PuroAir PuroAir 240

PuroAir 240 HEPA Air Purifier User Manual

Model: PuroAir 240

Brand: PuroAir

1. INTRODUCTION

The PuroAir 240 HEPA Air Purifier is designed to provide cleaner, healthier air in your home. Featuring a powerful 3-layer filtration system, it effectively removes up to 99.9% of airborne pollutants, including dust, pollen, smoke, pet dander, and VOCs. This manual provides essential information for the safe and efficient operation and maintenance of your air purifier.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the appliance.

- Always unplug the air purifier before cleaning or performing any maintenance.
- Do not operate the appliance with a damaged cord or plug.
- Keep the air inlet and outlet clear of obstructions.

- This appliance is for indoor use only.
- Do not use in wet or humid environments.

Wattage

The PuroAir 240 operates at 45 watts.

3. PRODUCT OVERVIEW

Components

- Air Purifier Unit
- HEPA 14 Filter (integrated pre-filter, HEPA filter, and activated carbon layers)
- Power Cord

Control Panel Features

4. SETUP

1. Unpack the air purifier and all accessories.
2. Remove the filter from its protective packaging. The filter access is located at the bottom of the unit.
3. Insert the filter back into the unit and secure the bottom cover by twisting it into place.
4. Place the air purifier on a flat, stable surface, ensuring adequate clearance around the air inlets and outlets.
5. Plug the power cord into a suitable electrical outlet.

5. OPERATING INSTRUCTIONS

Power On/Off

Press the Power button once to turn the unit on. Press it again to turn it off.

Auto Mode / Fan Speed Adjustment

In Auto Mode, the air purifier automatically adjusts its fan speed based on the detected air quality. The indicator light on the control panel will change color (e.g., orange for moderate pollution, green for good air quality).

To manually adjust fan speed, press the Auto/Mode button repeatedly to cycle through low, medium, and high settings.

Sleep Mode

Press the Sleep Mode button to activate quiet operation. The fan speed will reduce, and indicator lights will dim for undisturbed rest.

Timer Function

Press the Timer button to set the desired operating duration (2, 4, 6, or 8 hours). The unit will automatically turn off after the set time.

Child Lock

To activate the child lock, press and hold the "Hold to Lock" button for 3 seconds. This prevents accidental changes to settings. Repeat to deactivate.

6. MAINTENANCE

Filter Replacement

The "Replace Filter" indicator light will illuminate when it's time to replace the HEPA 14 filter. This typically occurs every 3-6 months, depending on usage and air quality.

1. Unplug the air purifier.
2. Turn the unit upside down.
3. Twist the bottom cover counter-clockwise to unlock and remove it.

4. Remove the old filter.
5. Insert a new PuroAir HEPA 14 filter.
6. Replace the bottom cover and twist clockwise to secure.
7. Plug in the unit. To reset the filter indicator, press and hold the "Replace Filter" button for 3 seconds until the light turns off.
