4. OPERATING INSTRUCTIONS

4.1 Using the Brush Tip

The brush tip allows for flexible line work. Apply light pressure for fine lines and increased pressure for broader strokes. This tip is ideal for detailed work, blending, and creating painterly effects.

4.2 Using the Chisel Tip

The chisel tip is designed for covering larger areas quickly and efficiently. It can also be used to create sharp, consistent lines and add texture to your artwork.

4.3 Blending Techniques

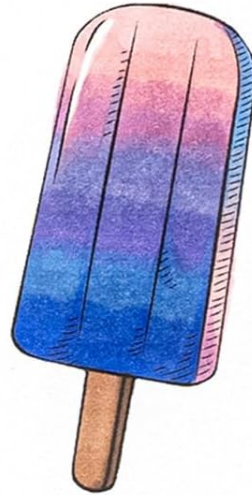

Ohuhu alcohol markers are formulated for seamless blending. Apply lighter colors first, then layer darker colors

over them. Use the colorless blender marker to soften edges, create gradients, or lift color from an area. Work quickly as the ink dries fast.

5.2 Replacing Tips

Worn-out tips can be replaced to maintain optimal performance. Ohuhu offers replacement brush and chisel tips. Gently pull out the old tip with tweezers and insert a new one. Ensure the new tip is fully seated.

5.3 Storage

Always recap your markers tightly after use to prevent them from drying out. Store markers horizontally to ensure even ink distribution to both tips. The included carrying case is designed for organized and secure storage.

6. TROUBLESHOOTING

6.1 Dry Marker Tips

If a marker tip appears dry, it may be due to insufficient ink or improper storage. Try refilling the marker as described in Section 5.1. Ensure markers are stored horizontally with caps tightly secured.

6.2 Ink Bleeding

Alcohol markers can bleed through thin paper. To prevent this, use specialized marker paper or place a bleed-proof sheet (such as the one provided with your set) behind your artwork. Experiment with different paper types to find what works best for your style.

6.3 Uneven Color Application

Uneven color can result from applying too much ink in one area or not blending quickly enough. Practice layering and blending techniques on scrap paper. The colorless blender can help smooth out uneven areas.
