Liene DHP513

Liene 4x6 Photo Printer User Manual

Model: DHP513

1. INTRODUCTION AND OVERVIEW

The Liene 4x6 Photo Printer is a portable, Wi-Fi enabled thermal dye-sublimation printer designed for high-quality photo printing directly from your smartphone, PC, or laptop. It offers vibrant, full-color prints with protective layers against water, scratches, and fading, ensuring your memories last. Its user-friendly design and built-in Wi-Fi hotspot make it an ideal solution for instant photo printing at home or on the go.

3. SETUP

Follow these steps for the initial setup of your Liene Photo Printer:

1. **Install Ink Cartridge:** Open the cartridge cover on the side of the printer and gently insert the ink cartridge until it clicks into place.
2. **Load Paper Cassette:** Open the paper cassette, load the 4x6 photo paper with the glossy side facing up, and then insert the loaded cassette into the printer's paper slot.
3. **Connect Power:** Plug the power adapter into the printer and then into a power outlet.
4. **Power On:** Press the power button on the printer. The indicator light will turn on.
