4. Assembly Instructions

Follow these steps to assemble your 1500-piece jigsaw puzzle:

1. **Build the Border:** Begin by finding all the straight-edged pieces. Assemble these pieces to form the outer frame of the puzzle. This provides a clear boundary and helps define the overall shape.
2. **Sort by Color and Pattern:** Once the border is complete, sort the remaining inner pieces into groups based on their colors, textures, or distinct elements from the image. Refer to the image on the puzzle box for guidance.
3. **Assemble Sections:** Work on individual sections or areas of the puzzle that have easily identifiable colors or patterns. Connect these smaller sections together.
4. **Connect Sections:** Gradually connect the assembled sections to each other, using the border as a guide, until the entire image is complete.
