KitchenBoss G105

Universal Water-Bottle Pump Dispenser Instruction Manual

Model: G105 | Brand: KitchenBoss

INTRODUCTION

The KitchenBoss Foldable Automatic Water Bottle Pump (Model G105) is a portable electric drinking water pump designed for 1-5 gallon water bottles. This innovative dispenser features a foldable water outlet to maintain hygiene and is equipped with a USB-rechargeable 1400mAh lithium battery for extended use. Its user-friendly design includes one-key operation with preset volume options, making it a convenient solution for accessing clean drinking water in various settings.

SETUP GUIDE

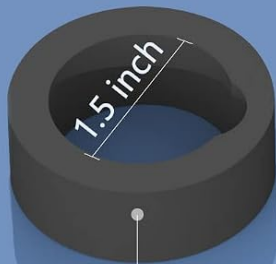

Unboxing and Initial Setup

Before first use, ensure the pump is fully charged using the provided Type-C cable. The built-in 1400mAh lithium battery provides strong endurance for 40-50 days on a full charge.

Installation

1. **Choose Adapter Ring:** Select the appropriate adapter ring (38mm for 1-2 Gallon bottles or 48mm for 3-4 Gallon bottles) based on your water bottle opening. The original size of the G105 (58mm) is suitable for 5 Gallon bottles. If your bottle opening is smaller, install the correct adapter ring on the bottom of the G105 water dispenser.
2. **Connect Silicone Hose:** Screw and connect the silicone water hose to the water inlet position at the bottom of the dispenser.
3. **Insert Hose into Bottle:** Insert the silicone water hose into the water bottle. Ensure the hose is straightened to prevent floating issues.
4. **Secure Dispenser:** Fix the G105 water bottle pump securely to the water bottle opening.

OPERATING INSTRUCTIONS

Dispensing Water

1. **Open Water Outlet:** Gently open the foldable water outlet.
2. **Select Volume:** Click the middle round button. The indicator light will illuminate. Rotate the dial to select your desired water volume (150mL, 250mL, 350mL, 500mL, or 1000mL). The pump will automatically stop when the selected volume is reached.
3. **DISPENSE Function:** For continuous dispensing or larger volumes, select the 'DISPENSE' function. Press the start/stop button to begin pumping and press it again to stop.
4. **MEMORY Function:** The intelligent memory function automatically saves the last 'DISPENSE' water volume for convenience.

One-Touch Operation

KEY FEATURES

- **Foldable Water Outlet:** Keeps the water outlet clean and makes the pump easier to store and carry.
- **Super Long Battery Life:** Built-in 1400mAh lithium battery provides 40-50 days of use on a full charge. Type-C charging cable included.
- **One-key Operation:** Offers 5 preset volumes (150mL/250mL/350mL/500mL/1000mL) with automatic stop, a manual DISPENSE function, and an intelligent MEMORY function.
- **High-quality Food-Grade Materials:** Made with BPA-Free pumping hose and materials compliant with national standards for safe use.
- **Removable Pumping Hose:** Spiral button design allows for easy installation, disassembly, and cleaning.

- **High Compatibility:** Includes 2 adapter rings (38mm and 48mm) suitable for 2-5 gallon barrels and 38MM-58MM diameter water bottle mouths for stable installation.
- **Minimalist Design:** Compact cylinder shape (72mm diameter, 150mm height, 330g weight) for easy portability and storage.
- **High Applicability:** Ideal for indoor gatherings, outdoor parties, field dinners, and long-distance driving.
- **Good Helper of Life:** Suitable for both outdoor and indoor use, making it a convenient tool for family, office, camping, and travel.

The infographic features a central image of the KitchenBoss G105 water bottle pump. It is a silver, cylindrical device with a top control panel and a side-mounted water outlet. The top panel has a dial with five preset volume settings: 150mL, 250mL, 350mL, 500mL, and 1000mL. Below the dial are two buttons labeled 'DISPENSE' and 'MEMORY'. The side outlet is shown in a folded position. A transparent window on the front reveals a green battery level indicator showing '1400 mAh' with a lightning bolt icon.

MAINTENANCE AND CARE

To ensure optimal performance and hygiene, regular cleaning of your KitchenBoss water bottle pump is recommended.

- **Hose Cleaning:** The pumping hose is removable for easy cleaning. Disassemble the hose by unscrewing it from the water inlet. Wash it with mild soap and water, then rinse thoroughly. Ensure it is completely dry before reassembly.
- **Exterior Cleaning:** Wipe the exterior of the dispenser with a damp cloth. Do not submerge the main unit in water.
- **Hose Straightening:** When the hose is taken out for cleaning or storage, it needs to be straightened to effectively avoid the problem of the hose floating when reinserted into the water bottle.

TROUBLESHOOTING

Common Issues

- **Hose Floating:** If the rubber hose floats on top of the water as the level drops, preventing proper siphoning, ensure the hose is straightened before insertion. If the issue persists, a slightly weighted, food-grade alternative hose might be considered.
- **Not Charging or Stopping Working:** If the pump stops charging or functioning after some time, ensure the Type-C cable is properly connected. If the issue persists, the internal mechanism might be stuck; some users have reported success by gently poking the central circular piece inside the pump's mechanism.
- **Low Water Flow:** If the water flow is slow, ensure the battery is sufficiently charged. Also, check that the hose is not kinked or obstructed.

If you encounter persistent issues not covered here, please contact KitchenBoss customer support for assistance.

PRODUCT SPECIFICATIONS

Feature	Detail
Color	Silver
Capacity	5 Gallons
Brand	KitchenBoss
Product Dimensions	2.8"D x 2.8"W x 5.8"H
Style	Pump
Weight	11.64 ounces
Wattage	2 watts
Installation Type	bottled
Power Source	Battery Powered
UPC	781454922512
Item model number	G105

Batteries

1 Lithium Ion batteries required. (included)

SUPPORT AND WARRANTY

For detailed information regarding your product's warranty, please refer to the official documentation included with your purchase. You can also access the Certificate of Compliance (PDF) [here](#).
