## Shark VM200P12

# Shark VM200P12 VACMOP Vacuum Mop Instruction Manual

Model: VM200P12

## INTRODUCTION

---

The Shark VM200P12 VACMOP combines powerful suction and spray mopping capabilities into one convenient, cordless system. Designed for hard floors, it efficiently vacuums dry debris and mops wet messes, utilizing disposable pads for a hygienic, no-touch disposal experience. This manual provides essential information for the setup, operation, and maintenance of your Shark VACMOP.

## SETUP

### 1. Charging the Unit

The Shark VACMOP is cordless and powered by a rechargeable lithium-ion battery. Before first use, fully charge the unit.

- Connect the magnetic charging cord to the charging port on the main unit.
- Plug the charger into a standard electrical outlet.
- The indicator light will show charging status and turn solid when fully charged.

### 2. Filling the Cleaning Solution Reservoir

The VACMOP uses a specialized cleaning solution to effectively clean hard floors.

- Locate the fill port on the main unit.
- Open the cap and carefully pour the Shark VACMOP multi-surface hard floor cleaner into the reservoir up to the MAX FILL line.
- Close the cap securely.

### 3. Attaching a Disposable VACMOP Pad

Ensure a fresh disposable pad is attached before each cleaning session.

- Place a new disposable VACMOP pad on the floor with the textured side facing down.
- Align the VACMOP head over the pad and press down firmly until it clicks into place. The pad should securely adhere to the head.

## OPERATING INSTRUCTIONS

## 1. Vacuuming Dry Debris

For dry debris, activate the powerful suction feature.

- Press and hold the vacuum trigger on the handle.
- Guide the VACMOP over dry debris to vacuum it directly into the disposable pad's dirt chamber.
- The front lights illuminate the cleaning path, making dirt and dust visible.

**A COMPLETE CLEAN**  
Just vacuum then spray mop—all with an innovative disposable pad.

Figure 3: The VACMOP's powerful suction captures dry debris like crumbs and dirt.

## 2. Spray Mopping Wet Messes

To tackle wet messes and stuck-on grime, use the spray mop function.

- Press the spray button on the handle to dispense cleaning solution onto the floor.
- Move the VACMOP over the wet area to scrub and clean.

## **LOCK AWAY DEBRIS**

Powerful suction picks up and captures debris.

Figure 4: Spray mopping function effectively cleans wet spills and sticky messes.

### **3. Maneuverability**

The lightweight design (under 5 lbs) and swivel steering allow for easy maneuverability.

- Effortlessly reach into tight spaces and around furniture.
- The cordless design provides freedom of movement for room-to-room cleaning.

**FOR ALL HARD FLOORS**  
From wood to tile, you can get a complete clean.

## MAINTENANCE

### 1. No-Touch Pad Disposal

The disposable VACMOP pads are designed for easy, hygienic removal.

- Position the VACMOP head directly over a trash receptacle.
- Press the pad release button, located on the side of the VACMOP head, to detach the dirty pad without touching it.
- Dispose of the used pad.

# NO-TOUCH DISPOSAL

Just toss the pad with a click.

## 2. General Maintenance

The Shark VACMOP is designed for minimal maintenance.

- No filter cleaning or maintenance is required.
- Simply replace the disposable pad after each use or as needed to ensure optimal cleaning performance.
