KAWADA NB-055

Instruction Manual for KAWADA nanoblock NB-055 The Twelve Zodiac Signs Building Kit

Model: NB-055 | Brand: KAWADA

Introduction

This manual provides detailed instructions for assembling the KAWADA nanoblock NB-055 The Twelve Zodiac Signs in Chinese Astrology 12 Zodiac Set. This advanced hobby series building kit features twelve distinct animal models, comprising a total of 1980 micro-sized pieces. Designed for builders aged 15 and above, this set offers a challenging yet rewarding construction experience with a difficulty level of 4 out of 5.
Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building process.

Safety Information

WARNING: CHOKING HAZARD. This product contains small parts and is not suitable for children under 3 years old. Keep all nanoblock pieces away from infants and young children to prevent accidental ingestion.
Adult supervision is recommended for younger builders, even those within the recommended age range, due to the small size of the blocks.

Setup and Preparation

1. Unboxing

Carefully open the product packaging. Ensure all components are present and undamaged. The box should contain the nanoblock pieces and a detailed instruction booklet.

2. Parts List

This set includes approximately 1980 nanoblock pieces. Due to their miniature size (as small as 4mm x 4mm x 5mm), it is advisable to work on a clean, well-lit surface to prevent loss of pieces. Sort pieces by color or shape if desired, though the instruction booklet will guide you through piece identification.

Image: A nanoblock model held in a hand, illustrating the small scale of the blocks.

3. Workspace Preparation

Choose a flat, stable surface for assembly. Consider using a tray or a mat with raised edges to contain the small blocks and prevent them from rolling off. Good lighting is crucial for identifying the tiny pieces and following the intricate instructions.

Operating Instructions (Assembly)

The nanoblock 12 Zodiac Set is designed for advanced builders (Difficulty Level 4). Patience and attention to detail are key to successful assembly.

1. Follow the Instruction Booklet

Each set comes with a detailed, step-by-step instruction booklet. Refer to this booklet for specific assembly sequences for each of the twelve zodiac animals. The instructions will guide you on which pieces to use and where to place them.

2. Building Techniques

- **Layer by Layer:** Most nanoblock models are built layer by layer. Pay close attention to the orientation of each block.
- **Secure Connections:** Ensure each block is firmly pressed into place to create a stable structure.
- **Piece Identification:** The instruction booklet will use visual cues to help identify the correct block types and colors.

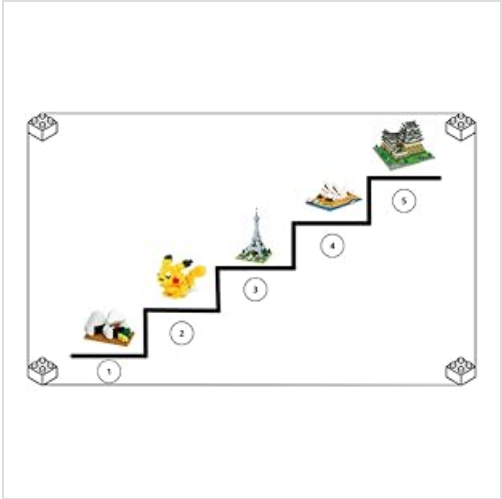

Image: A chart illustrating nanoblock difficulty levels, with this set being Level 4.

3. Displaying Your Creations

Once assembled, your nanoblock zodiac animals can be displayed individually or as a complete set. Their small size makes them ideal for desks, shelves, or display cases.

Maintenance

1. Cleaning

To clean your nanoblock models, gently wipe them with a soft, dry cloth. For more stubborn dust, a soft brush or a can of compressed air can be used. Avoid using harsh chemicals or abrasive materials, as these may damage the plastic blocks.

2. Storage

Store unassembled nanoblock pieces in a secure container to prevent loss. Keep assembled models away from direct sunlight and extreme temperatures to preserve their color and structural integrity.

Troubleshooting

Missing Pieces

If you find that pieces are missing from your set, first double-check your workspace thoroughly. Due to their small size, pieces can easily be overlooked. If pieces are still missing, please refer to the Warranty and Support section for assistance.

Difficulty in Assembly

This set is rated at Difficulty Level 4. If you encounter challenges, take a break and re-examine the instruction booklet carefully. Sometimes, a fresh perspective can help identify missed steps or incorrect placements. Ensure you are using the correct block types and colors as indicated.

Specifications

Brand:	KAWADA
Model Name:	12 Zodiac Set [twelve zodiac in Chinese astrology], Nanoblock Advanced Hobby Series
Model Number:	NB-055
Number of Pieces:	1980
