Air Wick Scented Oil Plug-In Refills User Manual

Model: 6233802468

1. PRODUCT OVERVIEW

Air Wick Plug-In Scented Oil Refills are infused with natural essential oils, designed to bring the essence of nature into your home. Simply plug in, select your fragrance setting, and enjoy continuous freshness for up to 60 days on a low setting.

This package contains 5 refills of Pear Cider fragrance, featuring sweet notes of pear and apple with cardamom, cinnamon, and clove. Ginger and vanilla add further spice and a touch of sugar for a unique aroma experience.

- **Long-lasting Fragrance:** Provides up to 300 days of continuous fragrance based on a low setting (for a 5-pack).
- **Natural Essential Oils:** Infused with 100% natural essential oils for an enhanced fragrance experience.
- **Versatile Use:** Suitable for any room, including living rooms, bathrooms, bedrooms, hallways, kitchens, and offices.

2. SAFETY INFORMATION

Please read and follow all safety instructions before use. Failure to do so may result in electric shock or fire.

- **Keep out of reach of children and pets.**
- **Harmful if swallowed.** If swallowed, seek immediate medical advice and show this container or label.
- **Avoid contact with skin and eyes.** In case of contact, wash immediately with plenty of water. If

irritation persists, seek medical attention.

- **Do not place in areas where it may be knocked over.**
- **Do not place on or near polished, painted, or plastic surfaces.**
- **Use only with Air Wick Plug-In warmers.** Using other warmers may cause fire or toxic vapor release.
- **Do not immerse in water.**
- **Do not block airflow from the unit.**
- **Unplug the device before cleaning.**
- **For adult use only.**

3. SETUP

Follow these steps to set up your Air Wick Scented Oil Plug-In:

1. **Prepare the Refill:** Unscrew the cap from the scented oil refill bottle.
2. **Insert Refill into Warmer:** Firmly insert the refill bottle into the Air Wick Plug-In warmer until a click is heard.
3. **Plug into Outlet:** Plug the assembled warmer unit upright into an electrical outlet. If necessary, rotate the warmer's pins to fit the socket orientation.

4. OPERATING INSTRUCTIONS

Your Air Wick Plug-In warmer features adjustable settings to control fragrance intensity.

1. **Adjust Fragrance Intensity:** Locate the dial or button on the top of the warmer. Rotate the dial or press the button to select your desired fragrance intensity level. Most warmers offer 5 adjustable settings, from minimum to maximum fragrance release.
2. **Continuous Fragrance:** Once plugged in and set, the warmer will continuously release fragrance into your room.

5. MAINTENANCE

Proper maintenance ensures optimal performance and longevity of your Air Wick Plug-In warmer and refills.

- **Refill Replacement:** Each refill lasts up to 60 days on a low setting. Replace the refill when the liquid level is low or when the fragrance is no longer noticeable. Some warmers feature an indicator light that turns red when it's time to replace the refill.
- **Cleaning:** Unplug the warmer from the outlet. Wipe the exterior of the warmer with a dry cloth. Do not use water or cleaning sprays directly on the unit.
- **Storage:** Store unused refills in a cool, dry place, away from direct sunlight and heat.

Image 5.2: Visual highlighting the anti-fading technology that helps maintain fragrance strength over time.

6. TROUBLESHOOTING

If you encounter issues with your Air Wick Plug-In, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No fragrance or weak scent.	Refill is empty or low. Setting is too low. Airflow is blocked.	Replace the refill. Increase the intensity setting. Ensure the warmer is not obstructed.
Fragrance is too strong.	Setting is too high.	Decrease the intensity setting.
Warmer is not working (no heat, no light).	No power to the outlet. Warmer is faulty.	Check if the outlet is working by plugging in another device. If not, check your circuit breaker. If the outlet works, the warmer may need replacement.
Oil leakage.	Warmer is not upright. Refill not inserted correctly.	Ensure the warmer is plugged in an upright position. Re-insert the refill firmly.
