Philips A4216

Philips A4216 Wireless Sports Headphones Instruction Manual

INTRODUCTION

The Philips A4216 Wireless Sports Headphones are designed for active lifestyles, offering durability and comfort. These headphones provide up to 35 hours of playback time, feature washable cooling ear-cup cushions, and are rated IP55 for water and dust protection. They include Bluetooth connectivity, a 3.5 mm audio port, and a built-in microphone for calls.

WHAT'S IN THE BOX

- Philips A4216 Wireless Sports Headphones
- USB-C Cable
- User Manual

SETUP

1. Power On/Off

To power on the headphones, press and hold the power button located on the right ear cup until the indicator light illuminates. To power off, press and hold the same button until the light turns off.

2. Bluetooth Pairing

1. Ensure the headphones are powered off.
2. Press and hold the power button for approximately 5 seconds until the indicator light flashes blue and red, indicating pairing mode.
3. On your smartphone or Bluetooth-enabled device, go to Bluetooth settings and select "Philips A4216" from the list of available devices.
4. Once connected, the indicator light will turn solid blue.

3. Wired Connection

For a wired connection, plug one end of a 3.5 mm audio cable (not included) into the audio port on the headphones and the other end into your audio device. The headphones will automatically switch to wired mode.

4. Charging

Connect the supplied USB-C cable to the charging port on the headphones and the other end to a USB power source. A full charge takes approximately 2 hours and provides up to 35 hours of playback. A 15-minute quick charge can provide an additional 2 hours of play time.

OPERATING INSTRUCTIONS

1. Music and Call Controls

The headphones feature a multi-function button for various controls:

- **Play/Pause:** Press the multi-function button once.
- **Next Track:** Press the multi-function button twice.
- **Previous Track:** Press the multi-function button three times.
- **Answer/End Call:** Press the multi-function button once during an incoming call or during an active call.
- **Reject Call:** Press and hold the multi-function button for 2 seconds during an incoming call.
- **Activate Voice Assistant:** Press and hold the multi-function button for 2 seconds when no call is active.

2. Active Noise Cancellation (ANC) and Awareness Modes

The headphones offer different listening modes:

- **ANC (Active Noise Cancellation):** Reduces ambient noise for an immersive listening experience.
- **Awareness Mode:** Allows you to hear your surroundings while listening to audio, enhancing safety.
- **Normal Mode:** Standard audio playback without noise cancellation or awareness features.

Switch between these modes using the dedicated ANC button on the left ear cup.

3. App Control and Customization

Download the Philips Headphones app for additional features:

- **Equalizer (EQ) Settings:** Customize audio profiles, including a bass boost setting.
- **Battery Life Indicator:** View the remaining battery life of your headphones.
- **ANC/Awareness Level Control:** Adjust the intensity of noise cancellation or awareness (Low, Medium, High).
- **Touch Control Customization:** Personalize the functions of the touch controls on the right ear cup.

MAINTENANCE

1. Cleaning Washable Ear-Cup Cushions

The ear-cup cushions are designed to be removable and washable. Gently detach the cushions from the ear cups. Hand wash them with mild soap and water, then rinse thoroughly. Allow them to air dry completely before reattaching to the headphones. Do not machine wash or tumble dry.

2. Water and Dust Protection (IP55)

The headphones have an IP55 rating, meaning they are protected against dust ingress and low-pressure water jets from any direction. This makes them suitable for use during workouts or in light rain. However, they are not designed for submersion in water. After exposure to water or sweat, ensure the headphones are dry before charging or storing.

TROUBLESHOOTING

- **No Power:** Ensure headphones are fully charged.
- **Cannot Pair:** Make sure headphones are in pairing mode (flashing blue/red light) and within range of your device. Forget previous Bluetooth connections on your device and try again.
- **No Sound:** Check volume levels on both headphones and connected device. Ensure the correct audio output is selected on your device. If using wired, ensure the cable is fully inserted.
- **Poor Sound Quality:** Try adjusting EQ settings in the Philips Headphones app. Ensure there are no obstructions between headphones and device if using Bluetooth.
- **Microphone Issues:** Ensure the microphone is not muted. Check device settings to confirm headphones are selected as the input device.

WARRANTY AND SUPPORT

For warranty information, technical support, or service inquiries, please refer to the warranty card included in your product packaging or visit the official Philips support website. Keep your proof of purchase for warranty claims.
