### 3. SETUP

---

Before beginning assembly, ensure you have a clean, well-lit, and stable workspace. It is recommended to lay out all pieces to familiarize yourself with their shapes and identify any unique components.

- **Prepare Workspace:** Clear a flat surface to prevent loss of small pieces.
- **Unpack Pieces:** Carefully remove all 34 crystal pieces from the packaging.
- **Inspect Pieces:** Check for any manufacturing defects or missing pieces. Contact customer support if issues are found.

### 4. ASSEMBLY INSTRUCTIONS

---

The BePuzzled 3D Crystal Puzzles feature interlocking, translucent pieces that form a three-dimensional figure. Assembly requires careful observation and patience.

1. **Identify Key Pieces:** Start by identifying the base pieces and any central or foundational components. These often have unique shapes or larger connection points.
2. **Layer by Layer:** Most 3D crystal puzzles are built in layers. Look for pieces that fit together

sequentially, often indicated by matching contours or numbers on the instruction sheet (if provided).

3. **Interlocking Mechanism:** The pieces are designed to interlock securely. Apply gentle pressure to connect them. Avoid forcing pieces, as this may cause damage.
4. **Reference Diagrams:** Consult the included instruction sheet for visual guidance. For additional help, step-by-step solutions are available online at the manufacturer's website.
5. **Patience is Key:** Due to the translucent nature and intricate shapes, some connections may be subtle. Take your time and rotate pieces to find the correct fit.
