VRURC T2055

VRURC 20000mAh Mini Power Bank User Manual

Model: T2055

INTRODUCTION

Thank you for choosing the VRURC 20000mAh Mini Power Bank. This portable power bank is designed to provide efficient and rapid charging for your electronic devices on the go. With its high capacity, multiple output ports, and fast charging capabilities, it ensures your devices stay powered throughout the day. Please read this manual carefully before use to ensure optimal performance and safety.

SETUP

Initial Charging

Before first use, it is recommended to fully charge your VRURC Power Bank. This ensures the battery is calibrated and

ready for optimal performance.

1. Connect the power bank to a power source (e.g., wall adapter, computer USB port) using a compatible USB-C, Micro USB, or Lightning cable.
2. The LED display will show the charging progress, indicating the battery percentage.
3. Charging is complete when the LED display shows "100%".

Connecting Devices

The power bank features multiple input and output ports for broad compatibility.

OPERATING INSTRUCTIONS

Charging Your Devices

1. Identify the correct charging cable for your device.

2. Plug one end of the cable into an available output port on the power bank (USB-A or USB-C).
3. Plug the other end of the cable into your device's charging port.
4. The power bank will automatically begin charging your device. The LED display will show the remaining battery percentage of the power bank.

Image: The VRURC power bank simultaneously charging four different devices: a laptop, a smartphone, and two tablets, demonstrating its multi-device charging capability.

Recharging the Power Bank

The power bank can be recharged using a USB-C, Micro USB, or Lightning cable.

1. Choose a suitable cable (USB-C, Micro USB, or Lightning).
2. Connect the cable to the corresponding input port on the power bank.
3. Connect the other end of the cable to a power source (e.g., wall charger, computer USB port).
4. The LED display will illuminate and show the charging percentage.

3-Ways for Recharge

Image: A visual guide showing the three different ways to recharge the power bank: via USB-C Fast InPort, Lightning InPort, and Micro InPort, each indicating an 18W input.

MAINTENANCE

Cleaning

- Wipe the power bank with a soft, dry cloth.
- Do not use harsh chemicals or abrasive cleaners.

Storage

- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid storing in highly humid environments.

Battery Care

- To prolong battery life, fully charge the power bank at least once every three months if not in regular use.
- Avoid completely draining the battery frequently.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Cable issue, power source issue, or power bank fault.	Try a different charging cable. Ensure the power source is active. If problem persists, contact support.
Device not charging from power bank	Power bank battery low, incorrect cable, or device issue.	Check power bank battery level. Use the correct cable for your device. Try charging a different device.
Slow charging	Cable not supporting fast charge, multiple devices charging, or device not supporting fast charge.	Use a fast-charging compatible cable. Disconnect other devices. Ensure your device supports fast charging.
LED display not working	Power bank is off, or a malfunction.	Ensure the power bank is turned on (if applicable). Try charging the power bank. If problem persists, contact support.
