3. Package Contents

Upon opening the package, you should find the following items:

- 1 Unit Havells 16A Wi-Fi Smart Plug
- 1 Unit Instruction Manual

4. Safety Information

Please read and understand all safety instructions before using the device. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Ensure the smart plug is used within its specified electrical ratings (16A, 220-240V AC).
- Do not disassemble or modify the device.
- Keep the device away from water, moisture, and high temperatures.
- Do not plug in appliances that exceed the maximum load of 16A.
- For indoor use only.

5. Setup and Installation

Follow these steps to set up your Havells 16A Wi-Fi Smart Plug:

5.1. App Download and Account Creation

The Havells 16A Wi-Fi Smart Plug operates with the Havells DigiTap mobile application, available for both Android and iOS devices.

Image 5.1: Download the Havells DigiTap app from your device's app store.

1. Download the **Havells DigiTap App** from the Google Play Store or Apple App Store.
2. Open the app and follow the on-screen instructions to create a new account or log in if you already have one.

5.2. Device Pairing

To pair your smart plug with the DigiTap app:

1. Plug the Havells 16A Wi-Fi Smart Plug into a power outlet.
2. Open the DigiTap app and select 'Add Device'.
3. Follow the app's instructions to reset the device (usually by holding the power button for a few seconds until the indicator light blinks rapidly).
4. Enter your 2.4 GHz Wi-Fi network password when prompted. The smart plug does not support 5 GHz Wi-Fi networks.
5. The app will then connect to and configure your smart plug. Once connected, you can rename the device for easy identification.

7. Maintenance

To ensure optimal performance and longevity of your Havells 16A Wi-Fi Smart Plug:

- Keep the device clean and free from dust. Use a dry, soft cloth for cleaning.
- Avoid exposing the device to extreme temperatures or direct sunlight.
- Regularly check for firmware updates through the DigiTap app to ensure you have the latest features and security enhancements.
- Ensure the plug is securely seated in the wall socket and the appliance plug is securely inserted into the smart plug.

8. Troubleshooting

If you encounter issues with your smart plug, refer to the following common problems and solutions:

- **Device not connecting to Wi-Fi:** Ensure your Wi-Fi network is 2.4 GHz. Verify the Wi-Fi password. Try resetting the smart plug and re-pairing it. Ensure the smart plug is within range of your Wi-Fi router.
- **App crashes or unresponsiveness:** Ensure your DigiTap app is updated to the latest version. Try restarting the app or your smartphone. If issues persist, reinstall the app.
- **Voice control not working:** Confirm that your DigiTap account is correctly linked to Alexa or Google Assistant. Ensure your voice assistant device is online and properly configured. Try rediscovering devices in the Alexa or Google Home app.
- **Appliance not turning on/off:** Check if the smart plug has power (indicator light should be on). Ensure the appliance is properly plugged into the smart plug and is functioning correctly when plugged directly into a wall socket. Verify the schedule or manual command in the app.
- **Timer resets after power failure:** This smart plug does not have an internal battery to maintain time during a power outage. Schedules will resume once power is restored and the device reconnects to Wi-Fi.
