Philips Hue 1745930V7

Philips Hue Impress Outdoor Smart Wall Light User Manual

Model: 1745930V7 | Brand: Philips Hue

INTRODUCTION

This manual provides essential information for the installation, operation, and maintenance of your Philips Hue Impress Outdoor Smart Wall Light. This smart lighting solution enhances your outdoor spaces with customizable color and white light, controlled via the Philips Hue app or voice commands. It is designed for low voltage systems and requires a Philips Hue Bridge and an outdoor power supply (sold separately).

WHAT'S INCLUDED

- One (1) Philips Hue Impress Color-Changing Outdoor Wall Light
- One (1) T Connector
- One (1) 16-Foot Extension Cable

SYSTEM REQUIREMENTS

To fully utilize the features of your Philips Hue Impress Outdoor Smart Wall Light, the following components are required (sold separately):

- **Philips Hue Bridge:** Essential for unlocking smart features like automations, remote control, and stable connectivity.
- **Philips Hue Outdoor Power Supply:** Required for powering the low voltage Impress outdoor wall light.

Hue Bridge required for Outdoor

Easy ambiance creation
with app or voice

Add smart switches
and motion sensors

Set routines,
timers and automations

Sync your lights with
movies, games and music

Away from home
control

*Philips Hue Bridge sold separately

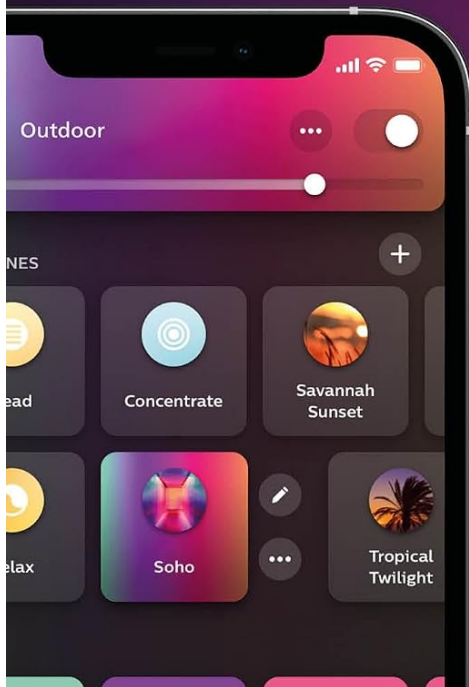

Image: The Philips Hue Bridge is required for advanced outdoor lighting features, including app and voice control, smart switches, motion sensors, routines, timers, automations, media sync, and away-from-home control.

LowVolt (Low voltage) outdoor lights

Separate power supply unit (PSU) required

Direct voltage line connection

Can be placed anywhere

Safe extra-low-voltage (SELV)

24V

Voltage

Standard (line voltage) outdoor lights

Separate power supply unit (PSU) required

Direct voltage line connection

Can be placed anywhere

Safe extra-low-voltage (SELV)

220V

Image: Comparison highlighting that low voltage outdoor lights, like the Impress, require a separate power supply unit (PSU) and offer safe extra-low-voltage (SELV) operation.

SETUP AND INSTALLATION

The Philips Hue Impress Outdoor Smart Wall Light features a plug-and-play solution for minimal effort during installation. No electrician is required for the light fixture itself, but ensure your outdoor power supply is correctly installed.

Step 1: Install Your Lighting

Mount the Philips Hue Impress Outdoor Smart Wall Light securely to your desired outdoor wall surface. Ensure the mounting location is suitable for outdoor electrical fixtures and allows for proper cable routing.

Easy to install and connect to the Philips Hue Bridge*

*Requires a Philips Hue Bridge. sold separately

Image: Visual guide showing the physical mounting of the light fixture and connecting the cables.

Step 2: Connect to the Philips Hue Bridge

Plug the light into your Philips Hue Outdoor Power Supply, and then connect the power supply to your Philips Hue Bridge.

The Bridge should be connected to your Wi-Fi router for network access.

Philips Hue Bridge unlock full, reliable control

Seamlessly integrates with other smart home products

Works with SmartThings

Works with Apple Home

Works with Google Home

Works with alexa

Works with matter

Control your lights securely from anywhere

Schedule your lights the way you want

Instant response. Ultra-stable connection

Secure, always up to date and futureproof

Easy installation

Step 1
Install your lighting

Step 2
Plug in the Philips Hue Bridge and connect it to the Wi-Fi router

Step 3
Download the Philips Hue app

Download on the App Store

Expanding Your Outdoor Setup

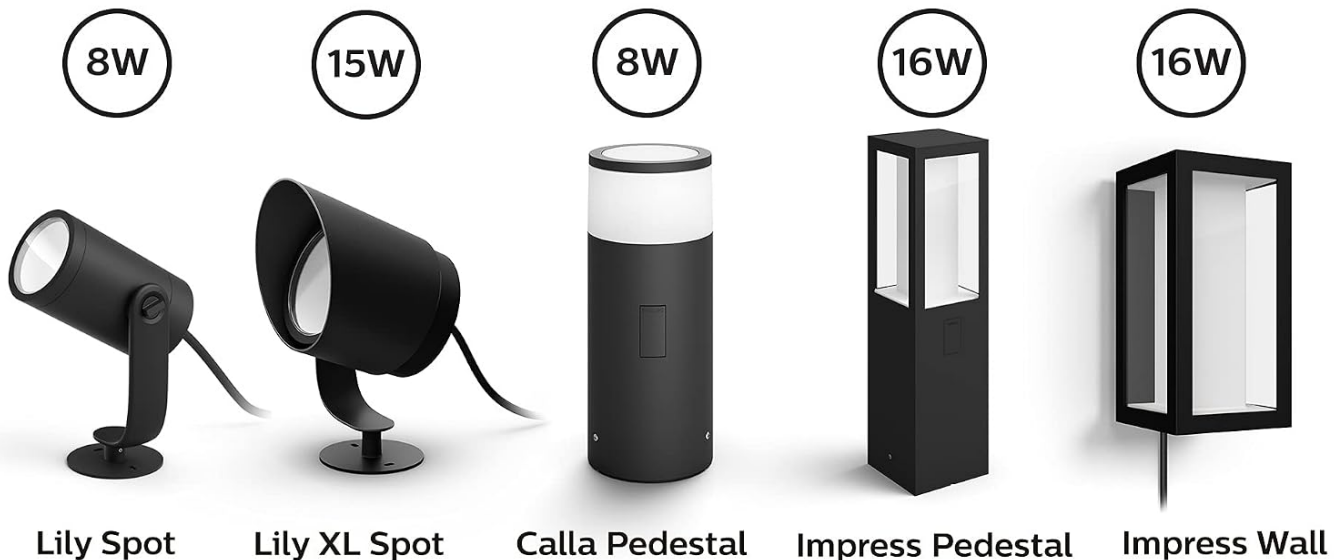

You can connect multiple low voltage Philips Hue outdoor lights to a single power supply, provided the total wattage does not exceed the power supply's maximum capacity (e.g., 40W or 100W power supplies are available). This allows for a comprehensive and integrated outdoor lighting system.

Create your own outdoor setup:

connect multiple low voltage lights to one power supply

combine multiple lights up to the maximum wattage of the power supply

Power supply and other lights are sold separately

Image: Examples of different Philips Hue outdoor lights (Lily Spot, Calla Pedestal, Impress Pedestal, Impress Wall) and their respective wattages, illustrating how to combine them within a power supply's limit.

OPERATING INSTRUCTIONS

Control your Philips Hue Impress Outdoor Smart Wall Light using the Philips Hue app or compatible voice assistants.

Philips Hue App Control

- **Color and White Ambiance:** Choose from 16 million colors or adjust warm to cool white light to create the perfect outdoor atmosphere.
- **Scenes and Routines:** Apply pre-set scenes or create custom routines for automated lighting schedules, such as turning lights on at sunset or off at a specific time.
- **Timers and Automations:** Set timers for temporary lighting effects or create advanced automations based on location, time of day, or other smart home triggers.
- **Sync with Media:** Enhance your entertainment experience by syncing your lights with movies, games, and music for immersive effects.

Limitless possibilities

*Requires a Philips Hue Bridge. sold separately

Image: Visual representation of various control options and features, including easy dimming, welcome home, cool & warm light, 16 million colors, outdoor entertainment, smart control, voice control, and set timers.

Voice Control

Integrate your Philips Hue lights with voice assistants like Amazon Alexa or Google Assistant for convenient hands-free control. Simply set up voice control within the Hue app.

Extend voice control outdoors

Works with Amazon Alexa and the Google Assistant

Image: A woman demonstrating voice control, asking to "turn off the porch lights," highlighting the convenience of extending voice control outdoors.

Security Features

Utilize your Philips Hue lights to enhance home security. Set up automations to mimic presence when you're away, or integrate with compatible security systems to trigger light and sound alarms.

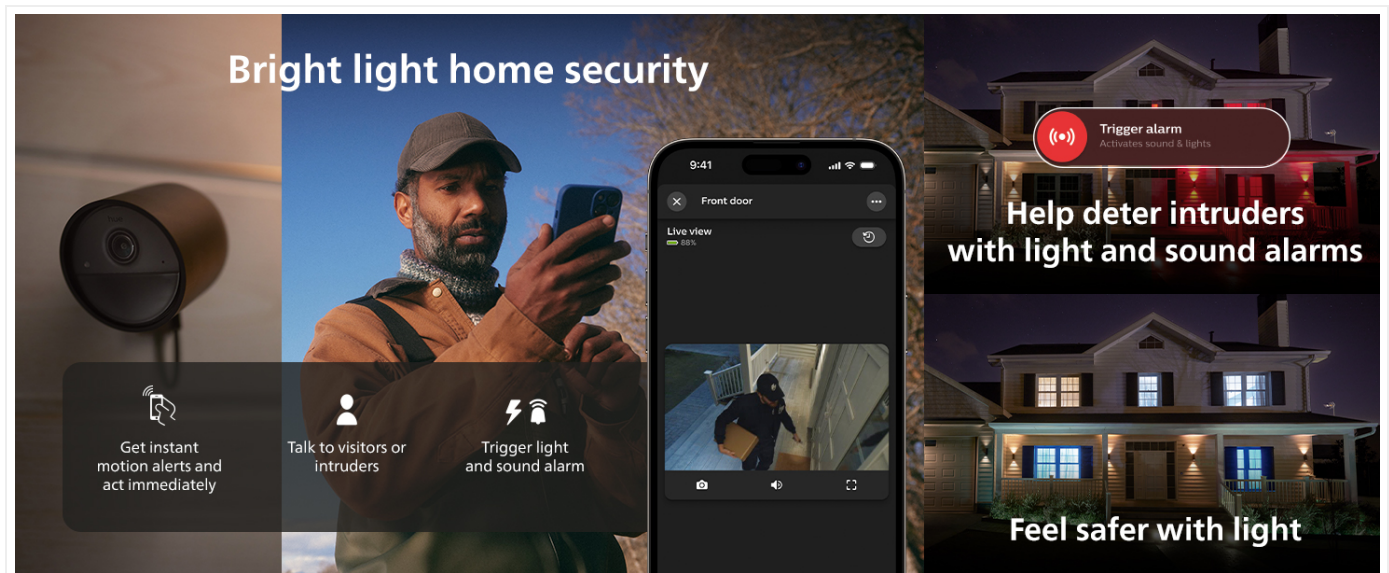

Image: Depiction of Philips Hue lights integrated with home security, showing how lights can deter intruders and provide a sense of safety.

MAINTENANCE

The Philips Hue Impress Outdoor Smart Wall Light is designed for outdoor environments and is IP44 rated, meaning it is protected against water splashed from any direction. Regular maintenance is minimal.

- **Cleaning:** Gently wipe the light fixture with a soft, damp cloth to remove dirt or debris. Avoid using harsh chemicals or abrasive cleaners.
- **Inspection:** Periodically check the cables and connections for any signs of wear or damage. Ensure all connections remain secure.

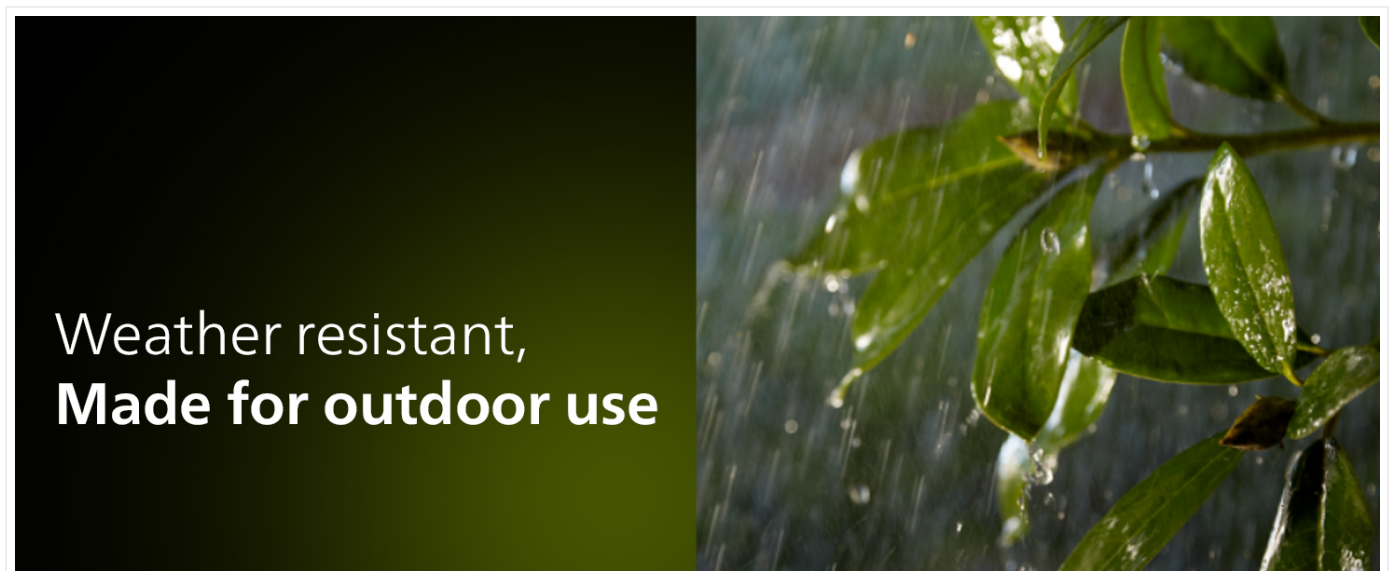

Image: A close-up of leaves with raindrops, illustrating the weather-resistant design of the light, suitable for outdoor use.

TROUBLESHOOTING

If you encounter issues with your Philips Hue Impress Outdoor Smart Wall Light, consider the following common solutions:

- **Light Not Responding:**
 - Ensure the light is properly connected to the outdoor power supply and the power supply is plugged in.

- Verify that your Philips Hue Bridge is powered on and connected to your home network.
- Check the Philips Hue app for any error messages or connectivity issues. Try restarting the app.
- If the light is unresponsive, try power cycling the light and the Hue Bridge.

• **Connectivity Issues:**

- Ensure the Hue Bridge is within a reasonable range of your Wi-Fi router.
- Check for Wi-Fi interference.
- Update the Philips Hue app and the firmware of your Hue Bridge and lights.

• **Color or Brightness Inconsistencies:**

- Recalibrate the light within the Philips Hue app.
- Ensure there are no physical obstructions affecting the light output.

For more detailed troubleshooting or persistent issues, refer to the official Philips Hue support resources or the full user manual PDF.
