1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface. Refer to the parts list to identify each piece.
2. **Assemble the Frame:** Attach the metal legs and support bars to form the X-shape frames. Ensure all connections are finger-tightened initially.
3. **Attach Desk Panels:** Secure the desk panels to the assembled frame using the provided screws. Start with the corner piece, then attach the two L-shaped sections.
4. **Install Monitor Stand:** The monitor stand is movable. Decide whether you want it on the left or right side of the desk. Attach the monitor stand supports to the chosen desk panel, then place the monitor shelf on top.
5. **Tighten All Fasteners:** Once all parts are in place, systematically tighten all screws and bolts using the provided Allen wrench. Do not overtighten.
