Govee H6075

Govee LED Floor Lamp User Manual

Model: H6075

INTRODUCTION

Thank you for choosing the Govee LED Floor Lamp (Model H6075). This smart floor lamp is designed to provide versatile and customizable lighting for your living space, bedroom, or office. With features like adjustable brightness, color temperature, and multiple control methods, it enhances your environment with ease and efficiency.

The Govee LED Floor Lamp (Model H6075) showcasing its sleek design and the accompanying mobile application for smart control.

PACKAGE CONTENTS

Please ensure all components are present and in good condition before assembly.

- Lamp Head
- Base
- Power Adapter
- Post sections (multiple)
- Post with Control Button
- User Manual (PDF version available via provided link)

All components included in the Govee LED Floor Lamp package.

SETUP AND INSTALLATION

Follow these steps to assemble your Govee LED Floor Lamp:

1. Untwist and straighten the power cable from the post with the control button.
2. Pass the power cable through the other post sections.
3. Connect and screw in the post sections together, ensuring the cable passes through each one.
4. Pass the bottom end of the power cable through the center hole of the lamp base.
5. Connect and tighten the assembled post to the lamp base.
6. Pass the power cable through the top post (the one with the control button).
7. Connect the interface between the lamp head and the power cable extending from the top post.
8. Tighten the screw connecting the lamp head to the top post.
9. Connect the power cable from the base to the power adapter.
10. Plug the power adapter into a standard electrical outlet.

OPERATING INSTRUCTIONS

Manual Control

The lamp features integrated buttons on the post for basic control:

- **Power Button:** Press to turn the lamp on or off.
- **Brightness Buttons (+/-):** Adjust the light intensity.
- **Mode Button:** Cycle through preset lighting modes or color temperatures.

Unique Design

Suitable height & weight and adjustable lighting angle

Control buttons located on the lamp's post for manual adjustments.

Smart Control (Govee Home App)

For full functionality, download the Govee Home App from your device's app store. The app allows for advanced control, including:

- Adjusting brightness (1-100%) and color temperature (2200-6500K).
- Selecting from multiple preset scene modes (e.g., Night Light, Breathe, Blink, Reading, Candlelight).
- Setting timers and schedules for automatic on/off.
- Creating custom lighting effects.

The Govee Home App provides comprehensive control over brightness and color temperature.

Examples of multiple preset scene modes available through the Govee Home App.

Voice Control (Alexa & Google Assistant)

The Govee LED Floor Lamp is compatible with Amazon Alexa and Google Assistant for convenient voice commands. Ensure your lamp is connected to the Govee Home App and then link your Govee account to your preferred voice assistant app.

- **Example Commands:**
- "Alexa, set the light to warm white."
- "Hey Google, turn on the floor lamp."
- "Alexa, set scene mode to reading."

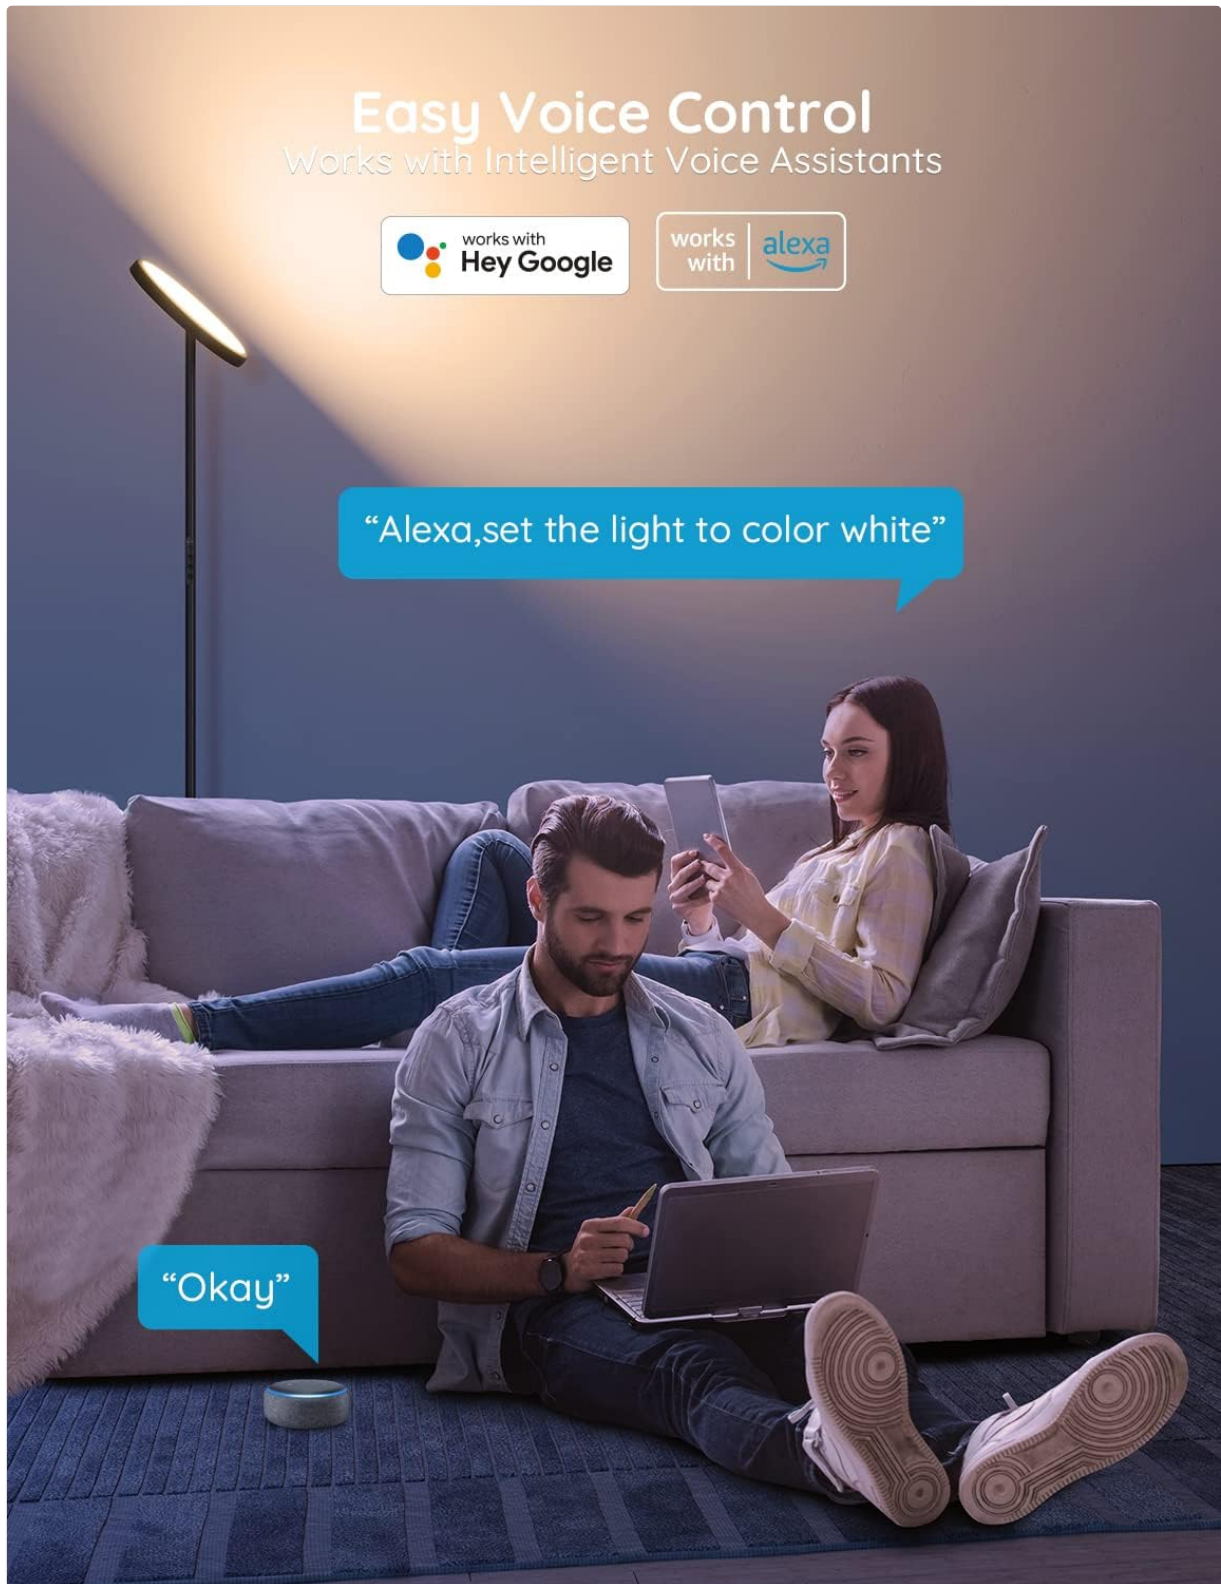

Easy Voice Control

Works with Intelligent Voice Assistants

“Alexa, set the light to color white”

“Okay”

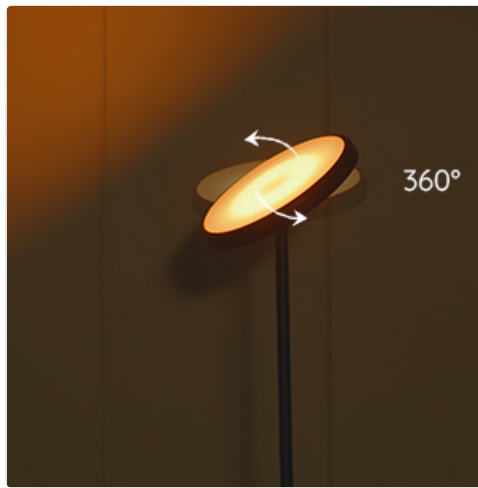

Voice control functionality with Amazon Alexa and Google Assistant for the Govee LED Floor Lamp.

Adjustable Lighting Angle

The lamp head can be rotated 360 degrees, allowing you to direct light precisely where needed for optimal illumination.

The lamp head offers 360-degree rotation for flexible lighting direction.

MAINTENANCE

- Wipe the lamp with a soft, dry cloth to remove dust.
- Do not use abrasive cleaners or solvents, as they may damage the finish.
- Ensure the lamp is unplugged before cleaning.

TROUBLESHOOTING

If you encounter issues with your Govee LED Floor Lamp, refer to the following common solutions:

Problem	Possible Cause / Solution
Lamp does not turn on.	Ensure the power adapter is securely plugged into both the lamp and the wall outlet. Check if the outlet is functional.
Cannot connect to Wi-Fi.	Ensure your Wi-Fi network is 2.4GHz. Avoid special characters or spaces in your Wi-Fi password. Move the lamp closer to your router.
Voice control not working.	Verify that your Govee account is correctly linked to your Alexa or Google Assistant app. Ensure your voice assistant device is online and within range.
Lamp flickers or changes brightness unexpectedly.	Check for loose connections in the lamp's posts. Ensure the power supply is stable. Try resetting the lamp by unplugging it for a few seconds and plugging it back in.
