## 1. INTRODUCTION

### 1.1 Product Overview

The DAJDAH AP-T10FL is a high-efficiency replacement filter designed for compatible Homedics air purifiers. It features a multi-layer filtration system, including a HEPA-Type filter and activated carbon, to improve indoor air quality by capturing various airborne particles and odors.

### 1.2 Compatibility

This filter is perfectly compatible with the following Homedics air purifier models:

- AP-T10
- AP-T10-BK
- AP-T10-WT
- Total Clean 4-in-1 HEPA-Type Tower Air Purifier

*To ensure correct fit, please verify your air purifier's model number, typically located on the bottom or back of the unit, or in its user manual.*

## 2. SETUP: FILTER INSTALLATION

Follow these steps to install the replacement filter in your Homedics AP-T10 series air purifier. No special tools are required.

1. **Unplug the Air Purifier:** Always ensure the unit is unplugged from the power outlet before performing any maintenance or installation.
2. **Access the Filter Compartment:** Gently turn the air purifier upside down. Locate the base cover and turn it counter-clockwise to unlock and open it.
3. **Remove Old Filter:** Carefully remove the used filter from the compartment.
4. **Prepare New Filter:** Remove the new DAJDAH AP-T10FL filter from its plastic packaging.
5. **Insert New Filter:** Place the new filter into the air purifier's compartment. Ensure it is seated

correctly.

6. **Secure the Base Cover.** Replace the base cover and turn it clockwise to lock it into position.

7. **Restore Power:** Plug the air purifier back into the power outlet.

**DAJDAH**

**EASY TO INSTALL**

**REPLACE FILTER EVERY 10-12 MONTHS**

### REPLACE YOUR CONTAMINATED FILTER IN SIMPLE STEPS

PUT THE APPLIANCE UPSIDE DOWN, TURN THE BASE COVER COUNTERCLOCKWISE FROM LOCK TO OPEN POSITION

1

REMOVE BAGS BEFORE INSTALLING

## 3. OPERATING THE AIR PURIFIER WITH NEW FILTER

Once the new filter is installed, your air purifier is ready for operation. The AP-T10FL filter is designed to provide comprehensive air purification:

- **Deep Hyperfine Purification:** The HEPA-Type filter effectively captures tiny particles as small as 0.3 microns, including dust, hair, lint, and common airborne pollutants. It is particularly effective against pet dander and fur, with a purification rate greater than 99.9%.
- **Efficient Odor Removal:** The activated carbon layer targets and filters various unfavorable

odors and fumes, such as volatile organic compounds (VOCs), tobacco smoke, cooking smells, and pet odors, contributing to a fresher indoor environment.

**DAJDAH**

**HIGH-EFFICIENT**

**360° MULTI-LAYERS FILTER**

## 4. MAINTENANCE

### 4.1 Filter Replacement Schedule

To maintain optimal performance of your air purifier, it is recommended to replace the DAJDAH AP-T10FL filter every 6 to 12 months. Actual replacement frequency may vary based on air quality and usage intensity.

### 4.2 Pre-Filter Cleaning (if applicable)

Some air purifiers may have a washable pre-filter. If your unit includes one, regular cleaning can extend the life of the main filter. Refer to your air purifier's original manual for specific cleaning instructions for its pre-filter.

## 5. TROUBLESHOOTING

If your air purifier is not performing as expected after filter replacement, consider the following:

- **Filter Packaging:** Ensure all plastic packaging has been removed from the new filter before installation.
- **Correct Installation:** Double-check that the filter is correctly seated and the base cover is securely locked.
- **Air Purifier Issues:** If problems persist, consult the original user manual for your Homedics air purifier for specific troubleshooting steps related to the unit itself.

## 6. SPECIFICATIONS

| Feature            | Detail   |
|--------------------|--|
| Model Number       | AP-T10FL   |
