## SETUP AND INSTALLATION

---

Before connecting the Okin Dewert 81745 Handset, ensure that the adjustable bed's power supply is disconnected from the wall outlet to prevent accidental operation or electrical hazards.

- Identify the Control Box:** Locate the Okin control box on your adjustable bed. Verify that it is one of the compatible models (MC 11, MC 12, MC 15, MC16, MC 17, MC 18 series).
- Locate the Connection Port:** Find the 13-pin connection port on the control box. This port is specifically designed for this type of handset.
- Connect the Handset:** Align the 13-pin connector of the Okin Dewert 81745 Handset with the corresponding port on the control box. Gently push the connector in until it is firmly seated. Do not force the connection.
- Secure the Cable:** Ensure the cable is routed safely and does not interfere with the bed's moving parts or pose a tripping hazard.
- Restore Power:** Once the handset is securely connected, plug the adjustable bed's power supply back into the wall outlet.

## Button Functions:

- **Head Up/Down Buttons:** Control the elevation and lowering of the head section of the bed.
- **Foot Up/Down Buttons:** Control the elevation and lowering of the foot section of the bed.
- **Head & Foot Up/Down Buttons:** Simultaneously adjust both the head and foot sections.
- **Flat Button:** Returns the bed to a completely flat position.
- **Power On Indicator:** A light that illuminates when the handset is receiving power and is active.
- **Lock/Unlock Button:** Located on the back of the handset, this button is used to lock or unlock the adjustment functions of the bed, preventing accidental changes. This is particularly useful in care and hospital environments.

### Using the Lock/Unlock Function:

To engage or disengage the lock function, press the designated lock/unlock button on the back of the handset. When locked, the bed's adjustment buttons will be inactive. This feature is designed to prevent unintended bed movements, especially in environments where patient safety is paramount.

## MAINTENANCE

---

Proper maintenance ensures the longevity and reliable operation of your Okin Dewert 81745 Handset.

- **Cleaning:** Use a soft, dry cloth to wipe down the handset. For stubborn dirt, a slightly damp cloth with mild soap can be used, but ensure no liquid enters the device. Do not use abrasive cleaners or solvents.
- **Cable Inspection:** Regularly inspect the cable for any signs of wear, fraying, or damage. A damaged cable can affect functionality and pose a safety risk. If damage is found, discontinue use and seek a replacement.
- **Storage:** When not in use, store the handset in a clean, dry place away from direct sunlight and extreme temperatures. Avoid placing heavy objects on the cable or handset.
- **Connector Care:** Keep the 13-pin connector clean and free of dust or debris. Avoid bending or twisting the pins.
