6. MAINTENANCE

Proper maintenance ensures the longevity and hygiene of your cat tree:

- **Cleaning:** The fabric components, including the cushion and removable mats, can be hand washed. For the main structure, slight stains can be wiped off easily with a damp cloth due to the mild waterproof fabric. Avoid harsh chemicals.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten as needed.
- **Sisal Posts:** Over time, sisal rope may fray. This is normal. If posts become excessively worn, consider replacing the cat tree or specific components if available.
- **Dangling Toys:** Inspect dangling toys for security. Reattach or replace if they become loose or damaged.
