- 1x Ledvion LED Wall Lamp (Model LVO10077)
- 2x Wall Plugs
- 2x Mounting Screws
- 1x Instruction Manual

3. PRODUCT FEATURES

- Constructed from high-quality aluminum and stainless steel.
- Features a modern and timeless design.
- The lamp features a stainless aluminum housing and 5mm thick glass, providing an IP44 certification for outdoor use.
- Equipped with a replaceable E27 lamp holder, offering flexibility to change light sources without replacing the entire fixture.
- Easy to mount with the included screws and wall plugs.

This image illustrates that the Ledvion LED Wall Lamp is compatible with any E27 lamp, allowing users to choose their preferred light color. It also indicates a maximum wattage of 15W.

This image highlights the IP44 rating of the Ledvion LED Wall Lamp, indicating its protection against dust and splash-proof capabilities, as well as its anti-rust and anti-moisture properties.

This image advertises a 3-year warranty for the Ledvion LED Wall Lamp, emphasizing its black stainless steel housing designed for long-term usage.

4. INSTALLATION INSTRUCTIONS

Important: Installation should be performed by a qualified electrician or competent person. Always switch off the main power supply before commencing any electrical work.

1. **Prepare for Installation:** Ensure the power supply to the installation area is switched off at the main circuit breaker. Gather all necessary tools (drill, screwdriver, pencil, measuring tape).

2. **Mark Drilling Points:** Use the lamp's mounting plate as a template to mark the drilling points on the wall.

3. **Drill Holes:** Drill holes at the marked positions. Insert the provided wall plugs into the drilled holes.

4. **Mount the Bracket:** Secure the lamp's mounting bracket to the wall using the provided screws.

5. **Connect Wiring:** Connect the household electrical wires to the lamp's terminals. Ensure correct polarity (Live, Neutral, Earth) according to local electrical codes.

6. **Install E27 Bulb:** Open the lamp housing. Carefully screw an E27 bulb (maximum 15W) into the lamp holder.

7. **Secure Lamp Housing:** Close and secure the lamp housing.

8. **Restore Power:** Switch the main power supply back on.

This image provides the dimensions of the Ledvion LED Wall Lamp, showing a height of 320 mm, a width of 165 mm from the wall, and a base diameter of 120 mm. Use these dimensions for planning your installation.

This video demonstrates the assembly process for a wall lamp similar to the Ledvion LVO10077. It shows how to open the lamp housing, insert an E27 bulb, and secure the housing back in place.

5. OPERATING INSTRUCTIONS

Once installed and connected to the main power supply, the Ledvion LED Wall Lamp can be operated using a standard wall switch. Ensure the E27 bulb is correctly installed and the power is switched on for the lamp to function.

This image displays the Ledvion LED Wall Lamp installed on an outdoor wall, illuminating the area with a warm light, showcasing its aesthetic and functional integration into an outdoor setting.

6. MAINTENANCE

Cleaning

To maintain the appearance and functionality of your lamp, clean it regularly. Use a soft, damp cloth to wipe the exterior. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or glass.

Bulb Replacement

To replace the E27 bulb:

1. Ensure the power supply to the lamp is switched off at the main circuit breaker.
2. Carefully open the lamp housing.
3. Unscrew the old E27 bulb counter-clockwise.
4. Screw in a new E27 bulb (maximum 15W) clockwise until secure.

5. Close and secure the lamp housing.

6. Restore power to the lamp.

7. TROUBLESHOOTING

| Problem	Possible Cause	Solution
Lamp does not light up.	No power supply. Bulb is faulty or not installed correctly. Wiring error.	Check the main power supply and wall switch. Replace the E27 bulb or ensure it is screwed in properly. Consult a qualified electrician to check the wiring.
Lamp flickers.	Loose bulb connection. Faulty bulb. Unstable power supply.	Tighten the E27 bulb. Replace the E27 bulb. Consult a qualified electrician to check the power supply.
