Indicator:** Lights up green when the unit is powered on and operating.

- **S/L Indicators:** Lights up green to indicate the selected ice cube size (Small or Large).

5.2 Making Ice

1. Ensure the water reservoir is filled to the 'MAX' line.
2. Press the **ON/OFF/CLEAN** button briefly to turn on the ice maker. The POWER indicator will light up green.
3. Press the **SELECT** button to choose your desired ice cube size (Small or Large). The corresponding 'S' or 'L' indicator will light up.
4. The ice maker will begin producing ice. Each cycle takes approximately 6 minutes to produce 9 bullet-shaped ice cubes.
5. When the ice basket is full, the**ICE FULL** indicator will light up, and the unit will automatically pause. Remove ice from the basket to resume production.
6. If the **ADD WATER** indicator lights up, refill the water reservoir to continue ice production.

Figure 4: Comparison of the two available ice cube sizes: small and large bullet ice.

5.3 Quiet Operation

The Silonn Ice Maker is designed to operate with minimal noise, ensuring a peaceful environment in your home or office.

6. Maintenance

6.1 Self-Cleaning Function

The ice maker features a convenient self-cleaning function:

1. Ensure the water reservoir is filled with clean water.
2. Press and hold the **ON/OFF/CLEAN** button for 5 seconds. The unit will enter self-cleaning mode, circulating water through its internal components.

3. Once the cleaning cycle is complete, drain the water from the reservoir.

Figure 5: Activating the self-cleaning function by pressing and holding the designated button.

6.2 Regular Cleaning

- Regularly clean the interior components (water reservoir, ice basket, ice scoop) with a soft cloth and a solution of water and vinegar or mild detergent to prevent mineral buildup and gunk.
- Ensure all water is drained from the unit after each use, especially if not used daily, to prevent stagnant water issues and potential mold/gunk formation.
- Wipe down the exterior with a soft, damp cloth. Do not use harsh chemicals.

7. Troubleshooting

Problem	Possible Cause	Solution
Ice maker not producing ice / Only water.	Insufficient water in reservoir; Ambient temperature too high; Refrigerant issue.	Refill water reservoir. Ensure unit is in a cool, well-ventilated area. If problem persists, contact customer support.
ICE FULL indicator is on, but basket is not full.	Ice sensor is blocked or dirty.	Clean the ice sensor. Ensure ice cubes are not stuck.
Black gunk/film in water reservoir.	Stagnant water; Mineral buildup; Mold/algae growth.	Regularly clean the reservoir and drain water after each use. Use filtered water. Run self-cleaning cycles with vinegar solution.
Ice melts quickly in the basket.	Ice maker is not a freezer; Ambient temperature.	This unit is designed to make ice, not store it long-term. Transfer ice to a freezer or insulated container immediately after production.
Unit makes unusual noises (e.g., fan issues).	Internal component malfunction.	Ensure unit is on a stable surface. If noise is persistent or indicates malfunction, discontinue use and contact customer support.
Unit does not turn on.	No power; Faulty power cord/outlet.	Check power connection and outlet. Try a different outlet.

8. Specifications

Feature	Detail
Brand	Silonn
Model Name	SLIM01
Product Dimensions	12.3"D x 8.7"W x 12.6"H
Item Model Number	SLIM01
Capacity	26 Pounds (ice production in 24 hours)
Wattage	160 watts
Ice Production Time	9 cubes in 6 minutes
Ice Cube Sizes	Small, Large (Bullet-shaped)
Self-Cleaning Function	Yes
Date First Available	June 23, 2021

Feature	Detail
Manufacturer	SeaLoon International Group (HongKong) Limited
Country of Origin	China
