4. MAINTENANCE AND CARE

Proper care will ensure the lasting beauty and functionality of your hansgrohe Finoris bath mixer.

4.1 Cleaning the Chrome Finish

- The high-gloss chrome finish is designed to be easy to clean due to its smooth surfaces.
- Use only mild cleaning agents specifically designed for chrome or bathroom fixtures. Avoid abrasive cleaners, scouring pads, or solvents, as these can damage the finish.
- Apply the cleaner to a soft cloth, then wipe the mixer. Rinse thoroughly with clean water and dry with a soft cloth to prevent water spots.
- Regular cleaning helps maintain the expressive character and shine of the mixer for many years.

4.2 General Care

- Periodically check all connections for tightness to prevent leaks.
- If water flow decreases, check the aerator at the spout for mineral buildup and clean as necessary.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your bath mixer.
