SCRABBLE GYM75

SCRABBLE Star Wars Board Game (Model GYM75) Instruction Manual

Your guide to playing the classic word game with a galactic twist.

1. Introduction

Welcome to the SCRABBLE Star Wars Board Game, Model GYM75. This edition combines the classic word-building challenge of Scrabble with the iconic universe of Star Wars. Players can choose between two distinct game modes: Classic Scrabble with Star Wars vocabulary or the immersive Galaxy Mode, which introduces starship movers and Galaxy Cards for an enhanced experience. This manual provides comprehensive instructions for setup, gameplay, and rules for both modes.

2. Components

Before starting, ensure all components listed below are present in your game box:

- 1 Star Wars themed game board
- 100 Letter tiles (including Aurebesh characters)
- 4 Starship movers (Millennium Falcon, Boba Fett's starship, X-wing, TIE fighter)
- 4 Tile racks
- 1 Tile bag
- 56 Galaxy Cards
- 1 Star Wars Glossary

3. Setup

1. Place the game board on a flat, stable surface.
2. Place all letter tiles into the tile bag and mix them thoroughly.
3. Each player draws seven tiles from the bag and places them on their tile rack.
4. Decide which game mode to play: Classic Scrabble or Galaxy Mode.
5. If playing Galaxy Mode, shuffle the 56 Galaxy Cards and place them face down in the designated area on the board. Each player chooses one of the four starship movers.

4. Gameplay - Classic Scrabble Mode

This mode follows the traditional Scrabble rules, with the addition of Star Wars specific vocabulary. Players form words using their letter tiles, aiming to score points based on letter values and bonus squares on the board.

4.1. Basic Rules

- The first player places a word on the center star square.
- Subsequent players build words off existing words, either horizontally or vertically.
- All letters played in a turn must form one complete word.
- Points are scored for each letter, with bonus squares (Double Letter, Triple Letter, Double Word, Triple Word) multiplying scores.
- The Star Wars Glossary can be used to verify the validity of Star Wars related terms.
- Players draw new tiles to replenish their rack to seven tiles after each turn.

4.2. Scoring

Each letter tile has a point value. Sum the values of all letters in a word, applying any bonus square multipliers. If a player uses all seven tiles in a single turn (a "bingo" or "Scrabble"), they receive an additional 50 points.

5. Gameplay - Galaxy Mode

Galaxy Mode offers a more dynamic and immersive Star Wars experience. While still building words, the scoring and movement mechanics are altered to incorporate starship movers and Galaxy Cards.

5.1. Movement and Galaxy Cards

- When you form a word, you move your chosen starship mover around the board. The number of spaces you move is determined by the word you played.
- Landing on specific spaces allows you to collect Galaxy Cards. These cards provide power-ups, special abilities, or additional points.
- The objective is to strategically build words to navigate the board, collect valuable Galaxy Cards, and accumulate points.

5.2. Scoring in Galaxy Mode

Scoring in Galaxy Mode is influenced by the words you build and the Galaxy Cards you collect. The specific scoring rules for each Galaxy Card are detailed on the cards themselves. The player with the highest score at the end of the game wins.

6. Star Wars Glossary

Both game modes utilize a dedicated Star Wars Glossary. This glossary contains official Star Wars terminology, characters, planets, and other relevant words that are valid for play. Refer to this glossary if there are any disputes

about word validity during gameplay.
