

Epson EB-L720U

Epson EB-L720U 3LCD Projector User Manual

Model: EB-L720U (V11HA44040)

1. PRODUCT OVERVIEW

The Epson EB-L720U is a high-brightness 3LCD laser projector designed for large-scale, vivid displays. It offers WUXGA (1920 x 1200) resolution, 7000 lumens of color brightness, and supports 4K input. This projector utilizes a laser light source, eliminating the need for traditional lamp replacements and providing a long-lasting, consistent display solution.

Key Features:

- **7,000-lumen Color Brightness:** Delivers crisp images and bright colors, suitable for well-lit environments.
- **WUXGA Resolution:** Provides sharp Full HD images for enhanced clarity.
- **Advanced Connectivity:** Includes 4K input support, HDMI, and HDBaseT for versatile integration.
- **Scalable Display:** Capable of projecting images up to 500 inches, supporting various room sizes and viewing distances.

Figure 1: Front-side view of the Epson EB-L720U Projector. This image displays the projector's lens, front ventilation, and the Epson branding on the top and side panels.

2. SETUP

2.1 Unpacking the Projector

Carefully remove the projector and all accessories from the packaging. Ensure all components listed in the 'What's in the Box' section are present. Retain the original packaging for future transport or storage.

2.2 Projector Placement

Position the projector on a stable, level surface or mount it securely to a ceiling. Ensure adequate ventilation around the unit. Avoid placing the projector in direct sunlight or near heat sources. The projector weighs approximately 17.2 pounds and measures 4.8 x 17.32 x 11.97 inches.

2.3 Connecting Devices

The EB-L720U offers various connectivity options. Refer to the image below for port locations.

Figure 2: Rear panel of the Epson EB-L720U Projector, showing various input and output ports.

- **HDMI:** Connect your video source (e.g., computer, Blu-ray player) to the HDMI 1 or HDMI 2 port using an HDMI cable.
- **HDBaseT:** For long-distance transmission of video, audio, and control signals over a single Ethernet cable, connect to the HDBaseT port.
- **Computer (VGA):** Use a VGA cable to connect to the Computer 1 or Computer 2 port for analog video input.
- **LAN:** Connect an Ethernet cable to the LAN port for network control and monitoring.
- **USB-A:** For connecting USB devices or for firmware updates.
- **Audio In/Out:** Connect external audio sources or output audio to external speakers.
- **RS-232C:** For serial control of the projector.

2.4 Powering On/Off

1. Connect the power cord to the projector and a grounded electrical outlet.
2. Press the power button on the projector or remote control. The projector will initiate its startup sequence.
3. To power off, press the power button again. Confirm shutdown if prompted.

2.5 Initial Image Adjustment

After powering on, adjust the image using the following controls:

- **Focus Ring:** Rotate the ring around the lens to sharpen the image.
- **Zoom Lever:** Adjust the image size to fit your screen.
- **Keystone Correction:** Use the projector's menu or dedicated buttons to correct trapezoidal distortion if the projector is not perfectly perpendicular to the screen.

3. OPERATING THE PROJECTOR

3.1 Source Selection

Press the **Source Search** button on the control panel or remote control to cycle through available input sources (HDMI 1, HDMI 2, HDBaseT, Computer 1, Computer 2).

Figure 3: Top panel of the Epson EB-L720U Projector, showing the control buttons and status indicators.

3.2 Menu Navigation

Press the **Menu** button to access the projector's on-screen display (OSD) menu. Use the arrow buttons to navigate and the **Enter** button to select options. Press **Esc** to exit a menu or return to the previous screen.

3.3 Picture Adjustments

Within the OSD menu, navigate to the "Image" or "Picture" settings to adjust:

- **Brightness:** Controls the overall lightness or darkness of the image.
- **Contrast:** Adjusts the difference between light and dark areas.
- **Color Mode:** Select from various preset modes (e.g., Dynamic, Presentation, Cinema) or customize settings for color, tint, and sharpness.

3.4 Network Features

The LAN port allows for network connectivity. This enables remote control, monitoring, and content streaming capabilities, depending on your network configuration and software. Refer to the Epson network guide for detailed setup instructions.

4. MAINTENANCE

4.1 Cleaning the Projector

- **Lens:** Gently wipe the lens with a soft, lint-free cloth specifically designed for optical surfaces. Do not use abrasive cleaners.
- **Air Filter:** Regularly check and clean the air filter to ensure proper airflow and prevent overheating. The filter is typically located on the side or rear of the projector. Refer to Figure 4 for an example of a ventilation area.
- **Exterior:** Wipe the projector's exterior with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth with a mild detergent, then wipe dry.

Figure 4: Side view of the Epson EB-L720U Projector, highlighting the ventilation grilles for airflow.

4.2 Laser Light Source

The EB-L720U uses a laser light source, which has a significantly longer lifespan than traditional projector lamps. Regular replacement is not required. However, ensure the projector operates within recommended temperature ranges to maximize its lifespan.

4.3 Status Indicators

Monitor the indicator lights on the projector's top panel (refer to Figure 3) for operational status and warnings:

- **WLAN:** Indicates wireless network status.
- **Filter:** May indicate a need to clean or check the air filter.
- **Temp:** Warns of high internal temperature. Ensure proper ventilation.
- **Laser:** Indicates the status of the laser light source.
- **Status:** General operational status indicator.
- **On/Standby:** Shows if the projector is on or in standby mode.

5. TROUBLESHOOTING

5.1 Common Issues and Solutions

Problem	Possible Cause	Solution
No image displayed	Incorrect input source selected; loose cable connection; source device off.	Verify input source; check all cable connections; ensure source device is powered on.
Image is blurry	Lens out of focus; incorrect projector placement.	Adjust the focus ring on the lens; ensure the projector is at the correct distance and angle.
Image is distorted (trapezoid shape)	Projector not perpendicular to the screen.	Use keystone correction in the projector menu or physically adjust the projector's angle.
Projector overheats or shuts down	Blocked ventilation; dirty air filter; high ambient temperature.	Ensure vents are clear; clean the air filter; operate in a well-ventilated area.
No sound	Audio cable not connected; volume muted or too low; incorrect audio output selected.	Check audio cable connections; adjust volume; select correct audio output in menu.

If you encounter issues not listed here, or if the suggested solutions do not resolve the problem, please contact Epson customer support.

6. SPECIFICATIONS

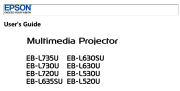

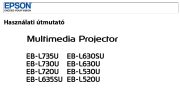

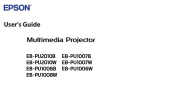

Feature	Detail
Model Number	V11HA44040
Display Technology	3LCD
Light Source	Laser
Color Brightness	7,000 lumens
Resolution	WUXGA (1920 x 1200)
Aspect Ratio	16:10
Connectivity Technology	HDMI, HDBaseT, LAN, USB-A, RS-232C, VGA, Audio In/Out
Product Dimensions	4.8 x 17.32 x 11.97 inches
Item Weight	17.2 pounds
Recommended Uses	Business, Education, Home Cinema

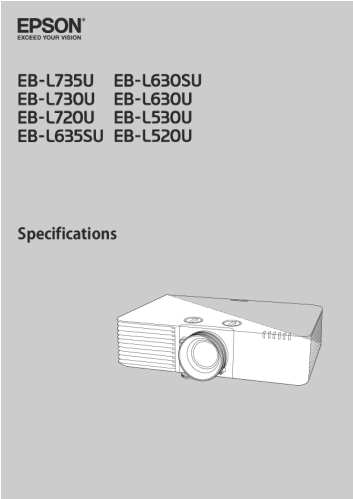

7. WARRANTY AND SUPPORT

For detailed warranty information, technical support, and service inquiries regarding your Epson EB-L720U projector, please visit the official Epson support website or contact Epson customer service directly.

EB-L720U

A powerful high brightness laser display with versatile connectivity, the EB-L720U is an ideal display solution for effective collaboration.

The EB-L720U delivers exceptional image quality, focusing on professional content delivery and productivity. Designed to meet use cases up to 3,000 display feet, flexibility and sustainability, it's the ideal imaging solution to today's professional world.

Failling a powerful 7,000 lumens high brightness capability, along with Full-HD, Wi-Fi/USB, 56k-ends screen, support for 4K input and total entertainment technology, if you are brighter, more and displays up to 3,000'.

Providing more premium features, it would be typically applied to first in the display class, the EB-L720U delivers edge-blending and 4K cinematic connectivity. These features are long-term investments for your business, as you can playback content without any lagging, and create playbacks and set scenarios directly from USB memory, all thanks to the advanced audio coding and the Epson Content iManager.

Flexibly & creatively, the display solution is a light source for large areas for two images from different sources to be combined in one large and clear image. This feature is also applicable for 3D content, which can conveniently split and disassemble; and iMediaCast content can be shared and distributed without consuming any space.

Thanks to the renowned market leading technology of Epson laser display, this 9R and larger sized model also means the right way maintenance. And for added convenience the EB-L720U comes with a standard 3 year warranty to provide lasting peace of mind.

FEATURES

- **High brightness, scalable size**
The EB-L720U delivers high brightness up to 7,000 lumens and a screen size up to 3,000'

EB-L270U

De EB-L270U is een krachtig uitscheidings- met hoge helderheid en verspreidingsaanzicht uitscheidingsprojector, en een snelle displayoplossing voor effectieve samenwerking.

De EB-L270U wordt afzonderlijk beschikt over een aantal prestaties om te voldoen aan uw behoeften. Daarnaast, met het oog op de hoge helderheid, is de projector ook geschikt voor gebruik in een donkere omgeving.

Met een hoge helderheid van 10000 lumen, in combinatie met 4K, HDR, 1080P, 3D, verspreidingsaanzicht en een 10000 uur levensduur, geeft deze projector een helder, verspreidingsaanzicht van 10000 lumen.

De EB-L270U heeft een hoogwaardige 3LCD-technologie, waardoor de afbeelding op een grote breedte van gezichtsveld wordt weergegeven. De afbeelding op een grote breedte van gezichtsveld wordt weergegeven op een grote breedte van gezichtsveld. De afbeelding op een grote breedte van gezichtsveld wordt weergegeven op een grote breedte van gezichtsveld.

Handig is een extra functie van deze afbeeldingsprojector, die een uitscheidingskracht kan worden van een verscheiden soorten sensor, waaronder een met een groot bereik, bestand van materiaal kwaliteit, met een uitstekende voor Microsoft met een uitstekende kwaliteit van de afbeelding, kan worden gebruikt op een groot bereik van gezichtsveld.

Dankzij de gegevensverwerking, informatiegevoeligheid en de beschikbare afbeelding, kan de EB-L270U worden gebruikt in een verscheiden soorten omgeving. Het is een snelle oplossing voor de EB-L270U, gepresenteerd met een standaard afbeelding van een snelle oplossing voor de EB-L270U, gepresenteerd met een standaard afbeelding van een snelle oplossing voor de EB-L270U.

HOOGWAARDIGE, KUNSTMAATIG VERMAAKTE

- 3LCD-technologie, uitscheidingskracht**
De EB-L270U heeft een 3LCD-technologie, die een heldere afbeelding van 10000 lumen, in combinatie met 4K, HDR, 1080P, 3D, verspreidingsaanzicht en een 10000 uur levensduur, geeft deze projector een helder, verspreidingsaanzicht van 10000 lumen.
- Hoogwaardige afbeeldingskracht**
De EB-L270U heeft een hoogwaardige afbeeldingskracht, die een heldere afbeelding van 10000 lumen, in combinatie met 4K, HDR, 1080P, 3D, verspreidingsaanzicht en een 10000 uur levensduur, geeft deze projector een helder, verspreidingsaanzicht van 10000 lumen.
- 3D-technologie**
De EB-L270U heeft een 3D-technologie, die een heldere afbeelding van 10000 lumen, in combinatie met 4K, HDR, 1080P, 3D, verspreidingsaanzicht en een 10000 uur levensduur, geeft deze projector een helder, verspreidingsaanzicht van 10000 lumen.
- Uitscheidingskracht voor sociale interactie**
De EB-L270U heeft een uitscheidingskracht, die een heldere afbeelding van 10000 lumen, in combinatie met 4K, HDR, 1080P, 3D, verspreidingsaanzicht en een 10000 uur levensduur, geeft deze projector een helder, verspreidingsaanzicht van 10000 lumen.
- Keuzevrijheid van afbeeldingskracht**
De EB-L270U heeft een keuzevrijheid van afbeeldingskracht, die een heldere afbeelding van 10000 lumen, in combinatie met 4K, HDR, 1080P, 3D, verspreidingsaanzicht en een 10000 uur levensduur, geeft deze projector een helder, verspreidingsaanzicht van 10000 lumen.

powerlite

A powerful high brightness laser display with versatile connectivity, the EB-L720U is an ideal display solution for effective collaboration.

The EB-L720U delivers exceptional image quality, focussing on professional content delivery and business performance. Designed to deliver a wide, 10,000:1 display ratio, effectively and sustainably, it's the ideal imaging solution for today's professional world.

Featuring a powerful 7,000 lumens high-brightness capability, along with Full-HD 1080p, 16:9 wide screen, support for 4K input and digital entertainment technology, it gives users brighter, more vivid displays at up to 500".

Providing more premium features than you would typically expect to find in this size, the EB-L720U delivers edge-blending and 3D geometric connectivity to achieve an endless horizontal lateral display. And, for multimedia content, you can playback content without any lagging, and create playlists and set schedules directly from USB memory, all thanks to 3-year warranty service cooling and the Epson Content Manager.

Flexibly in another remark of this display solution, a split-screen function also has 4:3 ratio for different content to be compared in one display. Also, with 4 or optional wireless* with support for Microsoft® makes connectivity simple and straightforward, with Content Connect™ can be shared and distributed without compromising on quality.

Thanks to its renowned market leading* reliability, Epson laser display, the 1% and beyond solution delivers the most reliable, maintenance and, also to further conform the EB-L720U comes with a standard 3-year warranty service to provide lasting peace of mind.

FEATURES & BENEFITS

- **High brightness, scalable size**
PowerLite 7,000 lumens high brightness laser up to 500"
- **Stretch display**
Full-HD 4K support, edge-blending and geometric connectivity
- **Unmatched viewing**
Real-time content, game, 3D content and a central control
- **Local streaming support**
4K content, media, the needs of various configurations
- **Plug and play**

EB-L720U

A powerful high brightness laser display with versatile connectivity, the EB-L720U is an ideal projector for effective collaboration.

The EB-L720U delivers exceptional image quality, focusing on professional content delivery and display performance. Designed around a size of up to 500" display size, affordability and availability, it's the ideal imaging solution for today's collaborative world.

Featuring a powerful 10,000 lumens high brightness capability, along with Full-HD 1080p, 30-bit color, support for 4K input and Intel® embedded technology, it gives users brighter, more vivid displays up to 500".

Providing more screen space than you would typically expect to find in this class, the EB-L720U delivers edge-blending and side-by-side panoramic images, so you can display content side-by-side on two screens, or even on a playback content without any gaps, and create displays that are available flexibly from USB memory, via Ethernet, or through a network video coding and the Epson® Connect Manager.

Flexibility is another hallmark of this display. A single screen option allows you to bring images from different sources to be combined in one large display, with or without wireless, using Epson® Beamer! mobile content connection, screen and straightforward, and Content Connect can be shared and destroyed without compromising on quality.

Thanks to the renowned market leading reliability of Epson laser design, this R and D target solution delivers the need for any maintenance. And for added confidence the EB-L720U comes with a standard 3-year warranty to provide lasting peace of mind.

KEY FEATURES

- **High brightness, scalable size**
Exceeds 10,000 lumens high brightness
Produce up to 500"
- **PowerLite display features**
Full-HD, 30-bit, edge-blending and
panoramic connection
- **Connectivity**
From the playback, game, laptops and
local network
- **Local installation**
Simple and efficient way of
your content connection
- **Plug, click and collaborate**
Epson® Connect Manager
presentation control: ELPLP700

EB-L720U

PowerLite

EPSON

A powerful high brightness laser display with versatile connectivity. The EB-L720U is an ideal display solution for effective collaboration.

The EB-L720U delivers exceptional image quality, focusing on professional content delivery and display performance. Designed around state of the art, up to 5007" display size, affordability and sustainability. It's the ideal imaging solution for today's collaborative world.

Featuring a powerful 3007 lumens high brightness capability, along with Full-HD WGA, 360 view mode, support for 4K and 8K and total external connectivity, it gives users brighter, more vivid display up to 5007".

Providing more screen space than you would typically expect to find in this display size, the EB-L720U delivers edge-to-edge and wide-angle viewing. So, whether you're in a meeting room, a classroom, or a boardroom, you can playback content with clarity, and create vibrant and get accurate results from USB memory and LAN or HDMI connection and also code link the Epson Content Manager.

Flexibility is another hallmark of this display solution - a split-screen function allows for two images from different sources to be combined in one large display, and/or of optional wireless by Epson iConnect™ makes connecting laptops and smartphones and tablets content can be shared and displayed without compromising on quality.

Thanks to the renowned market leading™ reliability of Epson laser design, this is a rugged and longer display solution the need for any maintenance. And for added confidence the EB-L720U comes with a standard 3-yr warranty to provide lasting peace of mind.

FEATURES & BENEFITS

- **High brightness, reliable size**
Up to 5007" (128m) long high brightness display at up to 3007"
- **PowerLite display features**
Full-HD, 1080p, edge-to-edge and wide-angle viewing
- **3007 lumens**
From the platform, gaps, heights and level
- **Split-screen**
Split-screen mode enables the results of any software application
- **Plug-and-play connectivity**
USB memory, LAN and HDMI presentation control - ELPLP70

EB-L720U

EPSON

Con un potente videoproiettore laser ad alta luminosità e una connettività versatile, **EB-L720U** è la soluzione ideale per una collaborazione efficace.

EB-L720U offre un'eccellente qualità delle immagini, concentrando su contenuti professionali e presentazioni di visualizzazione. Progettato pensando alla facilità d'uso, con dimensioni dello schermo fino a 100 pollici, connettività e sostenibilità, è la soluzione di imaging ideale per il mondo professionale del oggi.

Grazie all'elaborazione LaserLamp per il 20000+ ore, allo schermo panoramico WUXGA 7000 CLO e al supporto per l'input 4K, la tecnologia di interfacciamento dei dati (DLP) offre agli utenti immagini ad altissima qualità, fino a 100 pollici.

Grazie a funzionalità avanzate di qualità che normalmente si potrebbero trovare in sistemi categorizzati a prezzo superiore, **EB-L720U** offre Edge Blending, un'affidabile tecnologia proiettore per ottenere un unico display di grande formato. E per contenuti multimediali, può funzionare come uno schermo fisso, consentendo di mostrare programmi multimediali in modo continuo, senza la necessità di un sistema di controllo H-264 ed il software Epson Content Manager.

La flessibilità del primo proiettore laser ad alta connettività, una funzione di sostituzione dello schermo consente di continuare due o quattro immagini provenienti da sorgenti diverse in un unico grande schermo. In tal modo, i contenuti possono essere supportati su display di formato A3, A4 o A5, con la possibilità di scegliere il formato di output.

Grazie alla tecnologia affidabile del videoproiettore laser Epson leader di mercato, questa soluzione integra la tecnologia di una tecnologia di imaging. Con una garanzia standard di 3 anni che assicura una maggiore tranquillità nel tempo.

SCHEDA TECNICA

CARATTERISTICHE PRINCIPALI

- **Proiettore laser, tecnologia LaserLamp**
Fornisce immagini ad alta luminosità da 10000 lumen fino a 100 pollici.
- **Formato di visualizzazione avanzato**
Con il supporto 4K, Edge Blending e tecnologia DLP.
- **Video senza interruzione**
Fornisce immagini in continuo, senza interruzione degli immagini.
- **Supporto per il display remoto**
Supporto per il display remoto, supporta il formato A3, A4 o A5.
- **Collegamento versatile**
Collegamento versatile Epson - EpsonLink.

EB-L720U

EPSON

A powerful high brightness laser display with versatile connectivity, the **EB-L720U** is an ideal display solution for effective collaboration.

The **EB-L720U** delivers exceptional image quality, focussing on professional content delivery and display performance. Designed around ease of use, up to 100" display size, affordability and sustainability, it's the ideal imaging solution for today's professional world.

Featuring a powerful 7000 lumens high brightness capability, along with Full-HD, WUXGA, 16:9 wide screen, support for 4K input and dual enhancement technology, it gives users brighter, more vivid displays of up to 100".

Providing more premium features than you would typically expect to find in this display class, the **EB-L720U** delivers edge-blending and rich geometric connectivity to achieve one seamless large-format display. And for multimedia content, you can playback content without any lagging, and create displays and set schedules directly from USB memory, all thanks to the advanced video coding and the Epson Content Manager.

Flexibility is another hallmark of this display solution - a split-screen function allows two or four images from different sources to be combined in one large display, used on optional wireless* with support for Microsoft® remote connectivity simple and straightforward, and Content Manager content can be shared and distributed without compromising on quality.

Thanks to the renowned market leading reliability of Epson laser displays, this 16" and larger solution eliminates the need for regular maintenance. And for added confidence the **EB-L720U** comes with a standard 3-year warranty to provide lasting peace of mind.

DATASHEET / BROCHURE

KEY FEATURES

- **High brightness, sustainable use**
Provides 7000 lumens high brightness display of up to 100".
- **Premium display features**
Full-HD, WUXGA, 16:9 wide-screen, high-brightness and geometric connectivity.
- **Uninterrupted viewing**
Free for content, data, images and a central view.
- **Social sharing support**
Social sharing support for content delivery, content delivery and content delivery.
- **Plug-and-play collaboration**
Collaboration using Epson's wireless presentation system - EpsonLink.
- **Legal Statement**
Compliance with the Product Security and Information Security requirements. Epson provides security updates for 7 years from purchase.

EB-L720U

FICHE TECHNIQUE

Avec son puissant vidéoprojecteur laser à haute haute luminosité en source lumineuse laser et sa connectivité polyvalente, l'EB-L720U est la solution d'affichage idéale pour une collaboration efficace.

L'EB-L720U offre une qualité d'image exceptionnelle, grâce au la technologie de contenu, présentation et les performances d'affichage. Grâce au laser de la technologie d'affichage d'origine, il est capable d'afficher des images de haute qualité, tout en assurant un rendu précis pour le rendu professionnel et académique.

Grâce à une capacité de luminosité élevée de 7 000 lumens, avec Full HD, WUXGA, grand écran 10,6 pouces et un angle de vision de 120°, il est capable d'afficher des images de haute qualité, tout en assurant un rendu précis pour le rendu professionnel et académique.

L'EB-L720U offre plus de fonctionnalités haut de gamme que ce que l'on peut s'attendre à trouver dans une catégorie d'affichage. Elle dispose de la technologie de la collaboration généralisée pour offrir un affichage grand format homogène. Grâce au contenu interactif, l'utilisateur peut interagir avec le contenu, ce qui permet de travailler de manière collaborative et de partager des données de manière efficace.

Grâce à la technologie de la collaboration généralisée, l'utilisateur peut interagir avec le contenu, ce qui permet de travailler de manière collaborative et de partager des données de manière efficace.

CARACTÉRISTIQUES PRINCIPALES

- Luminosité élevée, haute résolution et un angle de vision de 120°
- Présentation d'affichage haut de gamme
- Traduction sans précédent des contenus interactifs et des données
- Facile à utiliser et à installer
- Facile à intégrer dans une salle de conférence
- Facile à intégrer dans une salle de conférence
- Facile à intégrer dans une salle de conférence
