4. FIRST USE

Upon receiving your new wallet, please follow these steps:

1. **Unpack:** Carefully remove the wallet from its packaging.
2. **Inspect:** Check for any protective films or inserts and remove them. Ensure all zippers and snaps operate smoothly.
3. **Airing:** If there is a new product scent, allow the wallet to air out in a well-ventilated area for a short period.

5. USAGE GUIDELINES

To maximize the functionality and maintain the shape of your wallet:

- **Card Organization:** Distribute cards evenly across the card slots to prevent bulging. Avoid overstuffing.
- **Cash and Receipts:** Utilize the bill compartment for unfolded banknotes. Use the open pockets for receipts or less frequently accessed items.
- **Coin Storage:** The exterior zippered coin purse is ideal for loose change. Do not overfill to prevent strain on the zipper.
- **Avoid Overloading:** While spacious, excessive contents can distort the wallet's shape and put stress on seams and closures.

6. CARE AND MAINTENANCE

Proper care will help preserve the beauty and integrity of your COACH wallet:

- **Cleaning:**
 - For PVC coated canvas: Wipe gently with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
 - For leather trim: Use a specialized leather cleaner or conditioner sparingly, following the product instructions. Test on an inconspicuous area first.
 - For hardware: Polish with a soft, dry cloth.
- **Storage:** When not in use, store the wallet in a cool, dry place, away from direct sunlight and humidity. If possible, use the original dust bag or a breathable cloth bag to protect it.
- **Avoid Contact:** Keep the wallet away from oil, grease, ink, and excessive moisture.
- **Protect from Scratches:** Avoid placing the wallet near sharp objects or rough surfaces that could scratch the material or hardware.

7. TROUBLESHOOTING

Minor issues can often be resolved with simple steps:

- **Stains on Canvas:** For light stains, try wiping with a soft cloth dampened with mild soap and water. Blot dry immediately.
- **Stiff Zipper:** If the zipper feels stiff, gently rub a small amount of zipper lubricant (e.g., beeswax or a graphite pencil) along the teeth.
- **Discoloration:** Prolonged exposure to direct sunlight or certain chemicals can cause discoloration. Store properly to prevent this.
