## Melitta F530-101

# Melitta Passione F530-101 Automatic Coffee Machine User Manual

Model: F530-101 | Brand: Melitta

## INTRODUCTION

Welcome to the user manual for your Melitta Passione F530-101 Automatic Coffee Machine. This guide provides essential information for the safe and efficient operation, maintenance, and care of your appliance. Please read these instructions thoroughly before first use and keep them for future reference.

## 1. SETUP AND FIRST USE

### 1.1 Unpacking and Placement

Carefully remove all packaging materials. Place the coffee machine on a stable, level, and heat-resistant surface. Ensure adequate ventilation around the appliance.

### 1.2 Filling the Water Tank

Remove the water tank from the machine. Fill it with fresh, cold tap water up to the 'max' mark. If desired, install a Melitta PRO AQUA water filter as shown in the image. Reinsert the water tank securely into the machine. The image shows a hand holding the water tank under a faucet, filling it with water, and another hand inserting a water filter into the tank.

## 1.3 Filling the Bean Container

Open the lid of the bean container located on top of the machine. Pour fresh whole coffee beans into the container. Close the lid firmly to maintain bean freshness. The image displays a hand pouring coffee beans from a bag into the machine's bean container, and a close-up of the beans inside the container.

## 1.4 Initial Startup

Connect the power plug to a suitable wall socket. Press the power button to switch on the machine. Follow the on-screen instructions for the initial rinsing process. This prepares the machine for first use.

## 2. OPERATING INSTRUCTIONS

---

### 2.1 Making Coffee

Place a cup under the coffee spout. Select your desired coffee strength and cup size using the LED symbol screen. Press the coffee button to start the brewing process. The machine will grind the beans and dispense your coffee. The image shows a hand pressing a button on the control panel to adjust settings, and a cup being filled with coffee from the machine's spout.

### 2.2 Using the Auto Cappuccinator (Milk System)

Connect the milk hose to the Auto Cappuccinator and immerse the other end into a container of cold milk. Select your desired milk-based beverage (e.g., cappuccino, latte macchiato) from the menu. The machine will automatically froth and dispense milk, then add coffee. The image shows the machine's milk frother in action, preparing a drink with milk, and a hand holding a carton of milk connected to the frother.

## 2.3 Customizing Your Drink

- **Grinding Degree:** Adjust the grinder setting to one of 5 degrees for finer or coarser coffee grounds.
- **Coffee Intensity:** Choose from 3 intensity levels to match your preferred coffee strength.
- **Cup Size:** Program your preferred cup volume for various beverages.

## 3. CLEANING AND MAINTENANCE

---

### 3.1 Emptying Drip Tray and Coffee Grounds Container

Regularly empty and clean the drip tray and the coffee grounds container. Slide out the drip tray assembly from the front of the machine. Separate the coffee grounds container and dispose of the spent grounds. Rinse both components with warm water. The image shows a hand pulling out the drip tray and coffee grounds container from the front of the machine.

### 3.2 Cleaning the Brewing Unit

To ensure optimal coffee quality, the brewing unit should be cleaned regularly. Open the service door on the side of the machine. Press the release button and carefully remove the brewing unit. Rinse it thoroughly under running water. Allow it to air dry before reinserting. The image shows a hand removing the brewing unit from the side of the coffee machine.

### 3.3 Automatic Cleaning and Descaling Programs

The Melitta Passione F530-101 features automatic cleaning and descaling programs. The machine will prompt you when these cycles are due. Follow the instructions on the LED display to initiate and complete these programs. Use only Melitta-approved cleaning and descaling agents.

## 4. TROUBLESHOOTING

If you encounter issues with your coffee machine, please refer to the following common solutions before contacting customer service:

- **No Coffee Dispensed:** Check if the water tank is filled and correctly inserted. Ensure the bean container has enough coffee beans.
- **Coffee Too Weak/Strong:** Adjust the grinding degree and coffee intensity settings.
- **Milk Not Frothing:** Ensure the milk hose is clean and properly connected. Use cold milk. Clean the Auto Cappuccinator.
- **Error Message on Display:** Consult the specific error code in the full manual (if available) or contact Melitta customer support.
- **Machine Not Turning On:** Check the power connection and ensure the power button is pressed.

## 5. TECHNICAL SPECIFICATIONS

<b>Brand</b>	Melitta
<b>Model Number</b>	F530-101 (6708771-cr)
<b>Color</b>	Silver
<b>Product Dimensions (L x W x H)</b>	24.99 x 38 x 38.99 cm
<b>Weight</b>	11 Kilograms
