

HOMCOM 835-144BK

HOMCOM Sideboard Storage Cabinet with Solid Wood Countertop

MODEL: 835-144BK

1. Introduction

Thank you for choosing the HOMCOM Sideboard Storage Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new furniture. Please read these instructions carefully before beginning assembly and retain them for future reference.

This versatile cabinet features a durable solid wood countertop, two smooth-gliding drawers, and a two-door cabinet with an adjustable interior shelf, offering practical storage solutions for various spaces in your home.

2. Safety Information

WARNING: This product can expose you to chemicals including wood dust, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

- Always assemble the product on a soft, clean surface to prevent scratches.
- Ensure all parts and hardware are present before assembly. Do not use power tools for assembly unless specifically instructed, as this may damage the product.
- Do not stand on the product or use it as a step stool.
- To prevent tipping, always secure the cabinet to a wall using the provided anti-tipping hardware.
- Keep small parts and packaging materials away from children and pets.

3. Package Contents

Before assembly, verify that all components and hardware are present. Refer to the included parts list and hardware diagram in your packaging. Typically, the package includes:

- Cabinet panels (side panels, top panel, bottom panel, back panels, drawer fronts, door panels)

- Solid wood countertop
- Drawer slides and hardware
- Door hinges and hardware
- Adjustable shelf and shelf pins
- Knobs for drawers and doors
- Anti-tipping hardware
- Assembly screws, dowels, and cam locks

If any parts are missing or damaged, please contact customer support before proceeding with assembly.

4. Assembly Instructions (Setup)

Assembly typically requires two adults and approximately 2-3 hours. Follow the step-by-step diagrams provided in your product packaging. The general assembly sequence is as follows:

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface. Carefully identify each part by its label and compare it with the parts list.
2. **Assemble the Frame:** Attach the side panels to the bottom and top panels using the provided hardware (dowels, screws, cam locks). Ensure all connections are secure.
3. **Install Drawer Slides:** Attach the drawer slides to the interior side panels of the cabinet frame. Pay close attention to the orientation of the slides to ensure smooth operation.
4. **Assemble Drawers:** Construct the two drawers, attaching the drawer fronts and installing the remaining drawer slide components. Insert the drawers into the cabinet frame.
5. **Install Adjustable Shelf:** Insert the shelf pins into the desired height positions within the cabinet. Place the adjustable shelf onto the pins. The shelf offers 3-level adjustability.
6. **Attach Doors:** Secure the door hinges to the cabinet doors and then attach the doors to the cabinet frame. Adjust hinges as necessary to ensure proper door alignment.
7. **Attach Back Panels:** The back panel consists of two pieces joined by a plastic strip. Secure the back panels to the rear of the cabinet using the small screws provided, ensuring the plastic strip is correctly positioned for a stable connection.
8. **Place Countertop:** Carefully place the solid wood countertop onto the assembled cabinet frame. Secure it if specific fasteners are provided.
9. **Install Knobs:** Attach the decorative knobs to the drawers and doors.
10. **Secure Anti-Tipping Hardware:** Attach the anti-tipping strap to the back of the cabinet and then to a wall stud using appropriate wall anchors. This step is crucial for safety.

5. Operating Instructions (Usage)

Your HOMCOM Sideboard Storage Cabinet is designed for versatile use in various home environments.

- **Drawers:** Utilize the two top drawers for storing smaller items such as utensils, napkins, or office supplies. The smooth slide rails ensure easy access.
- **Cabinet Storage:** The two-door cabinet provides ample space for larger items like plates, plastic containers, pots, or pans. The magnetic locks keep the doors securely closed.
- **Adjustable Shelf:** Customize the interior storage space by adjusting the shelf to one of three available heights to accommodate items of varying sizes.
- **Countertop:** The solid rubberwood countertop serves as a practical workspace for food preparation, a coffee bar station, or a display area for decorative items.

AMPLE STORAGE SPACE

Offer ideal storage for utensils or other items, making your house organized and clean

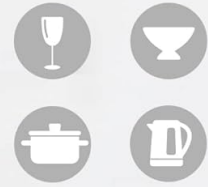

Figure 5: Ample storage space behind the cabinet doors.

6. Maintenance

- **Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. For the rubberwood countertop, use a normal dishcloth and mild cleaner if necessary. Avoid harsh chemicals or abrasive cleaners.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood and engineered wood surfaces.
- **Hardware:** Periodically check and tighten all screws and fasteners to ensure the cabinet remains stable and secure.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or damage to the finish.

7. Troubleshooting

- **Wobbly Cabinet:** Ensure all screws and cam locks are fully tightened. Verify that the cabinet is placed on a level surface. If necessary, use shims under the legs to stabilize.
- **Drawers Not Sliding Smoothly:** Check that the drawer slides are correctly installed and aligned. Ensure no obstructions are in the slide mechanism.
- **Doors Not Aligning:** Adjust the door hinges. Most hinges allow for minor adjustments to align doors

horizontally, vertically, and in depth. Refer to the hinge manufacturer's instructions if specific adjustments are needed.

- **Missing or Damaged Parts:** Do not attempt to force assembly with incorrect or damaged parts. Contact HOMCOM customer support for replacements.

8. Specifications
