

ASTRO Gaming 939-002055

Logitech G Astro A10 Gen 2 Cross-Platform Wired Gaming Headset Instruction Manual

Model: 939-002055

1. PRODUCT OVERVIEW

The ASTRO A10 Gen 2 Headset is designed to enhance your gaming experience across multiple platforms. It features custom-tuned 32mm dynamic drivers for clear audio, a flip-to-mute boom microphone for clear communication, and a durable, ergonomic design for extended comfort during long gaming sessions. The headset includes replaceable ear cushions and headband pads for longevity.

3. SETUP GUIDE

3.1 Connecting to Console (PS5, PS4, Xbox Series X|S, Xbox One, Nintendo Switch)

1. Connect the removable headphone cable to the 3.5mm jack on the left earcup of the headset.
2. Plug the other end of the removable headphone cable into the 3.5mm port on your console controller or Nintendo Switch.
3. Adjust the volume using the in-line volume control on the cable.

3.2 Connecting to PC/Mac

1. Connect the removable headphone cable to the 3.5mm jack on the left earcup of the headset.
2. If your PC/Mac has a single 3.5mm port for both audio and microphone, plug the other end of the removable headphone cable directly into this port.
3. If your PC/Mac has separate ports for audio (green) and microphone (pink), use the included PC splitter cable. Connect the removable headphone cable to the female end of the splitter, then plug the green and pink male ends into the corresponding ports on your computer.
4. Adjust the volume using the in-line volume control on the cable and your computer's audio settings.

4. OPERATING INSTRUCTIONS

4.1 Flip-to-Mute Microphone

The integrated boom microphone features a flip-to-mute function. To activate the microphone, lower the boom arm into the speaking position. To mute the microphone, simply flip the boom arm upwards until it clicks into the vertical position. This provides quick and convenient privacy.

4.2 Volume Control

Adjust the audio volume using the in-line volume control wheel located on the removable headphone cable. Slide the wheel up to increase volume and down to decrease volume.

5. MAINTENANCE

5.1 Cleaning

To clean the headset, gently wipe the surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials. For the ear cushions and headband pad, refer to the replacement instructions below.

5.2 Replacing Ear Cushions and Headband Pad

The ear cushions and headband pad are replaceable to ensure long-term comfort and hygiene. Gently detach the worn cushions/pad and replace them with new ones. Specific replacement parts can be

purchased separately from ASTRO Gaming or authorized retailers. Ensure proper alignment when reattaching.

6. TROUBLESHOOTING

- **No Audio/Low Volume:** Ensure all cables are securely connected. Check the in-line volume control and your device's audio settings. Verify the correct audio output device is selected on your PC/Mac.
- **Microphone Not Working:** Ensure the microphone boom arm is fully lowered. Check your device's microphone input settings and ensure the headset is selected as the input device. If using a PC splitter, ensure it is correctly connected to the microphone port.
- **Uncomfortable Fit:** The headset features an adjustable headband. Gently slide the earcups up or down along the headband to find a comfortable fit. The flexible headband is designed to adapt to various head sizes.
- **Sound Quality Issues:** Ensure the 3.5mm cable is fully inserted into both the headset and the device. Test the headset with another device to rule out device-specific issues.
