Operating Instructions

Place your television centrally on the top surface of the stand, ensuring it does not exceed the recommended size of 55 inches and the maximum weight capacity of 88 lb (40 kg). Utilize the open shelves for media players, gaming consoles, soundbars, or decorative items. The side compartments are ideal for larger speakers or vertical consoles. Route all cables through the designated holes at the back of the central shelves to maintain a clean and organized appearance.

Maintenance

- **Cleaning:** Wipe the surfaces with a damp cloth for general cleaning. For best results, follow with a dry cloth to prevent water spots. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Regular Checks:** Periodically check all screws and fasteners to ensure they remain tight. Retighten if necessary to maintain stability.
- **Avoid Overloading:** Do not place items heavier than the specified maximum load capacities on any part of the stand.

Troubleshooting

- **Wobbly Stand:** If the TV stand feels unstable or wobbly, check the adjustable feet on each leg. Rotate them to extend or retract until the stand is level and firm on the floor. Ensure all assembly screws are securely tightened.
- **Missing Parts:** If any parts are missing from the assembly kit, please contact customer support with your purchase details.
- **Difficulty Assembling:** Refer to the included detailed instruction manual. If issues persist, contact customer support for assistance.
