LLIVEKIT WAF0021DE

LLIVEKIT 7L XXL Air Fryer User Manual

Model: WAF0021DE | Brand: LLIVEKIT

1. IMPORTANT SAFETY INSTRUCTIONS

Please read this user manual carefully before using the appliance and save it for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- **Electrical Safety:** Ensure the voltage indicated on the appliance corresponds to your local mains voltage before you connect the appliance. Do not immerse the main unit, cord, or plug in water or other liquids.
- **Hot Surfaces:** The appliance surfaces become hot during use. Always use oven mitts when handling hot components. Do not touch hot surfaces directly.
- **Ventilation:** Do not block any ventilation openings. Allow sufficient free space (at least 10 cm) around the appliance for proper air circulation.
- **Placement:** Place the appliance on a stable, heat-resistant surface, away from walls and flammable materials.
- **Overfilling:** Do not overfill the frying basket. Overfilling may cause food to contact the heating element.
- **Children:** This appliance is not intended for use by children. Keep the appliance and its cord out of reach of children.
- **Protection Features:** The LLIVEKIT Air Fryer is equipped with a high-temperature resistant PP shell, a protective net for the heating ring, an anti-scald handle, anti-slip pads, and an overheating protection system to ensure safe operation.

2. PRODUCT OVERVIEW

The LLIVEKIT 7L XXL Air Fryer is designed for healthy, oil-free cooking, utilizing 360° high-speed hot air circulation to prepare crispy and tender dishes with significantly less fat.

What's in the package ?

7QT Air fryer

21 Recipes

User Manual

Non-Stick Basket

This image illustrates the complete package contents, including the 7-quart air fryer unit, a recipe book with 21 recipes, the user manual, and the non-stick basket.

Key Features:

- **Large 7L Capacity:** Ideal for family meals or entertaining guests.
- **1800W Power:** Ensures fast and efficient cooking.
- **360° Hot Air Circulation:** Cooks food evenly and thoroughly, reducing fat by up to 85% compared to traditional deep frying.
- **LED Touch Screen:** User-friendly interface for easy control and monitoring.
- **10 Pre-programmed Settings:** Simplifies cooking for various dishes like fries, chicken, steak, pizza, and more.
- **Adjustable Temperature & Time:** Customize cooking settings from 80-200°C and 0-60 minutes.
- **Non-Stick Basket:** Ensures easy food release and simplifies cleaning.
- **Multi-functional:** Can be used for frying, baking, grilling, and roasting, offering versatility beyond a traditional fryer.

Faster & Healthy & Delicious

360°

Hot Air Circulation Heating

Air Fryer

Deep Frying

Reduce Fat by 85% than Ordinary Fryers

This diagram illustrates the 360-degree hot air circulation technology, which cooks food thoroughly and reduces fat content by 85% compared to conventional deep frying methods.

The image highlights the versatility of the air fryer, demonstrating its capability to perform functions similar to a microwave oven, deep fryer, frying pan, grill, hot oven, and toaster.

3. SETUP

Follow these steps to set up your LLIVEKIT Air Fryer for first use:

1. **Unpack:** Carefully remove the air fryer and all packaging materials from the box. Keep the packaging for future storage or transport.
2. **Clean Before First Use:** Wipe the exterior of the appliance with a damp cloth. Wash the frying basket and crisper plate with hot water, dish soap, and a non-abrasive sponge. Rinse thoroughly and dry completely.
3. **Placement:** Place the main unit on a stable, level, and heat-resistant surface. Ensure there is at least 10 cm of clear space around the back and sides of the appliance for proper ventilation. Do not place it directly against a wall or under cabinets.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet.
5. **Initial Run (Optional but Recommended):** For the first use, it is recommended to run the air fryer empty for about 10-15 minutes at 180°C (356°F) to eliminate any manufacturing odors. A slight odor may be present,

which is normal and will dissipate.

The air fryer is shown placed on a clean kitchen counter, ready for use, emphasizing proper placement for ventilation.

4. OPERATING INSTRUCTIONS

The LLIVEKIT Air Fryer features an intuitive LED touch screen for easy operation.

Basic Operation:

1. **Prepare Food:** Place your ingredients into the frying basket. Do not exceed the MAX fill line.
2. **Insert Basket:** Slide the frying basket back into the main unit until it clicks into place.
3. **Power On:** Plug in the appliance. The LED screen will light up. Press the power button to turn on the air fryer.
4. **Set Temperature and Time:**
 - Use the temperature control buttons (usually '+' and '-') to set the desired cooking temperature (80-

200°C).

- Use the time control buttons (usually '+' and '-') to set the desired cooking time (0-60 minutes).

5. **Start Cooking:** Press the start/pause button to begin the cooking process.
6. **Shake/Flip Food:** For even cooking, especially for fries or smaller items, pull out the basket halfway through the cooking time and shake or flip the food. The air fryer will pause automatically when the basket is removed and resume when reinserted.
7. **End of Cooking:** The air fryer will beep when the cooking time is complete. Carefully pull out the basket and transfer the cooked food.

Adjustable Temp & Time

Allow You to Cook Your Own Recipes

A detailed view of the air fryer's LED touch screen, highlighting the adjustable temperature range (80-200°C), time settings (1-60 minutes), and the power button.

Smart LED Screen

The air fryer is shown with its smart LED screen illuminated, displaying cooking information, alongside a basket of perfectly cooked fries.

Using Pre-programmed Settings:

The air fryer comes with 10 pre-programmed settings for common dishes:

8 Preset Menus

Including Keep Warm, Dehydrator, Ferment

French fries : 200°C 20mins

Steak : 180°C 16mins

Chicken : 180°C 8mins

Fish : 200°C 15mins

Pizza : 200°C 9mins

Roast Meat: 180°C 10-25mins

Cake : 180°C 14mins

Shrimp : 180°C 10mins

This image displays the air fryer with its basket open, containing cooked chicken, and a graphic illustrating 8 common preset menus with their recommended cooking temperatures and times, such as French fries, Steak, Chicken, Fish, Pizza, Roast Meat, Cake, and Shrimp.

- Press the 'M' (Menu) button to cycle through the 10 pre-programmed cooking modes.
- Once you select a program, the air fryer will automatically set the optimal temperature and time.
- You can adjust the temperature and time manually even after selecting a preset, if desired.

Keep Warm Function:

After cooking, you can select the 'Keep Warm' function (indicated by 'SSS' on the display) to keep your food warm for up to 2 hours.

5. CLEANING AND MAINTENANCE

Regular cleaning ensures optimal performance and extends the lifespan of your air fryer.

1. **Unplug and Cool Down:** Always unplug the air fryer from the power outlet and allow it to cool down completely before cleaning.
2. **Clean Basket and Crisper Plate:** The frying basket and crisper plate have a non-stick coating and are dishwasher safe. For hand washing, use hot water, dish soap, and a soft sponge. Do not use abrasive cleaning materials like steel wool or harsh detergents, as they can damage the non-stick coating.
3. **Clean Exterior:** Wipe the exterior of the air fryer with a damp cloth. Do not use abrasive cleaners.
4. **Clean Interior:** For the interior, including the heating element, use a non-abrasive sponge or cloth. For stubborn residue, a small amount of baking soda paste can be used, then wiped clean. Ensure no water enters the main unit.
5. **Storage:** Once clean and dry, store the air fryer in a cool, dry place.

Non-Stick Coating

———— Easy to Clean ————

Dishwasher Safe

Washing by Hand

Clean with Soft Sponge

This image demonstrates the ease of cleaning the non-stick basket, showing it is dishwasher safe, can be washed by hand, and should be cleaned with a soft sponge, not a steel wool scrubber.

6. TROUBLESHOOTING

If you encounter any issues with your LLIVEKIT Air Fryer, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|--|--|---|
| Air fryer does not turn on. | Appliance not plugged in; Power outlet not working; Basket not inserted correctly. | Ensure the power cord is securely plugged into a working outlet. Check if the basket is fully pushed into the main unit. |
| Food is not cooked evenly. | Basket is overfilled; Food not shaken/flipped. | Do not overfill the basket. Shake or flip ingredients halfway through cooking for even results. |
| White smoke coming from the appliance. | Greasy residue from previous use; Fatty ingredients. | Clean the basket and crisper plate thoroughly after each use. For fatty foods, excess oil may drip and cause smoke; this is normal. |
| Unusual smell during first use. | Manufacturing residue. | This is normal for the first few uses. Run the air fryer empty for 10-15 minutes at 180°C to burn off any residue. Ensure good ventilation. |
| Food is not crispy. | Too much moisture; Not enough oil (for certain foods); Incorrect temperature/time. | Pat food dry before air frying. A light spray of oil can help achieve crispiness. Adjust temperature and time as needed. |

If the problem persists after trying these solutions, please contact customer support.
