3. SETUP

Follow these steps to set up your AULA S606 headset:

- 1. Connect the Headset:** Plug the 3.5mm jack of the headset cable into the corresponding audio port on your device (PC, gaming console controller, smartphone, etc.). Ensure the connection is secure.
- 2. Adjust the Headband:** Place the headset on your head and adjust the headband for a comfortable and secure fit. The earcups should fully cover your ears.
- 3. Position the Microphone:** Adjust the flexible microphone boom to a position near your mouth, typically 2-3 centimeters away, for optimal voice clarity.
- 4. Configure Audio Settings (if necessary):** On your device, ensure the AULA S606 is selected as the default audio output and input device in your sound settings.

4. OPERATING INSTRUCTIONS

4.1 Volume Control

The AULA S606 headset features an integrated volume control dial located on one of the earcups (refer to Figure 3). Rotate the dial to increase or decrease the audio volume to your desired level.

4.2 Microphone Usage

The omnidirectional microphone captures sound from all directions, making it effective for voice communication. The active noise cancellation feature helps to reduce ambient background noise, ensuring your voice is heard clearly by others.

- **Mute/Unmute:** If your headset or device has a mute function, use it to temporarily disable the microphone.
- **Optimal Positioning:** For best results, keep the microphone positioned consistently near your mouth.

5. MAINTENANCE

Proper care will extend the life of your headset:

- **Cleaning:** Use a soft, dry cloth to wipe down the earcups and headband. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the speaker grilles or microphone. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the headset in a clean, dry place away from extreme temperatures and direct sunlight. Avoid placing heavy objects on top of the headset.
- **Cable Care:** Avoid sharp bends, twists, or excessive pulling on the cable. Always grasp the plug, not the cable, when disconnecting from a device.
- **Microphone Care:** Handle the flexible microphone boom gently. Avoid excessive bending or forcing it into extreme positions.
