ASTRO Gaming 939-002045

ASTRO Gaming A10 Gen 2 Wired Gaming Headset User Manual

Model: 939-002045

Brand: ASTRO Gaming

Introduction

The ASTRO A10 Gen 2 Headset is designed to enhance your gaming experience across multiple platforms. It features custom-tuned 32mm dynamic drivers for clear and precise audio, a flip-to-mute boom microphone for convenient communication, and a durable construction built for extended gaming sessions. The ergonomic design with a closed-back ensures comfort, while replaceable ear cushions and headband pads extend the headset's lifespan. An in-line volume control allows for easy audio adjustments without interrupting gameplay.

Key Features

- **Enhanced Sound Quality:** Custom-tuned 32mm dynamic drivers provide clear and precise audio for gaming and communication.
- **Flip-to-Mute Microphone:** An integrated 6.0mm unidirectional boom microphone can be flipped up to mute for privacy or down for crystal-clear communication.
- **In-line Volume Control:** Easily adjust audio levels using the volume control located on the removable headphone

cable.

- **Durable Construction:** Features an ultra-durable headband and sturdy build for reliable, long-lasting performance.
- **Comfortable Over-Ear Design:** Ergonomical and robust circumaural construction with a closed-back design ensures comfort during extended gaming sessions.
- **Replaceable Components:** Ear cushions and headband pads are replaceable, extending the headset's usability.
- **Broad Compatibility:** Compatible with PlayStation 5/4, Xbox Series X|S/One, Nintendo Switch, PC/Mac, VR, and streaming devices via a 3.5mm headphone jack.

Setup

Connecting Your Headset

The ASTRO A10 Gen 2 Headset connects via a standard 3.5mm audio jack, making it compatible with a wide range of gaming platforms and devices.

1. Locate the 3.5mm audio jack on your gaming console controller, PC, Mac, or mobile device.
2. Ensure the headset's removable cable is securely connected to the headset's port.
3. Plug the 3.5mm audio jack from the headset cable into the corresponding port on your device.
4. Adjust the volume using the in-line volume control or your device's audio settings.

Figure 2: Headset showing flexible headband and earcups.

For optimal sound quality and microphone performance, ensure the headset is worn correctly and the ear cushions fit snugly around your ears. If experiencing issues, try adjusting the earbud tips or repositioning the headset.

Operating Instructions

Microphone Functionality

The ASTRO A10 Gen 2 features a convenient flip-to-mute microphone. To mute your microphone, simply flip the boom arm upwards. To unmute and enable communication, flip the boom arm back down.

Figure 3: Integrated flip-to-mute microphone in use.

Volume Control

Adjust the audio volume directly from the headset using the in-line volume control located on the cable. This allows for quick adjustments without needing to access your device's settings.

Maintenance

Replacing Ear Cushions and Headband Pad

To ensure long-term comfort and hygiene, the ear cushions and headband pad of your ASTRO A10 Gen 2 Headset are replaceable. This feature eliminates the need to purchase a new headset if these components show signs of wear.

- Gently remove the worn ear cushions by pulling them away from the earcups.
- To replace the headband pad, carefully detach it from the headband.
- Align the new ear cushions and headband pad with their respective positions and press firmly until they are securely attached.

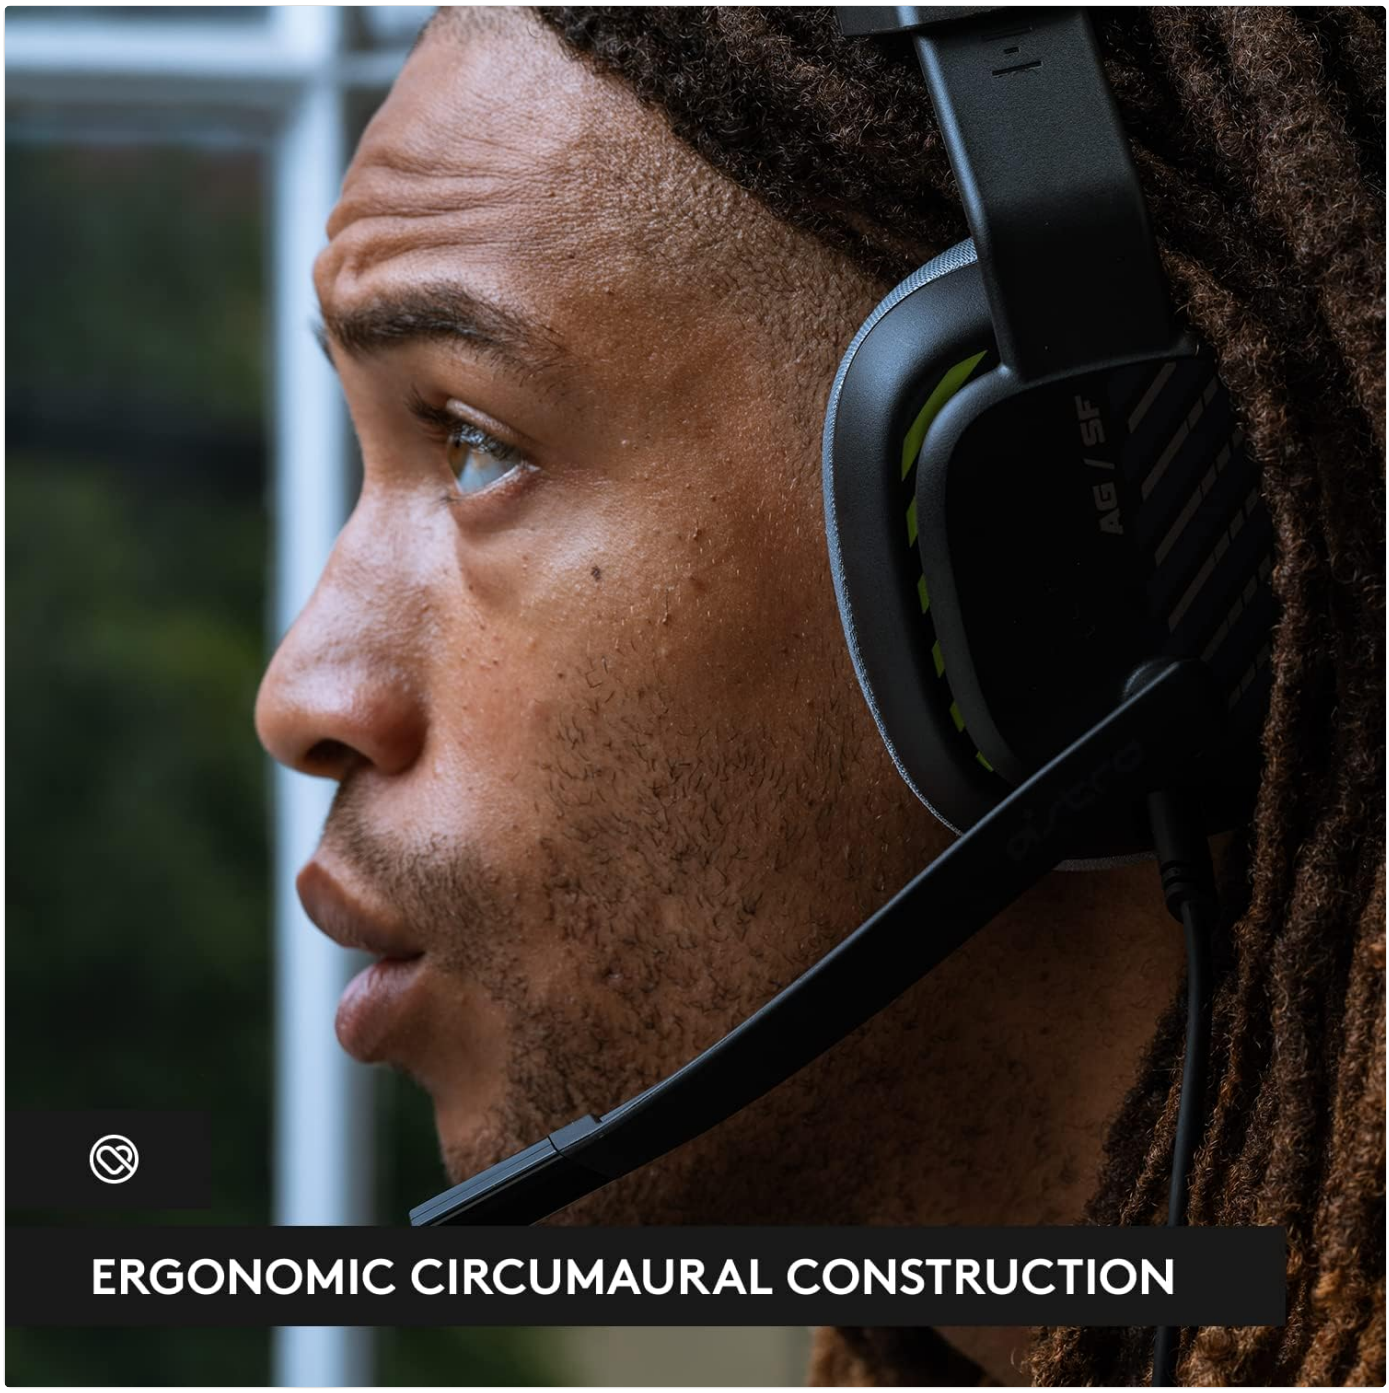

Figure 7: Replaceable ear cushions and headband pad.

Regular cleaning of the ear cushions with a soft, damp cloth is recommended to maintain hygiene. Ensure the headset is completely dry before use.

Troubleshooting

If you encounter any issues with your ASTRO A10 Gen 2 Headset, please refer to the following common troubleshooting steps:

- **No Audio/Low Volume:**
  - Ensure the 3.5mm audio jack is fully inserted into both the headset and your device.
  - Check the in-line volume control and ensure it is turned up.
  - Verify your device's audio output settings are correctly configured to the headset.
  - Test the headset with another device to rule out a device-specific issue.
- **Microphone Not Working:**

- Ensure the microphone boom arm is flipped down to the unmute position.
- Check your device's microphone input settings and ensure the headset is selected as the default input device.
- Test the microphone with another application or device.
- Ensure the microphone is not obstructed.

- **Uncomfortable Fit:**
  - Adjust the headband sliders to find a comfortable fit for your head size.
  - Ensure ear cushions are properly seated and not twisted.

For more detailed troubleshooting or persistent issues, please refer to the official ASTRO Gaming support resources or the full user guide available online.
