Limitless Innovations AC21

Limitless PowerPro Go 10,000mAh Power Bank (Model AC21) Instruction Manual

By Limitless Innovations

INTRODUCTION

The Limitless PowerPro Go is a versatile 10,000mAh power bank designed for convenient charging on the go. It integrates a wall charger, USB-A port, Type-C port with Power Delivery, and Qi wireless charging capabilities. This manual provides essential information for the safe and efficient use of your device.

PRODUCT OVERVIEW

Figure 1: Front view of the Limitless PowerPro Go Power Bank with its digital display and retractable wall prongs.

The PowerPro Go features a compact design with retractable AC prongs for easy portability. It includes multiple charging outputs and a digital display to monitor battery status.

Key Features:

- **10,000mAh Battery:** Provides ample power for multiple device charges.
- **3-in-1 Functionality:** Acts as a portable power bank, wall charger, and wireless charger.
- **Versatile Charging Ports:** Includes USB-A, Type-C (18W Power Delivery), and 10W Qi Wireless Charging Pad.
- **Digital Display:** Shows the remaining battery percentage for precise power management.
- **Retractable AC Prongs:** For direct wall charging and compact storage.

Figure 2: Retractable AC prongs and digital display for battery status.

SETUP

1. **Initial Charge:** Before first use, fully charge your PowerPro Go. Extend the retractable AC prongs and plug the device into a standard wall outlet. The digital display will show the charging progress.
2. **Understanding the Digital Display:** The digital display indicates the remaining battery percentage of the PowerPro Go. Press the main power button to activate the display and check the battery level.

PORTABLE WALL CHARGER

Built in 10,000mAh power bank
to recharge anywhere

OPERATING INSTRUCTIONS

Charging Your Devices:

- **USB-A Port:** Connect your device's USB-A charging cable to the USB-A port on the PowerPro Go.
- **Type-C Port (Power Delivery):** Use a Type-C to Type-C cable to connect your compatible device to the PowerPro Go's Type-C port for fast charging (up to 18W Power Delivery). This port can also be used to recharge the PowerPro Go itself.
- **Qi Wireless Charging:** Place your Qi-compatible device (e.g., smartphone, earbuds) on the wireless charging pad located on the top surface of the PowerPro Go. Ensure the device is centered for optimal charging. The PowerPro Go supports 5W, 7.5W, and 10W wireless charging.

Recharging the PowerPro Go:

To recharge the PowerPro Go, extend the built-in AC prongs and plug it directly into a wall outlet. Alternatively, you can use a Type-C cable to connect the PowerPro Go's Type-C port to a power source.

MAINTENANCE

- Keep the PowerPro Go away from water, moisture, and extreme temperatures.
- Clean the device with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Avoid dropping or subjecting the device to strong impacts.
- Store in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging from PowerPro Go.	PowerPro Go battery is depleted; cable is faulty; device is not Qi-compatible or misaligned.	Recharge PowerPro Go; try a different cable; ensure device is Qi-compatible and correctly placed on the wireless pad.
PowerPro Go not recharging.	Wall outlet is not active; prongs are not fully extended/inserted; Type-C cable is faulty.	Check wall outlet; ensure prongs are fully engaged; try a different Type-C cable or wall outlet.
Slow charging.	Using a non-fast charging cable/adapter; multiple devices charging simultaneously.	Use a fast-charging compatible cable/adapter; charge fewer devices at once.

SPECIFICATIONS

- Model Number:** AC21
- Battery Capacity:** 10,000 Milliamp Hours
- Connector Type:** USB Type C, USB-A
- Power Source:** Battery Powered (internal), AC Wall Outlet
- Voltage:** 5 Volts
