

## AULA S603

# AULA S603 Wired Gaming Headset User Manual

Model: S603 | Brand: AULA

## 1. INTRODUCTION

---

The AULA S603 is a wired gaming headset designed for an immersive audio experience. It features a lightweight and comfortable design, noise isolation, a highly sensitive microphone, and vibrant RGB lighting. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your headset.

## Key Features:

- **Ergonomic Design:** Features a soft adaptive suspension headband and breathable, skin-friendly earmuffs for comfortable wear during extended use.
- **Ultra-lightweight:** Designed for comfort during long gaming sessions, offering high-quality sound and an adjustable headband for a custom fit.
- **HD Noise Cancelling:** Built-in technology ensures clear voice pickup and reduces background noise, facilitating clear communication.
- **RGB Lighting:** Integrated RGB LED provides a dynamic backlight effect, cycling through various colors for an enhanced aesthetic.
- **High-sensitivity Microphone:** Captures your voice effectively while filtering out ambient noise, ideal for gaming and video calls.
- **Multi-Platform Compatible:** Connects to various consoles and PCs without hassle, including a converter jack for device versatility.

## 2. SETUP INSTRUCTIONS

Follow these steps to set up your AULA S603 Gaming Headset:

1. **Connect Audio Jack:** Plug the 3.5mm audio jack into the corresponding port on your computer, console controller, or smartphone.
2. **Connect USB (for RGB Lighting):** Insert the USB connector into an available USB port on your device. This powers the RGB lighting feature.
3. **Adjust Headband:** Place the headset on your head and adjust the adaptive suspension headband for a comfortable and secure fit.
4. **Position Microphone:** Adjust the flexible microphone boom to position the microphone near your mouth for optimal voice capture.
5. **Verify Connection:** Ensure both the 3.5mm jack and USB are fully inserted. Your device should recognize the headset automatically.

### 3. OPERATING INSTRUCTIONS

---

Using your AULA S603 headset is straightforward:

- **Volume Control:** Use the inline volume control wheel located on the headset cable to adjust the audio output level. Rotate it up to increase volume and down to decrease.
- **Microphone Usage:** The microphone is automatically active when connected. Ensure it is positioned correctly for clear voice transmission.
- **RGB Lighting:** The 7-color breathing light will activate automatically when the USB is connected. There is no manual control for changing colors or turning off the light directly on the headset.
- **Multi-Platform Use:** For devices requiring separate audio and microphone inputs, use the included converter jack.

Video 2: This video highlights the ultra-lightweight design, HD noise-cancelling microphone, RGB lighting effects, high-sensitivity microphone, and multi-platform compatibility of the AULA S603 headset.

### 4. MAINTENANCE

---

To ensure the longevity and optimal performance of your AULA S603 headset, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using harsh chemicals or abrasive materials. For earmuffs, gently wipe with a damp cloth if necessary, and allow to air dry completely.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tangling the cable; use the tangle-free feature to keep it neat.
- **Cable Care:** Do not pull on the cable to disconnect the headset. Always grasp the plug firmly. Avoid bending or twisting the cable excessively.
- **Microphone Care:** Handle the microphone boom gently. Avoid excessive force when adjusting its position.

### 5. TROUBLESHOOTING

If you encounter issues with your AULA S603 headset, refer to the following common solutions:

Problem	Possible Cause	Solution
No sound from headset	<ul style="list-style-type: none"><li>• 3.5mm jack not fully inserted.</li><li>• Volume control set too low.</li><li>• Incorrect audio output device selected on PC/console.</li></ul>	<ul style="list-style-type: none"><li>• Ensure 3.5mm jack is securely connected.</li><li>• Increase volume using the inline control and device settings.</li><li>• Check your device's sound settings and select the headset as the default output device.</li></ul>
Microphone not working	<ul style="list-style-type: none"><li>• Microphone muted or volume too low.</li><li>• Incorrect audio input device selected on PC/console.</li><li>• Microphone boom not positioned correctly.</li></ul>	<ul style="list-style-type: none"><li>• Check device settings to ensure microphone is not muted and input volume is adequate.</li><li>• Verify your device's sound settings and select the headset microphone as the default input device.</li><li>• Adjust the microphone boom closer to your mouth.</li></ul>
RGB lighting not working	<ul style="list-style-type: none"><li>• USB connector not plugged in.</li><li>• Faulty USB port.</li></ul>	<ul style="list-style-type: none"><li>• Ensure the USB connector is securely plugged into a powered USB port.</li><li>• Try a different USB port on your device.</li></ul>
Sound quality is poor	<ul style="list-style-type: none"><li>• Loose connection.</li><li>• Audio source issue.</li></ul>	<ul style="list-style-type: none"><li>• Ensure all connections are secure.</li><li>• Test with a different audio source or device to rule out external issues.</li></ul>
