Shop-Vac 2.5 Gallon 2.5 Peak HP Wet/Dry Vacuum User Manual

Model: SV2021018

INTRODUCTION

This manual provides essential information for the safe and efficient operation and maintenance of your Shop-Vac 2.5 Gallon 2.5 Peak HP Wet/Dry Vacuum. Please read this manual thoroughly before using the product and retain it for future reference.

PRODUCT OVERVIEW

The Shop-Vac 2.5 Gallon 2.5 Peak HP Wet/Dry Vacuum is a versatile and compact cleaning solution designed for both wet and dry applications. Its portable design and multi-functional capabilities make it suitable for various tasks around the home, garage, workshop, and vehicle.

PACKAGE CONTENTS

Verify that all items listed below are included in your package. If any parts are missing or damaged, please contact customer support.

- Wet/Dry Vacuum Unit
- 4 ft. x 1-1/4 inch diameter Hose
- Gulper Nozzle
- Crevice Tool
- Foam Sleeve (for wet pickup)
- Reusable Disc Filter with Ring (for dry pickup)
- Wall Mount Bracket for Vac
- Tool Holder

Figure 2: Detailed view of all components included in the package.

SETUP AND ASSEMBLY

1. Attaching the Hose

Insert the larger end of the 4 ft. x 1-1/4 inch hose into the vacuum port on the front of the unit. Ensure it is securely twisted into place for proper suction.

2. Installing Filters

- **For Dry Pickup:** Place the reusable disc filter with its ring over the filter cage inside the tank. Ensure it covers the cage completely.
- **For Wet Pickup:** Remove the reusable disc filter. Slide the foam sleeve over the filter cage.

3. Attaching Accessories

Attach the desired accessory (Gulper Nozzle or Crevice Tool) to the free end of the hose. Push firmly until it fits snugly.

4. Wall Mounting (Optional)

The vacuum includes a wall mount bracket for convenient storage. Secure the bracket to a sturdy wall using appropriate hardware (not included). Once mounted, the vacuum can be hung on the bracket, keeping your workspace clear.

OPERATING INSTRUCTIONS

1. Powering On/Off

Locate the ON/OFF switch on the top of the vacuum unit. Press the switch to the 'ON' position to start the vacuum and to the 'OFF' position to turn it off.

Figure 4: Key components of the Shop-Vac, including the ON/OFF switch.

2. Wet and Dry Cleaning

Ensure the correct filter is installed for your cleaning task (reusable disc filter for dry, foam sleeve for wet). The vacuum is designed for powerful suction on both wet spills and dry debris.

Figure 5: Demonstrating the 3-in-1 functionality: Blow, Dry Clean, and Wet Cleaning.

3. Blower Function

To use the blower function, detach the hose from the front vacuum port and attach it to the blower port located on the back of the motor head. This converts the vacuum into a powerful air blower, useful for clearing leaves or debris from patios and driveways.

4. Portability

The compact size and integrated carry handle make this Shop-Vac easy to transport between different cleaning areas, including up and down stairs or to your vehicle.

MAINTENANCE

1. Emptying the Collection Tank

Regularly empty the collection tank to maintain optimal suction performance. Unlatch the motor head from the tank and dispose of collected debris or liquids. Clean the tank with water and mild detergent if necessary.

2. Filter Cleaning and Replacement

- **Reusable Disc Filter:** For dry use, tap off excess dust or rinse with water. Allow to air dry completely before re-installation. Replace if torn or damaged.
- **Foam Sleeve:** For wet use, rinse thoroughly with water and allow to air dry completely before storage or next use. Replace if torn or damaged.

3. Hose and Accessory Care

Inspect the hose and accessories for blockages or damage before and after each use. Clear any obstructions to ensure proper airflow. Store accessories in the provided tool holder.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Vacuum does not turn on.	No power supply; ON/OFF switch in 'OFF' position.	Check power cord connection; ensure switch is 'ON'.
Loss of suction.	Clogged hose/filter; full collection tank; improperly sealed lid.	Clear blockages; empty tank; ensure lid latches are secure.
Unusual noise (e.g., high-pitched screeching).	Motor issue; filter obstruction; damaged fan.	Check for filter obstructions. If noise persists, discontinue use and contact customer support.
Water/debris leaking from unit.	Collection tank overfilled; improper filter for wet pickup; damaged tank/seal.	Do not overfill; ensure foam sleeve is installed for wet pickup; inspect tank for damage.

SPECIFICATIONS

Feature	Detail
Brand	Shop-Vac
