bemece YZ006

Bemece Universal Stroller Rain Cover Instruction Manual

Model: YZ006

Introduction

The Bemece Universal Stroller Rain Cover is designed to provide comprehensive protection for your child in various weather conditions. Made from high-quality, food-grade EVA material, it ensures your child stays dry and comfortable while maintaining clear visibility. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting.

The Bemece Stroller Rain Cover provides all-round protection for your child.

Product Features

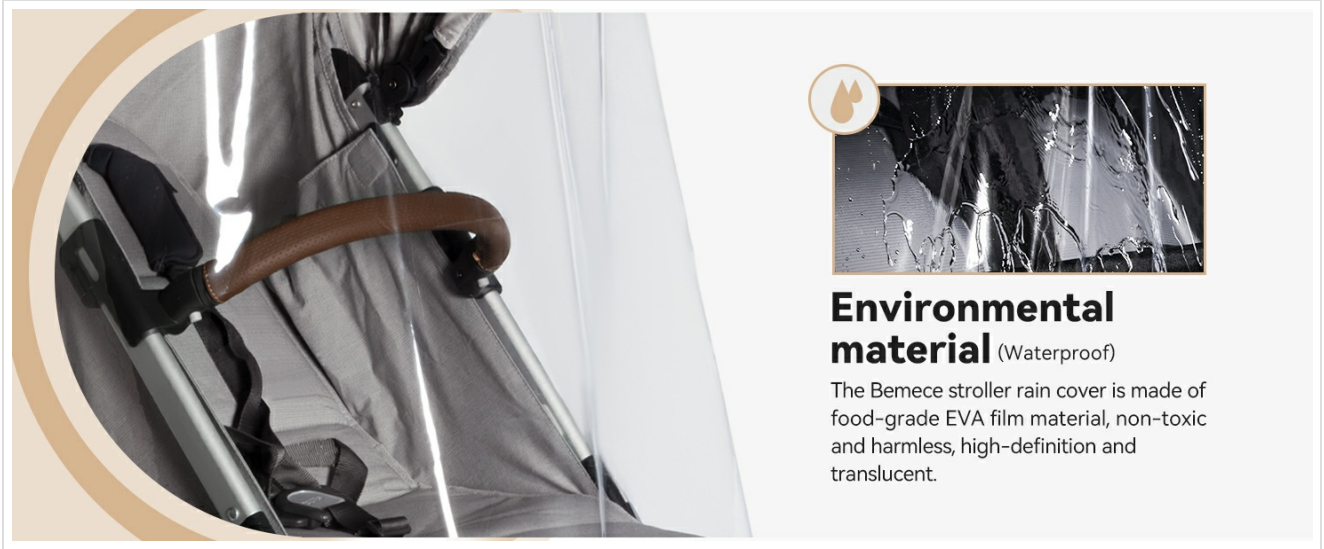

- **Universal Size:** Suitable for most strollers, pushchairs, and baby carriages. Dimensions: 37.5 x 22 x 43 inches.
- **All-round Protection:** Protects children from rain, wind, snow, cold, and dust.
- **Ventilation Holes:** Breathable holes on both sides allow babies to breathe fresh air.
- **Waterproof Material:** High-quality food-grade EVA seamless design prevents water leakage.
- **Reinforced Velcro:** Velcro straps in the front keep the rain cover fixed on the stroller, even in windy conditions.
- **Adjustable Back Velcro Straps:** The velcro on the back can be adjusted to fit the width of the stroller, and provides easy access to items in the back bag.
- **Durable Construction:** Thicker material for better resistance to deformation and strong toughness.

All-round protection from various weather elements.

Features like ventilation holes and reinforced velcro for secure fit.

Made from environmental, waterproof EVA film material.

Air holes on both sides ensure circulating ventilation.

Thicker material provides better resistance to deformation.

Setup and Installation

Follow these steps to properly install the Bemece Stroller Rain Cover:

1. Unfold the rain cover completely.
2. Place the top part of the rain cover over the stroller's canopy, ensuring it covers the entire top section.
3. Secure the back of the rain cover using the adjustable Velcro straps around the stroller's handle or frame.
4. Pull the clear plastic section down over the front and sides of the stroller.
5. Fasten the bottom fixing Velcro straps around the lower frame or wheels of the stroller to ensure a snug fit and prevent wind from lifting the cover.
6. Ensure the ventilation holes on both sides are not obstructed to allow for proper airflow.

Operating Instructions

Once installed, the Bemece Stroller Rain Cover operates passively, providing continuous protection. Ensure the cover is securely fastened before use, especially in windy conditions. The clear material allows for full visibility of your child and the surroundings. The ventilation holes are crucial for air circulation and should remain unobstructed during use.

For quick access to your child or items in the stroller's back bag, utilize the adjustable Velcro straps at the rear of the cover. These allow you to lift or adjust the back portion without fully removing the cover.

Maintenance

To ensure the longevity and effectiveness of your Bemece Stroller Rain Cover, follow these maintenance guidelines:

- **Cleaning:** The rain cover is hand washable. Use mild soap and cold water to clean any dirt or stains. Do not machine wash or tumble dry.
- **Drying:** Air dry the cover completely before folding and storing to prevent mildew.
- **Storage:** Store the cover in a cool, dry place away from direct sunlight and high temperatures to maintain material integrity.
- **Avoid Sharp Objects:** Keep the cover away from sharp objects to prevent punctures or tears.

Troubleshooting

Problem	Possible Cause	Solution
Cover does not fit perfectly or is difficult to install.	Incorrect positioning or stroller size incompatibility.	Ensure the cover is aligned correctly with the stroller's canopy and handles. Verify your stroller dimensions against the product's universal size (37.5 x 22 x 43 inches). Adjust the back Velcro straps for a better fit.
Condensation or stuffiness inside the cover.	Obstructed ventilation holes.	Check that the ventilation holes on both sides of the cover are fully open and not blocked by fabric or other items.

Problem	Possible Cause	Solution
Water leakage.	Improper installation or damage to the material.	Ensure all Velcro straps are securely fastened and the cover is pulled taut. Inspect the material for any tears or punctures. If damaged, contact customer support.
Seams ripping or material tearing.	Excessive force during installation/removal or sharp object contact.	Handle the cover with care during installation and removal. Avoid dragging it on rough surfaces or exposing it to sharp objects.
