

Altec Lansing IMW1200-RYB-STK-2

Altec Lansing HydraJolt Wireless Bluetooth Speaker User Manual

Model: IMW1200-RYB-STK-2

PRODUCT OVERVIEW

The Altec Lansing HydraJolt is a versatile and durable wireless Bluetooth speaker designed for outdoor and active lifestyles. Featuring IP67 waterproof, dustproof, and shockproof ratings, it is built to withstand various environments. Enjoy rich, clear audio with dual 1.5-inch drivers and an 86mm x 35mm passive radiator. The speaker also includes a built-in USB charger to power your devices and offers up to 16 hours of playtime on a single charge.

SETUP GUIDE

Unboxing

Carefully remove the HydraJolt speaker from its packaging. Ensure all included components, such as the speaker and charging cable, are present.

Charging the Speaker

Before first use, fully charge your HydraJolt speaker. Connect the provided Type-C charging cable to the speaker's

charging port and the other end to a USB power outlet (e.g., wall adapter, computer USB port). The LED indicator will show charging status. A full charge provides up to 16 hours of playtime.

Figure 2: The HydraJolt speaker offers up to 16 hours of playtime.

Powering On/Off

To power on the speaker, press and hold the **Power** button located on the top panel until you hear an audible prompt. To power off, press and hold the **Power** button again until the speaker shuts down.

Bluetooth Pairing

1. Ensure the speaker is powered on and in Bluetooth pairing mode. The Bluetooth indicator light will flash, indicating it's ready to pair.
2. On your smartphone or other Bluetooth-enabled device, navigate to the Bluetooth settings.
3. Select "HydraJolt" from the list of available devices.
4. Once connected, the speaker will provide an audible confirmation, and the Bluetooth indicator light will become solid.

OPERATING INSTRUCTIONS

Audio Playback

Once paired, audio from your connected device will play through the HydraJolt speaker. Use your device's controls or the speaker's volume buttons to manage playback.

Volume Control

Press the **Volume Up (+)** button to increase the volume. Press the **Volume Down (-)** button to decrease the volume.

LED Light Modes

The HydraJolt speaker features multiple LED light modes. Press the **LED Light Control** button to cycle through different lighting effects or to turn the lights off.

True Wireless Pairing (TWS)

For an enhanced stereo experience, two HydraJolt speakers can be paired together using True Wireless Stereo (TWS) technology. Refer to the specific TWS pairing instructions in your full product manual for detailed steps.

Using as a Power Bank

The HydraJolt speaker includes a built-in USB port that allows you to charge your smartphone or other small devices. Connect your device's charging cable to the USB output port on the speaker. This feature is ideal for keeping your devices powered during outdoor activities.

BUILT-IN SMARTPHONE CHARGER

MAINTENANCE AND CARE

Cleaning

To clean your HydraJolt speaker, use a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these

can damage the speaker's finish and components. Ensure all ports are dry before charging or connecting other devices.

Storage

When not in use for extended periods, store the speaker in a cool, dry place away from direct sunlight and extreme temperatures. It is recommended to fully charge the battery before storing to maintain battery health.

Waterproofing Guidelines

The HydraJolt speaker is IP67 rated, meaning it is waterproof and dustproof. It can be submerged in water up to 1 meter for 30 minutes. Always ensure the charging port cover is securely closed before exposing the speaker to water or dust. While the speaker floats, prolonged submersion is not recommended.

Figure 6: The HydraJolt speaker is "Everything Proof" against snow, water, and dust.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Speaker does not power on.	Battery is depleted.	Charge the speaker using the provided Type-C cable.
Cannot pair with Bluetooth device.	Speaker is not in pairing mode or too far from device.	Ensure speaker is in pairing mode (flashing LED). Move device closer to speaker. Forget "HydraJolt" on your device and try pairing again.

Problem	Possible Cause	Solution
No sound or low volume.	Volume too low on speaker or connected device; speaker not connected.	Increase volume on both the speaker and your connected device. Ensure Bluetooth connection is active.
Charging connected phone is slow or not working.	Speaker battery low; device requires more power than speaker can provide.	Ensure speaker has sufficient charge. The speaker's charging output is standard USB, not fast charging.

TECHNICAL SPECIFICATIONS

Model Name	HydraJolt
Item Model Number	IMW1200-RYB-STK-2
Speaker Type	Outdoor, Portable Bluetooth Speaker
Connectivity Technology	Bluetooth
Audio Output Mode	Stereo (2.0)
