Medic Therapeutics B097YPNJXW

Medic Therapeutics Hearing Aid User Manual

Model: B097YPNJXW

Introduction

Thank you for choosing the Medic Therapeutics Hearing Aid with Rechargeable Carrying Case. This device is designed to be lightweight, portable, and rechargeable, offering a comfortable and discreet fit. It features volume control and an in-ear design for enhanced sound quality, amplifying and making sounds more audible while reducing background noise. This manual provides essential information for the proper setup, operation, and maintenance of your hearing aid.

Product Overview

Components

- Hearing Aids (Left and Right)
- Rechargeable Carrying Case
- Extra Silicone Ear Tips (Multiple Sizes)
- Wax Protectors
- Multi-purpose Brush/Tool
- USB Charging Cable

Setup

First Use

1. Fully charge the hearing aids and the carrying case before first use. Refer to the 'Charging' section for detailed instructions.
2. Select the appropriate ear tip size for a comfortable and secure fit. The hearing aids are universally designed for both left and right ears.

Inserting the Hearing Aids

1. Gently insert the hearing aid into your ear canal.
2. Ensure the hearing aid sits snugly and comfortably within your ear. The shape is designed to conform to the structure of the human ear canal.
3. Use the small pull line to easily remove the hearing aid when needed.

Operating Instructions

Power On/Off

The hearing aids typically power on automatically when removed from the charging case and power off when placed back into the case.

Volume Control

Locate the volume control button on the hearing aid. Press the button to adjust the sound amplification to your preferred level. Start with a lower volume and gradually increase it.

Noise Reduction System

The hearing aids feature an automatic noise reduction system designed to minimize background noise and enhance the clarity of speech and other desired sounds.

Charging

Charging the Hearing Aids

1. Place the hearing aids into their designated slots within the rechargeable carrying case.
2. Ensure they are properly seated to make contact with the charging pins.
3. The hearing aids will begin charging automatically.

Charging the Carrying Case

1. Connect the provided USB charging cable to the charging port on the carrying case.
2. Connect the other end of the USB cable to a compatible USB power adapter (not included) or a computer USB port.
3. The charging indicator lights on the case will illuminate to show charging status.
4. A full charge for both the hearing aids and the case takes approximately 4-5 hours.
5. Once fully charged, the hearing aids provide up to 10 hours of working time.

Maintenance

Cleaning

- Regularly clean your hearing aids to ensure optimal performance and hygiene.
- Use the provided multi-purpose brush/tool to gently remove any earwax or debris from the ear tips and sound output.
- Wipe the body of the hearing aid and the charging case with a soft, dry cloth.
- Do not use water or cleaning solutions directly on the hearing aids.

Storage

- When not in use, store the hearing aids in their rechargeable carrying case to protect them and keep them charged.

- Store in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
Hearing aid not charging	Improper placement in case; Case not charged; Dirty charging contacts	Ensure hearing aids are correctly seated; Charge the carrying case; Clean charging contacts with a dry cloth.
No sound or low sound	Low battery; Ear tip clogged with wax; Volume too low	Recharge hearing aids; Clean ear tip and wax protector; Increase volume using the control button.
Hearing aid falls out of ear	Incorrect ear tip size; Improper insertion	Try a different size ear tip for a more secure fit; Re-insert the hearing aid ensuring it sits snugly.
Whistling or feedback sound	Improper fit; Ear tip too loose; Hand/object too close to ear	Re-insert the hearing aid for a tighter seal; Try a larger ear tip; Avoid covering the hearing aid with your hand.

Specifications

Feature	Detail
