

Hanwha Techwin PND-A6081RF

Hanwha Techwin Wisenet PND-A6081RF 2MP IP52 AI Infrared Flush-Mounted Dome Camera User Manual

Model: PND-A6081RF

1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of the Hanwha Techwin Wisenet PND-A6081RF 2MP IP52 AI Infrared Flush-Mounted Dome Camera. This advanced surveillance camera integrates AI algorithms to enhance detection accuracy and reduce false alarms, focusing on people and vehicles.

The PND-A6081RF is designed for flush-mounted installations, offering a discreet yet powerful surveillance solution with features like 2MP resolution, infrared illumination, and deep learning-based analytics.

2. SAFETY INFORMATION

Please read all safety instructions carefully before installing and operating the camera. Failure to follow these instructions may result in injury or damage to the device.

- **Power Source:** Use only the specified power adapter (12V DC) to prevent electrical shock or fire.
- **Installation:** Installation should be performed by qualified personnel in accordance with all local electrical codes. Ensure the mounting surface can support the camera's weight.
- **Environment:** This camera has an IP52 rating, indicating protection against dust and dripping water. It is primarily designed for indoor use. Avoid exposing the camera to extreme temperatures, humidity, or direct water spray.
- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth. Do not use liquid or aerosol cleaners.
- **Servicing:** Do not attempt to service this product yourself. Refer all servicing to qualified service personnel.

3. PACKAGE CONTENTS

Verify that all items are present in the package before proceeding with installation:

- Hanwha Techwin Wisenet PND-A6081RF Dome Camera
- Instructions (This User Manual)
- Mounting Hardware (screws, anchors, etc. - specific items may vary)
- Installation Template (if applicable)

4. SETUP AND INSTALLATION

4.1. Mounting the Camera

The PND-A6081RF is designed for flush-mounted installation, typically in a ceiling. Ensure the chosen location provides a clear field of view and is structurally sound to support the camera.

1. **Prepare the Mounting Surface:** Cut a circular opening in the ceiling according to the dimensions provided in the installation template (if included).
2. **Run Cables:** Route the necessary network (Ethernet) and power cables through the opening.
3. **Secure the Mounting Bracket:** Attach the camera's mounting bracket to the ceiling using the provided screws and anchors.
4. **Connect Cables:** Connect the Ethernet cable to the camera's network port and the 12V DC power cable to the power input.
5. **Insert Camera:** Carefully insert the camera body into the mounting bracket and secure it according to the specific mechanism (e.g., twist-lock, spring clips).
6. **Adjust Lens:** Once mounted, adjust the camera lens to achieve the desired viewing angle.

Figure 4.1: Front view of the Hanwha Techwin Wisenet PND-A6081RF camera, showing its flush-mounted design.

4.2. Initial Network Configuration

After physical installation, the camera needs to be configured on your network. This typically involves assigning an IP address and setting up access credentials.

- **Connect to Network:** Ensure the camera is connected to your local network via an Ethernet cable.
- **Discover Camera:** Use the Hanwha Techwin Device Manager software (available on the official website) to discover the camera on your network.
- **Assign IP Address:** Configure a static IP address or ensure DHCP assigns an appropriate address.
- **Set Administrator Password:** For security, change the default administrator password immediately upon first access.
- **Access Web Interface:** Open a web browser and enter the camera's IP address to access its web-based configuration interface.

Figure 4.2: Angled view of the Hanwha Techwin Wisenet PND-A6081RF, highlighting its compact dome design.

5. OPERATING THE CAMERA

5.1. Video Monitoring and Recording

The camera supports a maximum resolution of 2MP (1920x1080) at up to 120 frames per second (fps). Video streams can be accessed via the camera's web interface, a Network Video Recorder (NVR), or compatible Video Management Software (VMS).

- **Live View:** Access the live video feed through the web interface or VMS.
- **Recording:** Configure recording schedules, motion-triggered recording, or continuous recording via your NVR or VMS. The camera supports H.265, H.264, and MJPEG compression formats, along with WiseStreamII and WiseStreamIII (using AI engine) for efficient bandwidth and storage usage.
- **Image Enhancement:** Utilize features like Wide Dynamic Range (WDR 120dB) and WiseNR II (using AI engine) for clear images in challenging lighting conditions. The camera also features IR LED for clear black and white images in low-light or no-light environments (0 Lux).

Figure 5.1: Front view of the Hanwha Techwin Wisenet PND-A6081RF camera, highlighting the Wisenet branding.

5.2. AI-Based Video Analytics

The PND-A6081RF leverages deep learning AI to provide advanced video analytics, significantly reducing false alarms and improving search efficiency.

- **Object Detection and Classification:** The camera can accurately detect and classify objects such as Person, Face, Vehicle, and License Plate. This allows for more precise event triggering compared to traditional motion detection.
- **Face Mask Detection:** Detects individuals with or without face masks and can trigger alerts.
- **Social Distancing Detection:** Monitors and alerts based on social distancing guidelines.

- **Attribute Search:** Metadata including attributes (e.g., people: age, gender, clothing colors; vehicle: types, colors) is sent to the backend server, enabling quick and specific searches.
- **BestShot:** Ensures that only the most suitable images of classified objects are sent to the backend server for re-identification, optimizing storage and search.

5.3. Business Intelligence Integration

The camera is compatible with Wisenet Retail Insight v2.0 for various business intelligence applications:

- **Age/Gender based People Counting:** Provides demographic insights into foot traffic.
- **Heatmap:** Visualizes areas of high activity within the camera's field of view.
- **Queue Management:** Helps monitor and manage customer queues.

Figure 5.2: View of the Hanwha Techwin Wisenet PND-A6081RF, illustrating its internal structure and mounting points.

6. MAINTENANCE

6.1. Cleaning the Camera

Regular cleaning helps maintain optimal image quality. Before cleaning, ensure the camera's power is disconnected.

- Use a soft, lint-free cloth to gently wipe the dome cover and camera body.
- For stubborn smudges, slightly dampen the cloth with water. Do not use harsh chemicals, abrasive cleaners, or solvents.
- Avoid touching the lens directly with your fingers. If necessary, use a lens cleaning solution and a microfiber cloth designed for optical surfaces.

6.2. Firmware Updates

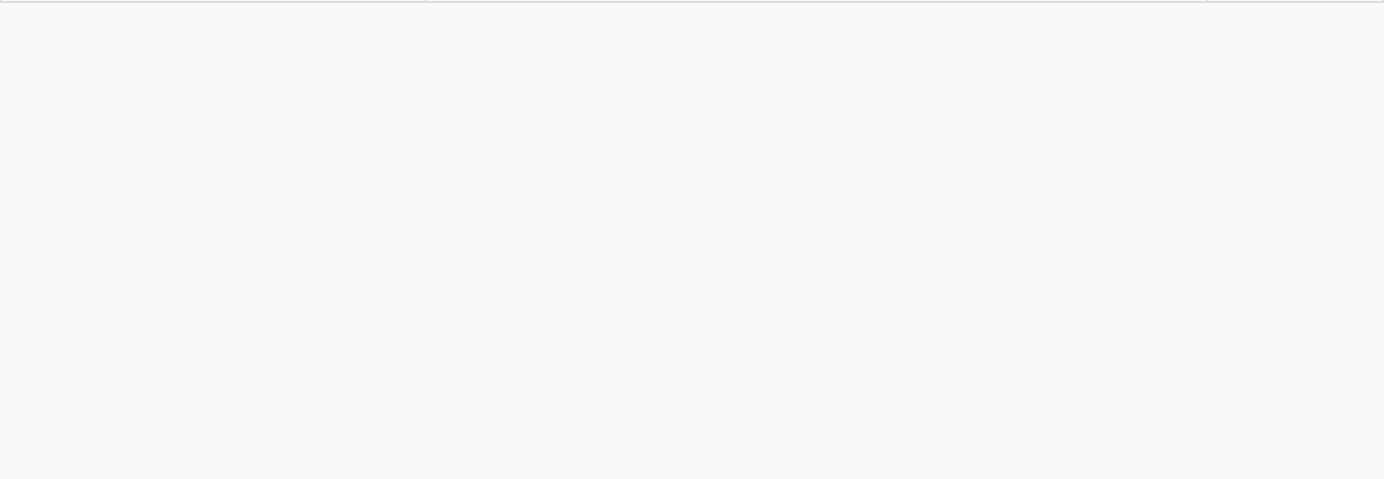

Hanwha Techwin periodically releases firmware updates to improve performance, add features, and address security vulnerabilities. It is recommended to keep your camera's firmware up to date.

- Visit the official Hanwha Techwin website to check for the latest firmware version for your PND-A6081RF model.
- Follow the instructions provided with the firmware download for the update process. Typically, this involves uploading the firmware file via the camera's web interface.
- Ensure a stable power supply during the firmware update process to prevent interruption and potential damage to the camera.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your camera.

Problem	Possible Cause	Solution
No power to camera	Power cable disconnected; faulty power adapter; no power from source.	Check power cable connection. Verify power adapter is working. Test power outlet.
No video feed	Network cable disconnected; incorrect IP address; network configuration issue; camera not powered on.	Ensure network cable is securely connected. Verify camera's IP address and network settings. Check power. Restart camera.
Poor image quality	Dirty lens/dome cover; improper focus; insufficient lighting; network bandwidth issues.	Clean the dome cover and lens. Adjust focus via web interface. Ensure adequate lighting or verify IR functionality. Check network bandwidth.

Problem	Possible Cause	Solution
False alarms from AI analytics	Incorrect AI sensitivity settings; environmental factors (e.g., strong wind moving objects).	Adjust AI detection sensitivity and region settings in the camera's web interface. Ensure firmware is up to date.

If the problem persists after attempting these solutions, please contact Hanwha Techwin technical support.

8. SPECIFICATIONS

Feature	Detail
Model	PND-A6081RF
Brand	Hanwha Techwin
Resolution	Max. 2MP (1920x1080)
Frame Rate	Up to 120fps
Minimum Illumination	0.007Lux@F1.3 (Color), 0Lux (B/W, IR LED on)
Day & Night	ICR (Infrared Cut Filter Removable)
Wide Dynamic Range (WDR)	120dB
Noise Reduction	WiseNR II (Using AI engine)
Video Compression	H.265, H.264, MJPEG, WiseStream II, WiseStream III (Using AI engine)
AI Video Analytics	Object detection and classification (Person, Face, Vehicle, License Plate), Face mask detection, Social distancing detection, Attribute, BestShot
Business Intelligence	Compatible with Wisenet Retail Insight v2.0 (Age/gender based People counting, Heatmap, Queue management)
Security	TPM with FIPS 140-2 level2, Secure boot, Verify firmware forgery
System Requirements	SSM v2.10.8 or later, Genetec plugin v1.0 or later, Milestone plugin v1.0.2 or later, NVR model (XRN-6410DB4/B4, XRN)
Power Source	Corded Electric, 12 Volts (DC)

Feature	Detail
Connectivity Technology	Wired (Ethernet), Wi-Fi (for certain functions/setup)
Mounting Type	Ceiling Mount (Flush-Mounted Dome)
International Protection Rating	IP52
Indoor/Outdoor Usage	Indoor
Form Factor	Dome
Color	Chrome

9. WARRANTY AND SUPPORT

9.1. Warranty Information

Hanwha Techwin products typically come with a limited warranty. Please refer to the warranty card included with your product or visit the official Hanwha Techwin website for detailed warranty terms and conditions specific to the PND-A6081RF model. Keep your proof of purchase for warranty claims.

9.2. Technical Support

For technical assistance, troubleshooting beyond this manual, or inquiries about product functionality, please contact Hanwha Techwin technical support.

- **Website:** Visit the official Hanwha Techwin support portal for FAQs, downloads, and contact information.
- **Contact:** Specific contact details (phone numbers, email) can usually be found on the support section of their website.

When contacting support, please have your camera's model number (PND-A6081RF) and serial number ready.
