- 2 x Wireless IR Headphones (Model: DWH006)
- 2 x Remote Controls
- 2 x Mounting Brackets
- Various Drive Pipes and Fixed Screws for installation
- Power Cables
- AV Cables
- User Manual

4. SETUP AND INSTALLATION

4.1 Headrest Mounting

The XTRONS headrest DVD players are designed for easy installation on most car headrests. Follow these steps:

1. Choose the appropriate set of drive pipes that fit your headrest poles and install them.
2. Compress the two spring clips on the mounting bracket and attach it to the headrest poles. Release the clips to secure the bracket.
3. Slide the headrest player onto the mounting bracket.
4. Adjust the distance of the player and secure it with the provided screw.
5. For a clean installation, hide the cables by inserting the ISO wiring harness from the bottom of the headrest and guiding it under the seat to a suitable power supply.

Image 4.1: Step-by-step guide for installing the headrest DVD player.

Compatibility Note: The universal mounting bracket is adjustable for most car headrests. Adjustable bracket distance (A->B) is 4.41 inches (112mm) to 6.42 inches (163mm). Maximum distance between monitor to bracket (C->D) is 0.79 inches (20mm). Please note that headrests with curved poles, hidden poles, or cuboid poles may not be compatible.

4.2 Power Connection

The unit can be powered via the car's cigarette lighter socket or hardwired into the vehicle's electrical system. An extra adapter is required for home use (not included).

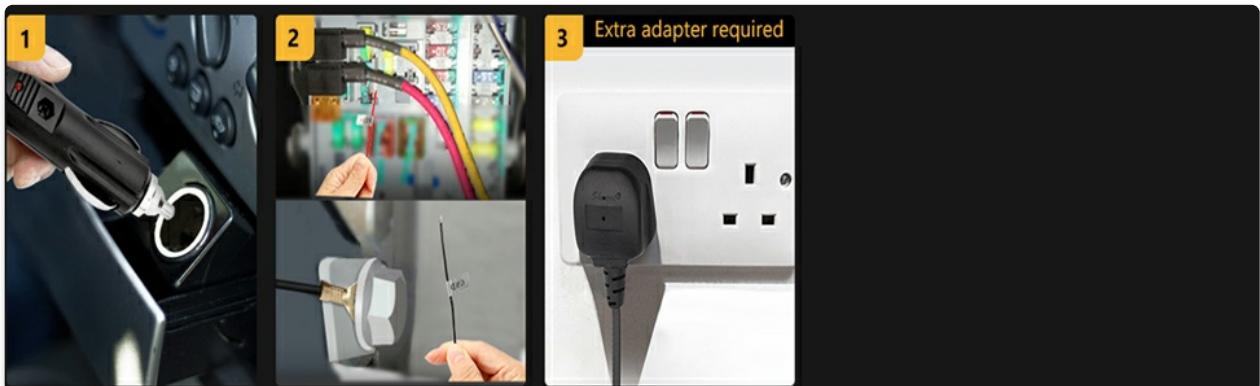

Image 4.3: Power connection methods for the headrest DVD player.

5. OPERATING INSTRUCTIONS

5.1 Basic Operation

The unit features intuitive touch keys for control. Press the power button to turn the unit on or off. Use the volume buttons to adjust audio levels.
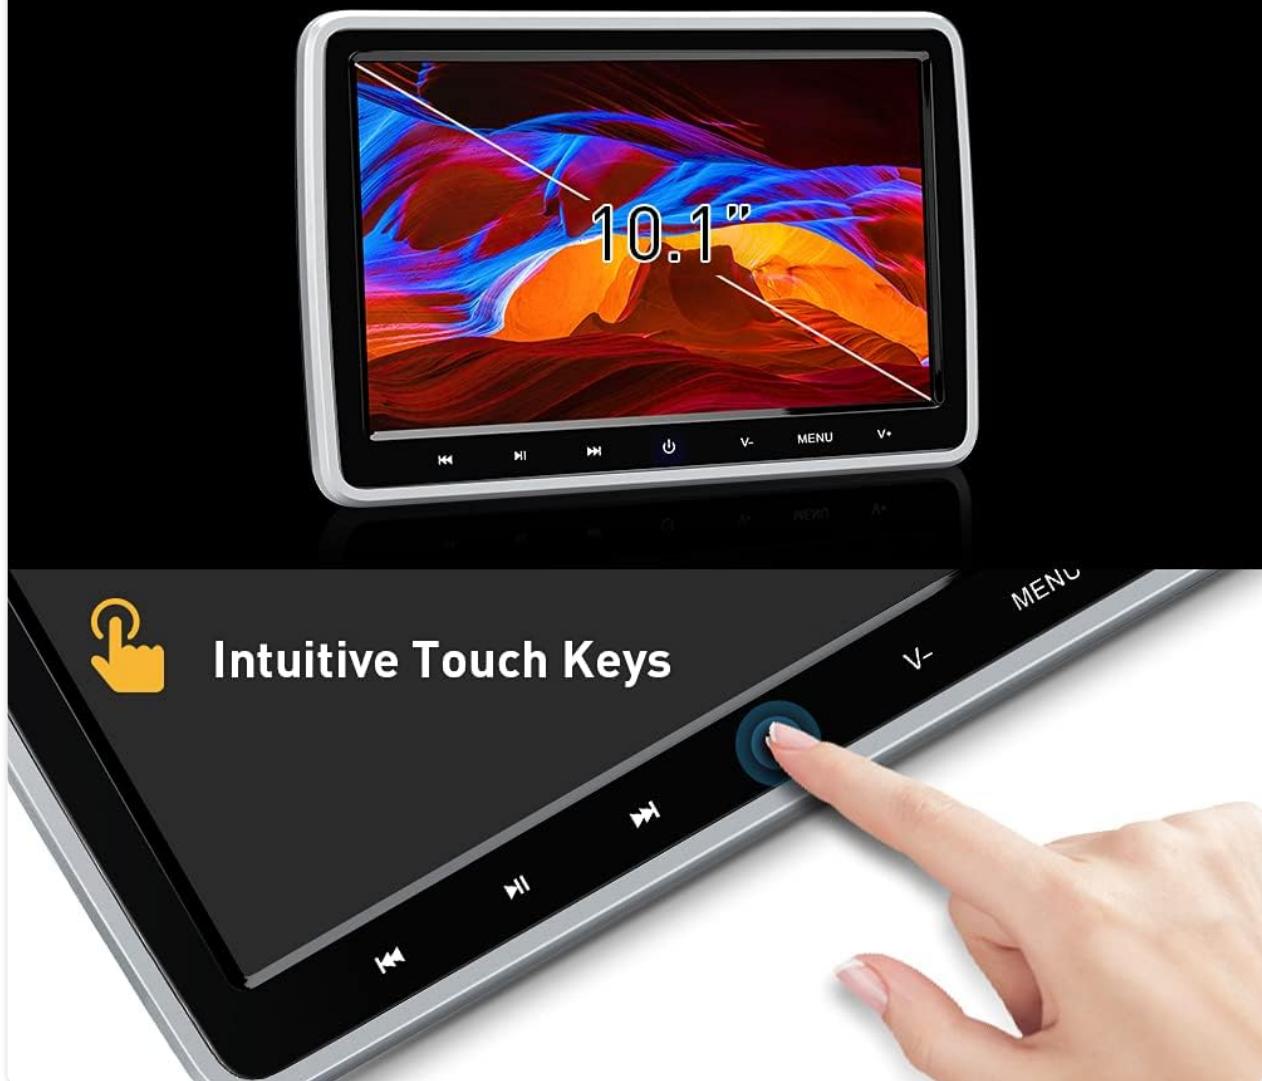

Image 5.1: The 10.1-inch screen with intuitive touch keys for control.

5.2 DVD/CD Playback

The integrated region-free DVD player supports a wide range of disc formats. To play a disc:

1. Open the disc cover on the back of the unit.
2. Carefully insert a DVD or CD into the slot.
3. Close the disc cover. The unit will automatically detect and begin playback.

Image 5.2: Inserting a disc into the region-free DVD player.

5.3 USB/SD Card Playback

Insert a USB flash drive or SD card (up to 32GB) into the respective slots to play digital music, videos, or view photos.

Image 5.3: Versatile connectivity ports including USB and SD card slots.

5.4 HDMI Input

Connect external HDMI devices like game consoles or smartphones (with optional XTRONS HDTV05/HDTV04 cable/adapter, not included) to mirror content onto the 10.1-inch screen.

Image 5.4: HDMI input for screen mirroring from external devices.

5.5 AV Input and Output

Use the AV input to connect other devices to the HD111 monitor. The AV output allows you to share content from the HD111 to another monitor or car stereo system, or to sync content between two HD111 monitors.
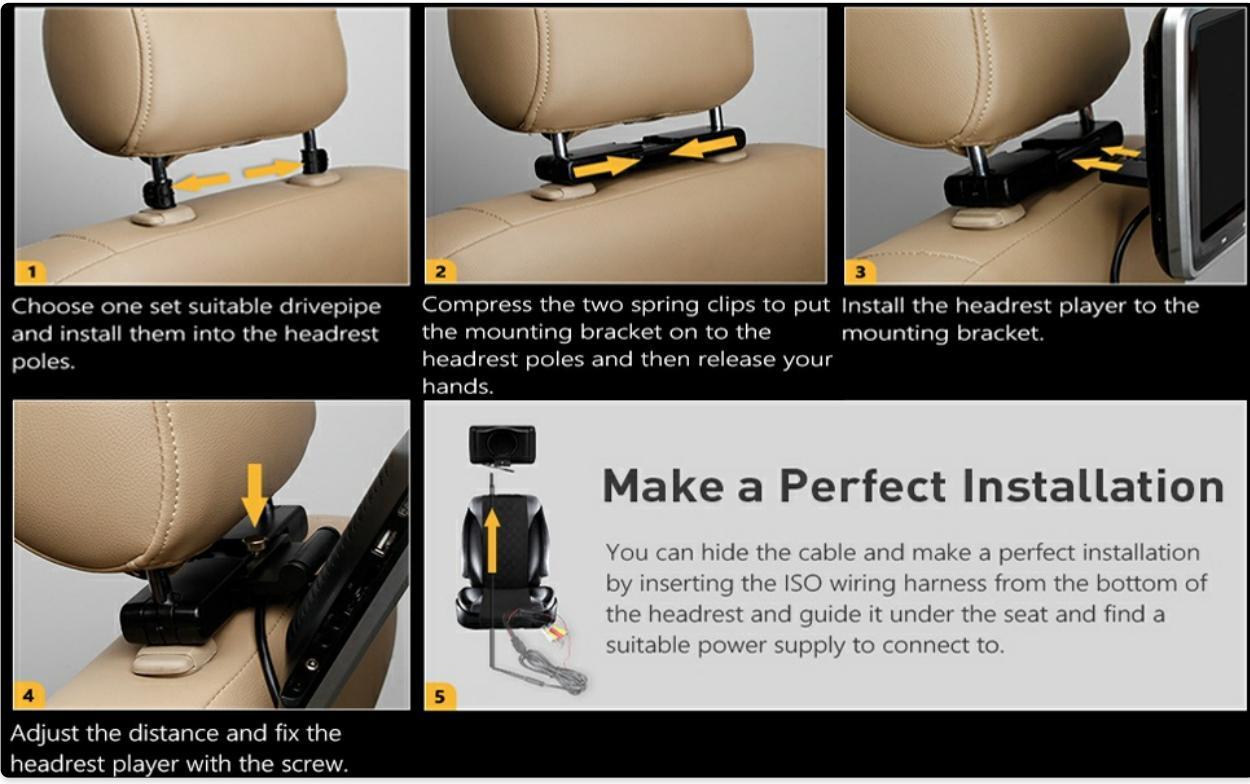

Image 5.5: Content sharing between two headrest DVD players using AV cables.

5.6 Audio Output Options

The unit offers multiple audio output options:

- **Built-in Speakers:** Play audio directly from the unit.
- **Built-in IR Transmitter:** Connect wireless infrared headphones (like the included DWH006) with dual channel (A & B) support.
- **Headset Jack:** Connect wired headphones or external speakers.
- **Other Car Stereo:** Send the audio signal to be received and output by your car's radio receiver.

Image 5.6: Available audio output options.

5.7 32-Bit Games

The unit supports 32-bit games, providing an additional entertainment option. Use the included remote control for gameplay.

Image 5.7: Enjoying 32-bit games on the headrest player.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **Disc Handling:** Always handle discs by their edges. Store discs in their cases to prevent scratches and dust accumulation.
- **Storage:** When not in use for extended periods, store the units in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Management:** Ensure all cables are securely connected and not pinched or strained to prevent damage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
No power	Power cable not connected properly; vehicle power outlet not working; fuse blown.	Check power cable connection. Test the power outlet with another device. Check vehicle's fuse box.
Disc not playing / Disc read error	Disc is dirty or scratched; incorrect disc format; disc inserted incorrectly.	Clean the disc with a soft cloth. Ensure the disc is compatible (refer to supported formats). Re-insert the disc correctly.
No sound	Volume too low; headphones not connected or paired; audio output setting incorrect.	Increase volume. Ensure headphones are properly connected or IR headphones are paired and charged. Check audio output settings (speakers, IR, wired).
Remote control not working	Batteries are dead or inserted incorrectly; remote sensor blocked.	Replace batteries. Ensure batteries are inserted with correct polarity. Clear any obstructions between the remote and the unit's IR sensor.
Screen mirroring not working	Incorrect HDMI cable/adapter; device not compatible; input source not selected.	Ensure you are using the correct HDMI cable/adapter (e.g., XTRONS HDTV05/HDTV04). Verify your device supports mirroring. Select the correct HDMI input source on the player.
