1. INTRODUCTION

Thank you for choosing the Huayu RM-L1388 Universal Remote Control. This remote is designed to provide seamless control over a wide range of Smart LCD and LED televisions, simplifying your home entertainment experience. Please read this manual carefully before using the remote control to ensure proper setup and operation.

2. PRODUCT OVERVIEW

The Huayu RM-L1388 is a versatile universal remote control compatible with various TV brands. Its ergonomic design and clearly labeled buttons make it easy to navigate and control your television's functions, including power, volume, channel selection, smart TV applications, and more.

Key Features:

- **Model Number:** RM-L1388
- **Brand:** Huayu
- **Color:** Black
- **Compatibility:** Designed for Universal TV's, SMART LCD, and LED televisions.
- **Connectivity:** Infrared (IR) technology for reliable communication with your TV.
- **Controller Type:** Button Control, featuring dedicated buttons for common functions and smart apps like Netflix and YouTube.

3. SETUP

3.1. Battery Installation

1. Open the battery compartment cover on the back of the remote control.
2. Insert two AAA Alkaline batteries (not included), ensuring the positive (+) and negative (-) terminals match the diagrams inside the compartment.
3. Close the battery compartment cover securely.

3.2. Programming the Remote Control

The Huayu RM-L1388 is a universal remote and typically requires programming to work with your specific TV model. There are generally two common methods for programming:

Method A: Manual Code Entry

1. Turn on the TV you wish to control.
2. Locate the code list provided with your remote (often a separate sheet or small booklet). Find the codes for your TV brand.
3. Press and hold the 'SET' button (or 'CODE SET' / 'PROG' button, if available) on the remote until the indicator light (usually red) stays lit.
4. Enter the 3 or 4-digit code for your TV brand using the number buttons.
5. If the code is correct, the indicator light will turn off. Test the remote by pressing the 'POWER' button. If the TV turns off, the programming was successful.
6. If the TV does not respond, repeat the process with the next code listed for your brand.

Method B: Auto Search

1. Turn on the TV you wish to control.
2. Point the remote at the TV.
3. Press and hold the 'SET' button (or 'CODE SET' / 'PROG' button) until the indicator light stays lit.
4. While holding the 'SET' button, repeatedly press the 'POWER' button (or 'CH+' button) slowly. The remote will send out different codes.
5. As soon as your TV turns off (or changes channel), release the 'SET' button immediately.
6. Test the remote's functions. If all functions work, programming is complete. If not, repeat the auto-search process.

***Note:** Specific programming instructions may vary slightly depending on the exact version of the remote. Refer to any included code lists or supplementary instructions for your specific model if available. If you encounter difficulties, consult the manufacturer's website or support resources for detailed programming guides.*

4. OPERATING INSTRUCTIONS

Once programmed, the Huayu RM-L1388 remote control functions similarly to your original TV remote.

Below are common button functions:

- **Power (Red Button):** Turns the TV on or off.
- **Mute (Green Button):** Mutes or unmutes the TV sound.
- **Number Buttons (0-9):** Directly enter channel numbers.
- **CH.LIST:** Displays the channel list.
- **P.MODE:** Picture Mode selection.
- **GUIDE:** Accesses the electronic program guide.
- **S.MODE:** Sound Mode selection.
- **MENU:** Opens the TV's main menu.
- **SOURCE:** Selects input sources (HDMI, AV, etc.).
- **Navigation Buttons (Up, Down, Left, Right, OK):** Navigate through menus and confirm selections.

- **RETURN / EXIT:** Returns to the previous screen or exits a menu.
- **VOL +/- (Green Buttons):** Adjusts the volume up or down.
- **CH ^ / v (Blue Buttons):** Changes channels up or down.
- **DISPLAY:** Displays current channel information.
- **SLEEP:** Sets the sleep timer.
- **FAV:** Accesses favorite channels.
- **INFO:** Displays information about the current program.
- **USB-1 / USB-2:** Selects USB input sources.
- **AUDIO:** Changes audio tracks or modes.
- **DEFINE / HOME:** Accesses smart TV home screen or defines a function.
- **REC:** Record function (if supported by TV).
- **HDMI:** Selects HDMI input.
- **SUB:** Subtitle control.
- **FREEZE:** Freezes the current picture.
- **ROTATE:** Image rotation (if supported).
- **Color Buttons (Red, Green, Yellow, Blue):** Functions vary by TV and application, often used for interactive features.
- **NETFLIX / YouTube / MY APPS:** Direct access buttons for popular streaming services and smart TV applications.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the remote control. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Do not use abrasive cleaners or solvents.
- **Battery Care:** Replace batteries when the remote's response becomes sluggish or the indicator light does not illuminate. Remove batteries if the remote will not be used for an extended period to prevent leakage.
- **Storage:** Store the remote control in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity.
- **Avoid Drops:** Protect the remote from physical shocks and drops, which can damage internal components.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote does not work at all.	Dead or incorrectly inserted batteries. Remote not programmed correctly. Obstruction between remote and TV.	Check battery polarity and replace batteries. Re-program the remote using the instructions in Section 3.2. Ensure a clear line of sight to the TV's IR receiver.

Problem	Possible Cause	Solution
Only some buttons work.	Partial programming success.	Try re-programming the remote, or try a different code for your TV brand.
TV responds slowly or intermittently.	Weak batteries. Interference.	Replace batteries. Remove any objects blocking the remote's signal. Ensure no strong light sources (like direct sunlight) are interfering with the TV's IR receiver.
Remote indicator light does not illuminate.	Dead batteries. Internal fault.	Replace batteries. If the issue persists, the remote may be faulty.
