

Qman 3105-1

Qman Trans Collector METEOR MARS 3105-1 Building Set Instruction Manual

Model: 3105-1 | Pieces: 157

1. INTRODUCTION

The Qman Trans Collector METEOR MARS 3105-1 is a versatile 2-in-1 building set comprising 157 interlocking pieces. This set enables the construction of two distinct models: a powerful robot figure and a sleek vehicle. This manual provides essential information for assembly, operation, and maintenance to ensure a rewarding and enjoyable building experience.

2. SAFETY INFORMATION

- Recommended for ages 6 and up. The manufacturer's recommended age is 12 years and up for optimal building experience.
- This product contains small parts which may pose a choking hazard. Keep away from children under 3 years of age.
- Adult supervision is recommended during assembly and play, especially for younger builders.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning assembly:

- 157 x Building Pieces (various shapes and sizes)
- 1 x Instruction Manual (this document, and a physical booklet)

4. SETUP AND ASSEMBLY INSTRUCTIONS

This building set allows for the construction of two distinct models: a robot (Flame Swordman) and a vehicle (Meteor Mars).

4.1 General Assembly Guidelines

1. **Unpack and Sort:** Carefully unpack all components. It is recommended to sort the pieces by color or shape to facilitate easier assembly.
2. **Refer to Physical Manual:** The detailed, step-by-step assembly diagrams are provided in the physical instruction booklet included with your set. Follow these diagrams precisely.
3. **Secure Connections:** Ensure all building pieces are firmly connected. A secure connection prevents the models from becoming unstable or falling apart during play.

4.2 Building the Robot (Flame Swordman)

The primary configuration is a robot figure, often depicted as the 'Flame Swordman', equipped with a sword accessory. Begin by assembling the core body structure, then proceed to attach the limbs, head, and any specific accessories as indicated in the physical instruction booklet.

4.3 Building the Vehicle (Meteor Mars)

The alternative configuration is a dynamic vehicle, typically resembling a jet or spacecraft, known as 'Meteor Mars'. This model utilizes the same 157 pieces, reconfigured to form the vehicle. Consult the specific sections within your physical instruction booklet for detailed assembly steps for the vehicle form.

5. OPERATING (TRANSFORMATION)

The Qman Trans Collector METEOR MARS 3105-1 set is designed for 2-in-1 functionality, allowing you to transform between the robot and vehicle forms. This transformation is achieved by disassembling one model and reassembling the pieces into the other.

- **Transformation Process:** To switch between the robot and vehicle, carefully dismantle the currently assembled model into its component parts. Then, follow the specific assembly instructions in your physical manual to construct the desired alternative form.
- **Note:** Transformation is not a single-step action; it involves a rebuilding process.

6. MAINTENANCE

- **Cleaning:** To clean the building pieces, gently wipe them with a dry, soft cloth. For more persistent dirt, a slightly damp cloth with a mild soap solution can be used, followed by thorough drying. Do not immerse the pieces in water.
- **Storage:** Store all building pieces and assembled models in a cool, dry environment, away from direct sunlight. This helps prevent discoloration and material degradation. Keep smaller pieces in a designated container to prevent loss.

7. TROUBLESHOOTING

- **Missing Pieces:** If you discover any missing pieces, please contact the retailer or the manufacturer's customer support. Provide your product model number (3105-1) and a clear description of the missing part.
- **Difficulty Assembling:** Review the step-by-step diagrams in your physical instruction booklet carefully.

Ensure that all pieces are correctly oriented and fully pressed into place. Some pieces may appear similar but have subtle differences.

- **Model Instability:** If an assembled model feels unstable, re-examine the connections and joints. Ensure all pieces are firmly attached and no parts are incorrectly placed or loose.

8. SPECIFICATIONS

Product Model	3105-1
Number of Pieces	157
Material	Plastic
Product Dimensions (approx.)	20 x 3 x 10 cm
Item Weight	100 g
Recommended Age	6 years and up (Manufacturer recommended: 12 years and up)
Assembly Required	Yes
Batteries Required	No
Release Date	August 1, 2023

9. WARRANTY AND SUPPORT

For specific warranty information, customer service inquiries, or technical support, please refer to the contact details provided on the product packaging or visit the official Qman website. It is advisable to retain your purchase receipt as proof of purchase for any warranty claims.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
