

Intex 26783

INTEX Prism Frame Rectangular Pool Set: User Manual

Model: 26783

Brand: INTEX

1. INTRODUCTION

Thank you for purchasing the INTEX Prism Frame Rectangular Pool Set. This manual provides essential information for the safe and efficient setup, operation, and maintenance of your new pool. Please read all instructions carefully before assembly and use.

This set includes:

- Pool Liner (Main Body)
- Filter Pump
- Ladder
- Pool Cover

The INTEX Prism Frame Pool features a robust powder-coated metal frame and a durable pool liner, designed for longevity and ease of assembly. Its elegant soft gray exterior with a blue tile print interior offers a sophisticated look for your backyard.

2. SAFETY WARNINGS

WARNING: Failure to follow these instructions can result in serious injury or death.

- Children should never be left unattended in or around the pool. Constant adult supervision is required.
- Ensure children play only in areas where they can stand comfortably.
- This product contains small parts. Keep away from young children to prevent choking hazards.

- Do not dive or jump into the pool.
- Ensure the pool is set up on a level surface to prevent collapse.
- Any damage, malfunction, loss, or accident resulting from rental, auction, resale, or transfer of this product is not the responsibility of the manufacturer.

3. SETUP INSTRUCTIONS

Assembly of the INTEX Prism Frame Pool is designed to be straightforward. It is recommended that at least two adults participate in the assembly process.

1. **Site Preparation:** Choose a firm, level surface for your pool. Clear the area of any sharp objects, debris, or uneven ground. A perfectly level surface is crucial for the structural integrity of the pool.
2. **Unpack Components:** Carefully unpack all components from the box. Verify that all parts listed in the introduction are present.
3. **Assemble Frame:** Follow the diagrams provided in the separate assembly guide (not included in this manual) to connect the metal frame components. Ensure all connections are secure.
4. **Install Pool Liner:** Spread the pool liner evenly within the assembled frame. Ensure the drain plug is accessible and closed.
5. **Fill with Water:** Begin filling the pool with water. As the water level rises, smooth out any wrinkles in the pool liner from the center outwards. Fill to approximately 90% capacity, which is about 3,539 liters.
6. **Install Filter Pump:** Connect the filter pump according to its specific instructions. Ensure all hoses are securely fastened and free of kinks.
7. **Assemble and Place Ladder:** Assemble the ladder. Place it securely against the pool wall, ensuring it is stable before use. The ladder is approximately 91cm high and designed with non-slip feet.

4. OPERATING INSTRUCTIONS

4.1. Using the Filter Pump

The included filter pump is essential for maintaining clean and clear pool water. Operate the pump daily for several hours, depending on usage and water conditions. Refer to the filter pump's specific manual for detailed operating instructions and recommended run times.

4.2. Using the Ladder

The ladder provides easy and safe entry and exit from the pool. Always ensure the ladder is placed on a stable surface and is securely positioned against the pool wall before use. Do not allow children to play on the ladder unsupervised.

4.3. Using the Pool Cover

The pool cover helps to keep debris out of the water and reduces water evaporation. It also assists in warming the water by absorbing sunlight. Place the cover over the water surface when the pool is not in use. Ensure it is securely fitted to prevent it from being blown off by wind.

5. MAINTENANCE

5.1. Water Quality Management

- **Filtration:** Regularly operate the filter pump to circulate and filter the pool water. Clean or replace the filter cartridge as recommended by the filter pump manual (typically every 2-4 weeks, or more frequently with heavy use).
- **Chemical Treatment:** Use appropriate pool chemicals (e.g., chlorine tablets) to sanitize the water and prevent algae growth. Test water chemistry regularly and adjust as needed.
- **Skimming:** Use a skimmer net to remove leaves, insects, and other debris from the water surface daily.

5.2. Pool Cleaning

- **Liner Cleaning:** Periodically brush the pool liner to remove any dirt or algae buildup.
- **Draining:** The pool features a convenient drain plug for easy water drainage when it's time to empty the pool for cleaning or storage.

5.3. Off-Season Storage

Before storing the pool for the off-season, ensure it is completely drained, cleaned, and thoroughly dried to prevent mold and mildew. Disassemble the frame and store all components in a dry, protected area, away from extreme temperatures.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cloudy Water	Insufficient filtration; improper chemical balance; high debris load.	Run filter pump longer; test and adjust water chemistry (chlorine, pH); skim and vacuum pool.
Algae Growth	Low sanitizer levels; poor circulation.	Shock treat with chlorine; add algaecide; ensure proper pump operation.
Pump Not Working	Power issue; clogged filter; air in system.	Check power connection; clean/replace filter cartridge; bleed air from pump system.
Water Level Dropping	Evaporation; leak in liner or connections.	This is normal due to evaporation, especially in hot weather. Check for visible leaks in the liner or hose connections and repair if found.

7. SPECIFICATIONS

- **Model Number:** 26783
- **Product Dimensions (L x W x H):** 300 cm x 175 cm x 80 cm (approx. 118 x 69 x 31.5 inches)
- **Water Capacity (90% full):** Approximately 3,539 Liters (935 Gallons)
- **Recommended Age:** 6 years and up
- **Main Material:** PVC (Polyvinyl Chloride, non-phthalate plasticizers used) for liner, Steel for frame
- **Product Weight:** 48.4 kg (approx. 106.7 lbs)
- **Color:** Gray
- **Shape:** Rectangular

8. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation included with your product packaging or visit the official INTEX website. Keep your purchase receipt as proof of purchase.

Please note that the manufacturer is not responsible for any failures, damages, losses, or accidents arising from the rental, auction, resale, or transfer of this product.
