DAJDAH AP-T20FL

DAJDAH AP-T20FL Replacement Filters Instruction Manual

For Homedics Total Clean 3-in-1 Air Purifier Models AP-T20 and AP-T20W

1. INTRODUCTION

This manual provides essential information for the proper installation and maintenance of your DAJDAH AP-T20FL replacement filters. These filters are designed for use with Homedics Total Clean 3-in-1 Air Purifier Models AP-T20 and AP-T20W.

Regular filter replacement ensures optimal performance of your air purifier, contributing to cleaner and fresher indoor air quality.

2. PRODUCT OVERVIEW

The DAJDAH AP-T20FL replacement filter is a 3-in-1 filtration system designed to capture various airborne particles and odors. It features a multi-layer design for comprehensive air purification.

The infographic features a central cutaway of a white air purifier with a blue glow. To the right, four stages of filtration are shown: a grey pleated filter, a black activated carbon block, a white pleated filter, and a grey pleated filter. Below each stage is a circular inset showing a magnified view of the filter's internal structure: small black granules, a pleated mesh, and a grid pattern. The background is a light blue gradient.

3. COMPATIBILITY

These replacement filters are exclusively compatible with the following Homedics Air Purifier models:

- Homedics AP-T20 Total Clean 5-in-1 Tower Air Purifier
- Homedics AP-T20WT Total Clean 5-in-1 Tower Air Purifier

Please verify your air purifier model number, typically found on the bottom of the unit or in your owner's manual, to ensure correct filter selection.

4. INSTALLATION INSTRUCTIONS

Follow these steps to replace the filter in your Homedics Total Clean Air Purifier:

1. **Power Off:** Ensure the air purifier is turned off and unplugged from the power outlet before proceeding.
2. **Open Grille Cover:** Locate the indents on each side of the grille cover. Pull these indents to open and remove the cover.
3. **Remove Old Filter:** Gently pull the filter tabs to remove the old, contaminated filter from the unit. Dispose of the old filter responsibly.
4. **Unpack New Filter:** Remove the new DAJDAH AP-T20FL filter from its plastic packaging. **Important:** Ensure all plastic bags are removed before installation.
5. **Insert New Filter:** Insert the new filter into the air purifier, ensuring the filter tabs are facing outward for easy removal in the future.
6. **Reinstall Cover:** Place the grille cover back onto the air purifier, ensuring it clicks securely into place.
7. **Reset Filter Indicator:** Plug the air purifier back in. Press and hold the "ION" button (or the designated filter reset button, refer to your air purifier's manual) for 3 seconds to reset the filter replacement indicator.

REPLACE YOUR CONTAMINTED FILTER IN SIMPLE STEPS

PULL THE INDENTS ON EACH SIDE OF THE GRILLE COVER TO OPEN

5. OPERATING INSTRUCTIONS (AIR PURIFIER)

While this manual focuses on filter replacement, here is a brief overview of common air purifier functions:

- **Power Button:** Turns the unit on or off.
- **Fan Speed:** Adjusts the fan intensity (e.g., low, medium, high).
- **UV-C Light:** Activates or deactivates the UV-C germicidal light.
- **Ionizer:** Turns the ionizer function on or off.
- **Timer:** Sets the operating duration for the air purifier.
- **Night Light:** Controls the ambient night light feature.

6. MAINTENANCE

To ensure optimal performance and longevity of your air purifier and filters:

- **Filter Replacement:** It is recommended to replace the DAJDAH AP-T20FL filter every 6-12 months, depending on usage and air quality.
- **Cleaning the Unit:** Periodically wipe down the exterior of the air purifier with a soft, damp cloth to remove dust accumulation. Ensure the unit is unplugged before cleaning.
- **Oil Tray (if applicable):** If your Homedics air purifier model includes an essential oil tray, you can add essential oils to diffuse fragrance while the unit operates. Refer to your air purifier's manual for specific instructions on using the oil tray.

7. TROUBLESHOOTING

If you encounter issues after replacing your filter, consider the following:

- **Filter Indicator Light Remains On:** Ensure the filter reset procedure (holding the ION button for 3 seconds) was performed correctly. If the light persists, re-check filter installation.
- **Reduced Airflow or Odors:** This may indicate the filter needs replacement sooner than expected due to high usage or poor air quality. Ensure the new filter is free from packaging.
- **Unusual Noises:** Verify the filter is seated correctly and the grille cover is securely closed.

For further troubleshooting, refer to your original Homedics air purifier owner's manual or contact DAJDAH customer service.
